

Yapı ve Kredi Bankası A.Ş.

Publicly announced consolidated financial statements and related disclosures at March 31, 2010 together with independent auditor's review report

(Convenience translation of publicly announced consolidated financial statements and review report originally issued in Turkish, See Note I. of Section three)

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I. of Section three)

To the Board of Directors of Yapı ve Kredi Bankası A.Ş.

We have reviewed the accompanying consolidated balance sheet of Yapı ve Kredi Bankası A.Ş. ("the Bank") and its consolidated subsidiaries ("the Group") at March 31, 2010 and the related consolidated income statement, consolidated statement of income and expense items accounted under shareholders' equity, consolidated statement of cash flows and consolidated statement of changes in shareholders' equity for the period then ended. These financial statements are the responsibility of the Bank's management. Our responsibility as independent auditors is to issue a report on these financial statements based on our review.

We conducted our review in accordance with the regulations on account and booking system and accounting and independent audit principles set out as per the Banking Act No. 5411. Those principles require that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement. A review is limited primarily to applying analytical procedures to financial data and making inquiries of the Group's management, and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true and fair view of the financial position of Yapı ve Kredi Bankası A.Ş. and its consolidated subsidiaries at March 31, 2010 and of the results of its operations and its cash flows for the period then ended in accordance with accounting principles and standards set out by regulations in conformity with Articles 37 and 38 of the Banking Act No. 5411 and other regulations, interpretations and circulars published by the Banking Regulation and Supervision Agency on accounting and financial reporting principles.

The consolidated financial statements of the Group as of and for the three months period ended March 31, 2009 and as of and for the year ended December 31, 2009 prepared in accordance with the accounting principles and standards set out by regulations in conformity with Articles 37 and 38 of the Banking Act No. 5411 were reviewed and audited, respectively, by another audit firm, who in their report dated May 13, 2009 stated that nothing has come to their attention that causes them to believe that the consolidated financial statements of the Group as of and for the three months ended March 31, 2009 do not give a true and fair view of the financial position, results of operations and cash flows in accordance with accounting principles and standards set out by regulations in conformity with Articles 37 and 38 of the Banking Act No: 5411 and other regulations, interpretations and circulars published by the Banking Regulation and Supervision Agency on accounting and financial reporting principles, and in their report dated March 2, 2010 expressed an unqualified opinion on the consolidated financial statements as of and for the year ended December 31, 2009.

(Convenience translation of the independent auditor’s review report originally issued in Turkish, See Note 1 of Section three)

Additional paragraph for convenience translation:

As explained in detail in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with Articles 37 and 38 of the Banking Act No. 5411, accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements at March 31, 2010

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Section one

General information about the Group

I. History of the Parent Bank including its incorporation date, initial legal status and amendments to legal status, if any:

Yapı ve Kredi Bankası A.Ş. ("the Bank", "Yapı Kredi" or "the Parent Bank"), was established and started operations on September 9, 1944 with the permission of the Council of Ministers No. 3/6710 as a private capital commercial bank authorised to perform all banking, economic, financial and commercial activities which are allowed by the laws of the Turkish Republic. The statute of the Bank has not changed since its incorporation.

II. Explanation about the Parent Bank's capital structure, shareholders holding directly or indirectly, collectively or individually, the management and controlling power and changes in current year, if any and explanations on the controlling group of the Bank:

The Parent Bank's publicly traded shares are traded on the Istanbul Stock Exchange ("ISE") since 1987 and the representatives of these shares, Global Depository Receipts, are quoted in London Stock Exchange. As of March 31, 2010, 18,20% of the shares of the Bank are publicly traded (December 31, 2009 - 18,20%). The remaining 81,80% is owned by Koç Finansal Hizmetler A.Ş. ("KFS"), a joint venture of UniCredit ("UCI") and Koç Group.

KFS was established on March 16, 2001 to combine Koç Group finance companies under one organisation and it became the main shareholder of Koçbank in 2002. On October 22, 2002, Koç Group established a strategic partnership with UCI over KFS.

In 2005, the Bank's shares that were owned by Çukurova Group Companies and the Saving Deposits Insurance Fund ("SDIF") were purchased by Koçbank. In 2006, Koçbank purchased additional shares of the Bank from ISE and an investment fund and, during the same year, all rights, receivables, debts and liabilities of Koçbank were transferred to the Bank pursuant the merger of the two banks.

In 2006 and 2007, with the acquisition of Yapı Kredi and its subsidiaries, KFS Group launched structural reorganisation and the following subsidiaries were legally merged:

Merging entities		Merger date	Merged entity
Yapı Kredi	Koçbank	2 October 2006	Yapı Kredi
Yapı Kredi Finansal Kiralama A.O. ("Yapı Kredi Leasing")	Koç Leasing	25 December 2006	Yapı Kredi Leasing
Yapı Kredi Faktoring A.Ş. ("Yapı Kredi Faktoring")	Koç Faktoring	29 December 2006	Yapı Kredi Faktoring
Yapı Kredi Portföy Yönetimi A.Ş. ("Yapı Kredi Portföy")	Koç Portföy	29 December 2006	Yapı Kredi Portföy
Yapı Kredi Yatırım Menkul Değerler A.Ş. ("Yapı Kredi Menkul")	Koç Yatırım	12 January 2007	Yapı Kredi Menkul
Yapı Kredi Niderland N.V. ("Yapı Kredi NV")	Koçbank	2 July 2007	Yapı Kredi NV
	Niderland N.V.		

After the merger and the share transfer procedures in 2007 and the capital increase by TL 920 million in 2008, KFS owns 81,80% of the shares of the Parent Bank.

General information about the Group (continued)

Statutory auditors:

Name	Responsibility
Abdullah GEÇER	Auditor
Adil G. ÖZTOPRAK	Auditor

The shares of the above individuals in the Bank are insignificant.

IV. Information on individual and corporate shareholders having control shares of the Parent Bank:

Name/Commercial title	Share amounts (nominal)	Share percentage	Paid-in capital (nominal)	Unpaid portion
Koç Finansal Hizmetler A.Ş.	3.555.712.396,07	81,80%	3.555.712.396,07	-

V. Summary information on the parent bank's activities and services types:

The Parent Bank's activities summarized from the section 5 of the articles of association are as follows:

The Parent Bank's purpose and subject matter in accordance with the Banking Law, regulations and existing laws include:

- The execution of all banking activities
- The execution of all economic and financial activities which are allowed by the regulation
- The execution of representation, attorney and agency activities related to the subjects written above
- The purchase and sale of share certificates, bonds and all the capital market instruments, as part of Capital Market Law and regulations

In case of necessity for performing activities which are useful and required but that are not specified in the articles of association, a Board of Directors' proposal is to be presented to the General Assembly. With the approval of the General Assembly the proposal becomes applicable, subject to the approvals required by law.

As of March 31, 2010, the Parent Bank has 837 branches operating in Turkey and 1 branch in off-shore region (December 31, 2009 - 837 branches operating in Turkey, 1 branch in off-shore region). As of March 31, 2010, the Parent Bank has 14.420 employees (December 31, 2009 - 14.333 employees). The Parent Bank together with its consolidated subsidiaries is referred to as the "Group" in these consolidated financial statements. As of March 31, 2010 the Group has 16.812 employees (December 31, 2009 - 16.713 employees).

Notes to consolidated financial statements March 31, 2010

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Section three

Explanations on accounting policies

I. Basis of presentation:

The Parent Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 ("Banking Act"), which is effective from November 1, 2005, the Turkish Commercial Code and Turkish tax legislation. The consolidated financial statements are prepared in accordance with the "Regulation on the Principles and Procedures Regarding Banks' Accounting Applications and Safeguarding of Documents" published in the Official Gazette No. 26333 dated November 1, 2006 by the BRSA which refers to "Turkish Accounting Standards" ("TAS") and "Turkish Financial Reporting Standards" ("TFRS") issued by the Turkish Accounting Standards Board ("TASB") and other decrees, notes, explanations related to the accounting and financial reporting principles published by the BRSA. The format and the details of the publicly announced consolidated financial statements and related disclosures to these statements have been prepared in accordance with the "Communiqués Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements" published in the Official Gazette No. 26430 dated February 10, 2007.

The financial statements of subsidiaries operating abroad have been prepared in accordance with legislations and regulations of the country in which they are operating, however in order to provide fair presentation according to TAS, necessary adjustments and reclassifications are reflected to those financial statements.

The consolidated financial statements have been prepared in TL, under the historical cost convention as modified in accordance with inflation adjustments applied until December 31, 2004, except for the trading and available for sale financial assets, trading and hedging derivative financial assets and financial liabilities carried at fair value. Besides, the carrying values of financial assets carried at amortised cost but subject to fair value hedge are adjusted to reflect the fair value changes related to the hedged risks.

The preparation of consolidated financial statements in conformity with TAS requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities on the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement.

The accounting policies and valuation principles applied in the preparation of interim financial statements are defined and applied in accordance with TAS and are consistent with the accounting policies applied at financial statements for the year ended December 31, 2009. TAS/TFRS changes (TFRS 2 (Change) "Share-based Payment" Group Cash Settled Share Based Payments, TFRS 3 (Change) "Business Combinations" and TAS 27 (Change) "Consolidated and Separate Financial Statements", TAS 39 (Change) "Financial Instruments: Recognition and Measurement" Eligible Hedged Items, TFRIC 17 "Distribution of Non-cash Assets to Shareholders" and Improvement to TFRS (Published in 2009) effective from January 1, 2010, do not have an effect on the Group's accounting policies, financial position or performance. Those accounting policies and valuation principles are explained in Notes II. to XXIX. below.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. Explanations on strategy of using financial instruments and foreign currency transactions:

The general strategy of the Group of using financial instruments is to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Group is deposits. The Group can also sustain a lengthened liability structure by using long-term foreign currency borrowings from foreign financial institutions. Funds obtained from deposits and other sources are invested in high quality financial assets in order to keep currency, interest rate and liquidity risks within the limits determined by the asset-liability strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed accordingly within the risk limits accepted by the Group and the related legal limits. Derivative instruments are mainly utilized for liquidity needs and for mitigating currency and interest rate risks. The position of the Group as a result of foreign currency activities is being held at minimum levels and the currency risk exposure is followed within the determined levels by the Board of Directors, by considering the limits specified by the Banking Law.

Foreign currency denominated monetary assets and liabilities are translated with the Parent Bank exchange rates prevailing at the balance sheet date and are recognised in the income statement under the account of "Foreign exchange gains or losses", except for valuation differences arising from foreign currency subsidiaries and foreign currency non-performing loans. Since the foreign currency investments and unconsolidated subsidiaries are considered as non-monetary items, they are translated with the exchange rates at the transaction date and therefore no foreign exchange differences are realised. Foreign currency non-performing loans are translated with the exchange rates at the date of transfer to non-performing loan accounts.

The Group hedges part of the currency translation risk of net investments in foreign operations through currency borrowings. The effective portion of the foreign exchange difference of these financial liabilities is recognised in "Hedging Funds" in equity.

III. Information on consolidation principles:

a. Consolidation principles applied:

The consolidated financial statements have been prepared in accordance with the procedures listed in the "Communiqué related to the Regulation on the Preparation of the Consolidated Financial Statements of Banks" published in the Official Gazette No. 26340 dated November 8, 2006 and the "Turkish Accounting Standard for Consolidated and Separate Financial Statements" ("TAS 27").

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

1. Consolidation principles of subsidiaries:

Subsidiaries (including special purpose entity), in which the Group has power to control the financial and operating policies for the benefit of the Parent Bank, either (a) through the power to exercise more than 50% of the voting rights relating to shares in the companies owned directly and indirectly by itself; or (b) although not having the power to exercise more than 50% of the voting rights, otherwise having the power to exercise control over the financial and operating policies, have been fully consolidated.

Control is evident when the Parent Bank owns, either directly or indirectly, the majority of the share capital of the company or owns the privileged shares or owns the right of controlling the operations of the company in accordance with the agreements made with other shareholders or owns the right of appointment or the designation of the majority of the board of directors of the company.

Subsidiaries are consolidated with full consolidation method by considering the results of their activities and the size of their assets and shareholders' equity taking into account the materiality principle. Financial statements of the related subsidiaries are included in the consolidated financial statements from the date control is transferred to the Group and they are taken out of consolidation scope when control no longer exists. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

In accordance with the full consolidation method, balance sheet, income statement and off balance sheet items of the subsidiaries have been consolidated line by line with the balance sheet, income statement and off balance sheet of the Parent Bank. The book value of the investments of the Group in each subsidiary has been netted off with the portion of each subsidiary's capital that belongs to the Group. Unrealized gains and losses and balances resulting from the transactions among the entities included in consolidation have been eliminated. In the consolidated balance sheet and income statement, minority interest has been presented separately from the shares of the Group shareholders.

The subsidiaries included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	Incorporation (City/ Country)	Main activities	Effective rates March 31, 2010	Direct and indirect rates March 31, 2010
Yapı Kredi Sigorta A.Ş.	Istanbul/Turkey	Insurance	93,94	93,94
Yapı Kredi Emeklilik A.Ş.	Istanbul/Turkey	Insurance	93,94	100,00
Yapı Kredi Leasing	Istanbul/Turkey	Leasing	98,85	98,85
Yapı Kredi Faktoring	Istanbul/Turkey	Factoring	99,96	99,96
Yapı Kredi Menkul	Istanbul/Turkey	Investment Management	99,98	99,98
Yapı Kredi B Tipi Yatırım Ortaklığı A.Ş.	Istanbul/Turkey	Portfolio Management	56,06	56,07
Yapı Kredi Portföy	Istanbul/Turkey	Portfolio Management	99,95	99,97
Yapı Kredi Bank Holding B.V.	Amsterdam/Netherlands	Financial Holding	100,00	100,00
Yapı Kredi N.V.	Amsterdam/Netherlands	Banking	100,00	100,00
Yapı Kredi Bank Moscow	Moscow/Russia	Banking	100,00	100,00
Yapı Kredi Azerbaijan	Baku /Azerbaijan	Banking	100,00	100,00
Stiching Custody Services YKB	Amsterdam/Netherlands	Custody Services	100,00	100,00
Yapı Kredi Invest LLC	Baku/Azerbaijan	Portfolio Management	100,00	100,00
Yapı Kredi Diversified Payment Rights Finance Company ⁽¹⁾	George Town/ Cayman Islands	Special Purpose Company		

(1) It is a special purpose entity established for securitization transactions and is included in the consolidation although it is not a subsidiary of the Bank.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

2. Consolidation principles of associates:

The associate is an entity in which the Parent Bank participates in its capital and has significant influence on it although the Parent Bank has no capital or management control, whose main operation is banking and which operates according to special legislation with permission and license and is established abroad. The related associate is consolidated with equity method in accordance with materiality principle.

Significant influence refers to the participation power on the constitution of the financial and management policies of the participated associate. If the Parent Bank has 10% or more voting right on the associate, unless proved otherwise, it is assumed that the Parent Bank has significant influence on that associate.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in an associate from the changes in the participated associate's shareholders' equity during the period attributable to the portion of the investor and the deduction of the dividend received from the associate from the revised value of the associate amount.

The associates included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	(City/ Country)	Main activities	Effective rates March 31, 2010	Direct and indirect rates March 31, 2009
Banque de Commerce et de Placements S.A.Geneva/ Switzerland	Geneva/ Switzerland	Banking	30,67	30,67

3. Consolidation principles of joint ventures: None.

4. Principles applied during share transfer, merger and acquisition:

It is explained in more detail in Note VI. of Section Five.

5. Transactions with minority shareholders:

The Group applies a policy of treating transactions with minority interests as transactions within the Group. The difference between the acquisition cost and net asset acquired is recognised under equity. Disposals from minority interests are also considered as equity transactions and result in changes in the equity of the Group.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

b. Presentation of unconsolidated subsidiaries and associates in consolidated financial statements:

Turkish Lira denominated unconsolidated associates and subsidiaries are accounted for at cost value, less any impairment, in accordance with "Turkish Accounting Standards for Consolidated and Separate Financial Statements" ("TAS 27") in the consolidated financial statements.

Foreign currency denominated unconsolidated associates and subsidiaries are booked at their original foreign currency costs translated into Turkish Lira using the exchange rate prevailing at the transaction date less impairment, if any.

When the cost of associates and subsidiaries is higher than the net realizable value, the carrying amount is reduced to the net realizable or fair value considering whether the value decrease is temporary or permanent and the ratio of the value decrease.

IV. Explanations on forward and options contracts and derivative instruments:

The Group's derivative transactions mostly include foreign currency money and, interest rate swaps, forward foreign exchange purchase and sale transactions and options.

Derivative instruments are measured at fair value on initial recognition and subsequently re-measured at their fair values. The accounting method of the income or loss arising from derivative instruments depends on whether the derivative is being used for hedging purposes or not and depends on the type of item being hedged.

At the transaction date, the Group documents the relationship between hedge instruments and hedged items, together with the risk management policies and the strategies on hedging transactions. Besides, the Group regularly documents the effectiveness of the hedging instruments in offsetting the changes in the fair value of the hedged items.

Changes in the fair value of derivative instruments subject to fair value hedges are recognised under profit or loss accounts together with the variation in the fair value of hedged items. The changes of fair value of derivative transactions for fair value hedge are classified in "Derivative Financial Transactions Gains/Losses" account. In the balance sheet, changes in the fair value of hedged assets and liabilities, during the period in which the hedge is effective, are shown with the related assets and liabilities. If the underlying hedge does not conform to the hedge accounting requirements, the adjustments made to the carrying value (amortised cost) of the hedged item, are discounted within the time to maturity and recognised under the profit and loss accounts.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

The Parent Bank hedges its cash flow risk arising from foreign currency variable interest rate liabilities by using interest rate swaps. The effective portion of the fair value changes of the hedging instruments within this context are recorded in "Hedging funds" under shareholders' equity. These funds are transferred to profit or loss from equity when the cash flows of the hedged items (interest expense) impact the income statement.

In case the cash flow hedge accounting is discontinued due to the expiry, realization or sale of the hedging instrument, or due to the results of the effectiveness test the amounts accounted under shareholders' equity are transferred to the profit and loss accounts as these cash flows of the hedged item are realized.

Certain derivative transactions, even though they provide effective economic hedges under the Group's risk management policy, do not qualify for hedge accounting under the specific rules in "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")" and are therefore treated as "financial assets at fair value through profit or loss".

"Financial assets at fair value through profit or loss" are measured at fair value. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "Financial Assets at Fair Value Through Profit or Loss" in "derivative financial assets held for trading" and if the fair value difference is negative, it is disclosed under "derivative financial liabilities held for trading". Fair value changes are recorded under "Derivative Financial Transactions Gains/(Losses)" in the income statement. The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Options in the Bank's portfolio are valued on a daily basis. Parameters vary according to the type of option (barrier/digital etc.).

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to TAS 39; in case, (i) the related embedded derivative's economic features and risks are not closely related to the host contract, (ii) another derivative instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and (iii) the hybrid instrument is not carried at fair value through profit or loss.

V. Explanations on interest income and expense:

Interest income and expenses are recognised in the income statement on accrual basis by using the effective interest method. The Group ceases accruing interest income on non-performing loans and, any interest income accruals from such receivables are reversed and no income is accounted until the collection is made according to the related regulation.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

VI. Explanations on fee and commission income and expense:

All fees and commission income/expenses are recognized on an accrual basis, certain commission income and fees from various banking services are recorded as income at the time of realization. Loan related fees and commissions paid to or received from the other institutions are considered as transaction costs and accounted using the effective interest method. Contract-based fees or fees received in return for services like the purchase and sale of assets on behalf of a third party are recognized as income at the time of collection.

VII. Explanations on financial assets:

The Group classifies and accounts its financial assets as "fair value through profit or loss", "available-for-sale", "loans and receivables" or "held-to-maturity". The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Group management, taking into consideration the purpose of holding the investment. Regular purchases and sales of financial assets are recorded based on settlement date. Settlement date of a financial asset is the date that the asset is received or delivered by the Group. Settlement date accounting requires; (a) accounting for the financial asset when the asset is received and (b) accounting of disposal of the financial asset and recording the related profit and loss when the asset is delivered. The fair value changes of an asset to be acquired between the trade date and settlement date is accounted in the same manner as acquired assets.

a. Financial assets at fair value through profit or loss:

Financial assets, which are classified as "financial assets at fair value through profit or loss", are trading financial assets and either acquired for generating profit from short-term fluctuations in the price or dealer's margin, or the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading financial assets are initially recognized at fair value and are subsequently re-measured at their fair value. However, if fair values cannot be obtained from active market transactions, it is assumed that the fair value cannot be measured reliably and fair values are calculated by alternative models. All gains and losses arising from these valuations are recognized in the income statement. Interest earned while holding financial assets is reported as interest income and dividends received are included separately in dividend income.

Derivative financial instruments are treated as trading financial assets unless they are not designated as hedge instruments. The principles regarding the accounting of derivative financial instruments are explained in detail in Note IV. of this Section.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

b. Held-to-maturity financial assets:

Held-to-maturity financial assets are non-derivative financial assets other than loans and receivables, with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity and that are not initially classified as financial assets at fair value through profit/loss or available for sale.. Held-to-maturity financial assets are initially recognized at cost plus transaction costs which is considered as their fair value. The fair values of held-to-maturity financial assets on initial recognition are either the transaction prices at acquisition or the market prices of similar financial instruments. Held-to-maturity securities are carried at "amortized cost" using the "effective interest method" after their initial recognition. Interest income related with held-to-maturity securities is recorded in "Interest income" and impairment arising from a decrease in cost or revalued amounts is recorded in "Provision for Impairment of Loans and Other Receivables" accounts.

There are no financial assets that were previously classified as held-to-maturity but cannot be subject to this classification for two years due to breach of classification principles

c. Loans and receivables:

Loans and receivables are non-derivative financial assets that are not quoted in a market or classified as held for trading, at fair value through profit or loss or available for sale, and which have fixed or determinable payments. Loans and receivables are recognized initially at cost including transaction costs (which reflect fair values) and subsequently carried at the amortized cost using the "effective interest method". The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

The Parent Bank provides general and specific provisions based on the assessments and estimates of the management, by considering the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" published in the Official Gazette No. 26333 dated November 1, 2006. In this context, the management estimates are determined, on the basis of the prudence principle and the Parent Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture. General provisions are determined in accordance with the "incurred loss" model taking into consideration of the factors listed above and the principles of TAS 39. The general loan loss provision determined through this methodology is higher than the minimum amount required by the related regulations.

Provision expenses are deducted from the net income of the year. If there is a subsequent collection from a receivable that was already provisioned in previous years, the recovery amount is classified under "other operating income". Uncollectible receivables are written-off after all the legal procedures are finalized.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

d. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as "loans and receivables", "held-to-maturity assets" or "financial asset at fair value through profit or loss".

Available-for-sale financial assets are subsequently re-measured at fair value. When fair values based on market prices cannot be obtained reliably, the available-for-sale financial assets are carried at fair values determined by using alternative models. Available for sale equity securities which are not quoted in a market and the fair values of which can not be determined reliably, are carried at cost less any impairment. "Unrealized gains and losses" arising from changes in the fair value of financial assets classified as available-for-sale are recognized in the shareholders' equity as "Marketable securities valuation differences", until the related assets are impaired or disposed. When these financial assets are disposed or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement. Interest and dividends received from available for sale assets are recorded in interest income and dividend income as appropriate.

VIII. Explanations on impairment of financial assets:

The existence of objective evidence whether a financial asset or group of financial assets is impaired, is assessed at each balance sheet date. If such evidence exists, impairment provision is provided based on the financial assets classification.

Where the estimated recoverable amount of the financial asset, being the present value of the expected future cash flows discounted based on the "effective interest method", or the fair value if one exists, is lower than its carrying value, then the provision classes of Uniform Chart of Accounts are used and provision is made for the diminution in value of the impaired financial asset and it is charged against the income for the year.

The principles for the accounting of provisions for loans and receivables are explained in Note VII. of this section.

IX. Explanations on offsetting financial assets:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognised amounts and there is an intention to collect/pay related financial assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

X. Explanations on sales and repurchase agreements and securities lending transactions:

Securities subject to repurchase agreements ("Repos") are classified as "at fair value difference through profit or loss", "available-for-sale" and "held-to-maturity" according to the investment purposes of the Group and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under "funds provided under repurchase agreements" in liabilities and the difference between the sale and repurchase price is accrued over the life of repurchase agreements using the "effective interest method". Interest expense on repo transactions are recorded under "interest expense on money market transactions" in the income statement.

Funds given against securities purchased under agreements to resell ("Reverse Repo") are accounted under "receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the effective interest method.

The Group has no securities lending transactions.

XI. Information on assets held for resale and related to discontinued operations and explanations on liabilities related with these assets:

According to the TFRS 5, a tangible asset (or a group of assets to be disposed) classified as "asset held for resale" is measured at lower of carrying value and fair value less costs to sell. An asset (or a group of assets to be disposed) is regarded as "asset held for resale" only when the sale is highly probable and the asset (or a group of assets to be disposed) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively in the market at a price consistent with its fair value.

Additionally, assets that were acquired due to non-performing receivables are accounted in the financial statements in accordance with the "Communiqué Regarding the Principles and Procedures for the Disposals of Immovables and Commodities Acquired due to Receivables and for Trading of Precious Metal" published in the Official Gazette dated November 1, 2006, No. 26333 and classified as assets held for resale.

A discontinued operation is a part of the Group's business classified as sold or held for sale. The operating results of the discontinued operations are disclosed separately in the income statement.

The Group has no discontinued operations.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

XII. Explanations on goodwill and other intangible assets:

a. Goodwill:

The excess of the cost of an acquisition over the fair value of the Group's share of the identifiable assets, liabilities or contingent liabilities of the acquired subsidiary at the date of acquisition of the control is recorded as goodwill and represents a payment made by the acquirer in anticipation of future economic benefits from assets that are not capable of being individually identified and separately recognised. The acquirer also recognises assets that are capable of being individually identified and separately recognised, intangible assets (e.g. credit card brand value, deposit base and customer portfolio) and contingent liabilities at fair value, irrespective of whether the asset had been recognised by the acquiree before the business combination; if can be distinguished from the goodwill and if the asset's fair value can be measured reliably.

In line with "Turkish Financial Reporting Standard for Business Combinations" ("TFRS 3"), the goodwill is not subject to amortisation, but is tested annually or more frequently for impairment and carried at cost less accumulated impairment losses, if any, in line with "Turkish Accounting Standard for Impairment on Assets" ("TAS 36"). For the purpose of impairment testing, goodwill acquired in a business combination must be allocated from the acquisition date to each of the acquirer's cash generating units that are expected to benefit from the synergies of the business combination. The Parent Bank allocated its goodwill to Retail Banking, Corporate and Commercial Banking and Private Banking and Wealth Management.

b. Other intangible assets:

Intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortization and the provision for impairment.

The Parent Bank evaluates the possibility of existence of impairment of other intangible assets at the end of each reporting period. If there is an evidence of impairment, the Bank estimates the recoverable amount. The recoverable amount is the higher of net sales price or the value in use. When the book value of another intangible asset exceeds the recoverable amount, the related asset is considered to be impaired. If there is no evidence of impairment, there is no need to estimate the recoverable amount.

Intangibles are amortised over their estimated useful lives using the straight-line method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological or other kinds of obsolescence and all required maintenance expenses necessary to utilise the economic benefit from the asset. The rates used are presented below:

Credit card brand value, deposit base and customer portfolio	10%
Other intangible assets	20%

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

XIII. Explanations on property and equipment:

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, property and equipment are carried at cost less accumulated depreciation and provision for impairment.

Depreciation is calculated over of the cost of property and equipment using the straight-line method. The rates used are stated below:

Buildings	2%
Movables, movables acquired under financial leasing	20%

The depreciation charge for items remaining in property and equipment for less than the full accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

Where the carrying amount of an asset is greater than its estimated "recoverable amount", it is written down to its "recoverable amount" and the provision for impairment is charged to the income statement.

Property and equipment have not been re-valued in order to be presented at fair value in the financial statements.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales proceeds.

Expenditures for the repair and maintenance of property and equipment are recognised as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalised on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

XIV. Explanations on leasing transactions:

The Group performs financial and operational leasing in the capacity of the lessee and lessor.

a. Accounting of leasing operations according to lessee:

Financial lease

The Group includes the lower of the market value of the fixed asset subject to financial leasing in the beginning of the financial leasing period or present value of the lease payments in property and equipment and records the liabilities arising from financial leasing in liabilities. Financing costs arising due to leasing are spread through the lease period forming a fixed interest rate. In addition, fixed assets that are obtained by the way of financial leasing are subject to depreciation based on their useful lives. If a decrease in the value of fixed assets that are subject to financial leasing is noticed, impairment provision is recognised. The liabilities arising from the financial leasing transactions are included in "financial lease payables" on the balance sheet. Interest and foreign exchange expenses regarding financial lease transactions are charged to the income statement. Lease payments are deducted from financial leasing payables.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

Operational lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operational lease. Payments that are made as operational leases, are accounted in income statements on a straight line basis during the lease period.

b. Accounting of leasing operations according to lessor:

Assets that are subject to financial leasing are reflected as a receivable equal to the net leasing amount in consolidated balance sheet. Interest income is earned to form a fixed periodical interest rate on net investment amount of the related leased asset by the lessor and the portion relating to subsequent periods is followed in the unearned interest income account.

XV. Explanations on provisions and contingent asset and liabilities:

Provisions and contingent liabilities, except for the specific and general provisions recognised for loans and other receivables, are accounted in accordance with the "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" ("TAS 37").

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provision for contingent liabilities arisen from past events are recognised in the period of occurrence in accordance with the "matching principle". A provision is recognised when it is probable that the contingent event will occur and a reliable estimate can be made. When a reliable estimate of the amount of obligation cannot be made, it is considered that a "contingent" liability exists and it is disclosed in the related notes to the consolidated financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVI. Explanations on obligations related to employee rights:

a. Employee termination benefits

Obligations related to employee termination and vacation rights are accounted for in accordance with "Turkish Accounting Standard for Employee Rights" ("TAS 19") and are classified under "Reserve for employee rights" account in the balance sheet.

Under the Turkish Labour Law, the Group is required to pay a specific amount to the employees who have retired or whose employment is terminated other than for the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total liability for the future probable obligation of the Group determined by using certain actuarial assumptions.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

b. Pension rights

The Parent Bank's personnel are members of the Yapı ve Kredi Bankası Anonim Şirketi Mensupları Yardım ve Emekli Sandığı Vakfı ("Fund") which was established in accordance with the 20th temporary article of the Social Security Law No. 506. The technical financial statements of the Fund are audited in accordance with the Article 38 of the Insurance Supervision Law and the "Regulation Regarding the Actuaries" by a registered independent actuary.

Temporary article 23 paragraph one of the Banking Act published in the Official Gazette dated November 1, 2005 numbered 25983 stated that foundations like the Fund are to be transferred to the Social Security Institution ("SSI") within three years beginning from the publication date of the article.

The article of the Law related to the transfer was cancelled (pursuant application by the President on November 2, 2005) by the decision of Constitutional Court (decision no: E.2005/39, K. 2007/33 dated March 22, 2007) published in the Official Gazette No. 26479 dated March 31, 2007, and the effect of the law article was suspended from the date of the publication of the decision.

The reasoning of the Constitutional Court regarding the abrogation of the corresponding article was published in the Official Gazette dated December 15, 2007, numbered 26372. With the publication of the reasoning of the decision, the Grand National Assembly of Turkey ("GNAT") started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the "Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations" numbered 5754 ("the New Law") regulating the transfer of the funds were approved by the GNAT on April 17, 2008. The New Law was published in the Official Gazette dated May 8, 2008, numbered 26870 and came into force.

A commission whose members are the representatives of the SSI, the Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, SDIF, one member representing the Fund and one member representing the Fund members is in charge of the calculation of the value of the payment that would need to be made to SSI to settle the obligation using a technical interest rate of 9,8% taking into consideration income and expenses by insurance branches of the funds and the excess of salaries and income paid by the funds over the salaries and income to be paid in accordance with the SSI arrangements related to the members of the Fund as of the date of the transfer including the members who have left the scheme.

In accordance with the New Law, after the transfer to SSI, any social rights and payments to Fund members and their beneficiaries which are not provided although they are included in the Fund Title Deed will continue to be provided by the Fund and the employers of the Fund members.

The main opposition party has applied to the Constitutional Court at June 19, 2008 for cancellation of some articles and requested them to be ineffective until the case of abrogation is finalised. As of the date of the publication of the financial statements, there is no decision of the Constitutional Court announced regarding the court case of abrogation. The Bank provided provision for the technical deficit based on the report prepared by a registered actuary in accordance with the rates determined by the New Law.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

c. Defined contribution plans:

The Group is required to pay certain contributions to the Social Security Institution on behalf of their employees. Other than these payments, the Group does not have any further obligation in this respect. Such premiums are charged to personnel expenses when incurred.

d. Short term benefits of employee:

According to TAS19, liabilities derived from unused vacation pay defined in "Short term benefits of employee" are accrued in the period in which they are realized and are not discounted.

XVII. Explanations on taxation:

a. Current tax:

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

The corporate tax rate in Turkey is 20% and it is calculated on the total income after adjusting for certain disallowable expenses, exempt income and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations, are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to 5 years. Losses cannot be carried back to offset profits from previous periods.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

Under the Turkish Corporate Tax Law, effective from April 24, 2003, investment allowances had provided a deduction from the corporate tax base of 40% of the purchase price of purchases of the brand new fixed assets having economic useful life and exceeding TL 10 and directly related with the production of goods and services and investment allowance that arose prior to April 24, 2003 had been taxed at 19,8% (withholding tax) unless they had been converted to new type at companies' will. Effective from January 1, 2006, Turkish government had ceased to offer investment incentives for capital investments and companies having unused qualifying capital investment amounts as of June 30, 2006 would be able to deduct such amounts from corporate income until the end of December 31, 2008. However, On October 15, 2009, the Ministry of Finance announced that the Turkish Constitutional Court ("TCC") resolved to annul the provision numbered 69 of the Income Tax Law regulating that investment incentives carried forward can only be deducted from the corporate profits of 2006, 2007 and 2008, thus allowing such deduction for unlimited time. The resolution is published in the official gazette dated January 8, 2010.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Tax rates that are used in tax calculations by foreign subsidiaries by taking current tax regulations in their countries into consideration as of March 31, 2010 are as follows:

Netherlands	25,50%
Russia	20,00%
Azerbaijan	20,00%

b. Deferred tax:

The Group calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12") and in accordance with BRSA's explanations and circulars and the tax legislation, the Group calculates deferred tax on temporary differences except for general loan loss provisions, to the extent that future taxable income is estimated to be available.

In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date. Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilised.

Deferred tax assets and liabilities of subsidiaries subject to consolidation have been netted off in their standalone financial statements in accordance with TAS 12. The net deferred tax asset and net deferred tax liability are presented separately in these financial statements.

Tax effect of transactions that are directly accounted under equity are also reflected to equity.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

XVIII. Explanations on borrowings:

Trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at "amortised cost" using the "effective interest method".

The Parent Bank utilises various hedging techniques to minimise the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds have been issued.

XIX. Explanations on issuance of share certificates:

At capital increases, the Parent Bank accounts for the difference between the issued value and nominal value as share premium under shareholders' equity, in cases where the issued value is higher than the nominal value.

No dividend payments of the Parent Bank were announced after the balance sheet date.

XX. Explanations on avalized drafts and letter of acceptances:

Avalized drafts and letter of acceptances are included in the "Off-balance sheet commitments".

XXI. Explanations on government grants:

As of March 31, 2010 and December 31, 2009, the Group has no government grants.

XXII. Profit reserves and profit distribution:

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Legal reserves consist of first and second reserves as foreseen in the Turkish Commercial Code ("TCC"). The TCC specifies that the first legal reserve is appropriated at the rate of 5% until the total reserve is equal to 20% of paid-in capital and that the second legal reserve is appropriated at the rate of 10% of distributions in excess of 5% of paid-in capital; however holding companies are not subject to this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate for accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

XXIII. Earnings per share:

Earnings per share disclosed in the income statement are calculated by dividing net profit for the year to the weighted average number of shares outstanding during the period concerned.

	March 31, 2010	March 31, 2009
Group's profit	562.016	469.961
Weighted average number of issued ordinary shares (Thousand)	434.705.128	434.705.128
Earnings per share (Disclosed in full TL)	0,0013	0,0011

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. These bonus shares are treated as issued shares in earnings per share computations. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year is adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

No bonus shares were issued during 2010. (December 31, 2009 - no bonus shares were issued).

XXIV. Related parties:

For the purpose of these financial statements, shareholders, key management personnel and board members together with their families and companies controlled by/affiliated with them, and associated companies and joint ventures and the Fund providing post employment benefits to the employees of the Bank are considered and referred to as related parties in accordance with "Turkish Accounting Standard For Related Parties" ("TAS 24"). The transactions with related parties are disclosed in detail in Note VII. of Section Five.

XXV. Cash and cash equivalents:

For the purposes of cash flow statement "Cash" include cash, effectives, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and "Cash equivalents" include interbank money market placements, time deposits at banks with original maturity periods of less than three months.

XXVI. Operating segments:

Information about operating segments which are determined in line with the "Turkish Financial Reporting Standard about Operating Segments" ("TFRS 8") together with organisational and internal reporting structure of the Group, are disclosed in Note VII. of in Section Four.

XXVII.Reclassifications:

Reclassifications have been made on comparative figures as of December 31, 2009 and March 31, 2009, to conform to changes in presentation of the consolidated financial statements as of March 31, 2010.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

XXVIII. Legal mergers under common control:

As in TFRS 3 or in another standard in TFRS there is an absence of treatment that specifically applies to business combinations involving entities under common control, by examining the practices included in the generally accepted global accounting standards the Group decided to apply an accounting policy in parallel with the "pooling of interests" method in view of its judgement that the economic substance of the relevant transaction will be most reliably and accurately reflected in this manner. In the accounting of business combinations which occur under common control, assets and liabilities, subject to business combinations, are accounted for in the consolidated financial statements at their carrying values. Income statements are consolidated as of the beginning of the financial year in which the business combinations occurred. Financial statements belonging to previous periods also are adjusted in the same way in order to ensure the comparability. As a result of those transactions, any goodwill or negative goodwill is not calculated. The difference between the investment amount and the share in capital in the acquired company is directly accounted under equity as "the effect of legal mergers under common control".

XXIX. Other accounting policies:

Premium income of insurance companies is recognised by deducting the ceded premium of reinsurance over written risk premiums.

Claims are booked as expense when reported and paid. Reserve for Outstanding Claims is set aside for the ultimate cost of the claims incurred, but not paid in the current or previous periods or, for the estimated ultimate cost if the cost is not yet certain, and for the incurred but not reported claims. Reinsurance share of outstanding and paid claims is netted off in mentioned reserves.

Explanations related to insurance technical reserves

Insurance companies, according to the insurance regulation in force, are required to account unearned premium reserves, provision for unexpired risks, outstanding claims provision, mathematical reserves, provision for bonuses and rebates.

Non-life

Unearned premium reserve ("UPR") is calculated on a daily basis for all policies in force for unearned portions of premiums written, except for earthquake premiums issued before June 14, 2007. For marine policies, UPR is calculated as 50% of the last three months' premiums.

Unexpired risk reserve is set aside if the loss ratio for a branch is higher than 95%. The unexpired risk reserve for that branch is calculated by multiplying the ratio in excess of 95% with the unearned premium reserve for the related branch.

Outstanding claims is set for the estimated cost of claims notified but not settled and incurred but not reported claims ("IBNR") at the balance sheet date, less amounts recoverable from reinsurers.

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

The unearned portion of commissions paid to agencies for the written premiums and commissions received from reinsurers for the ceded premiums are recorded on a daily basis for all policies in force.

Life and Pension

Unearned premium reserve, for insurance contracts in effect, consists of that part of the gross premium which extends to the next fiscal period or periods on a daily basis, and in respect of annual life assurances in effect or those life assurances with periods longer than a year for which accumulation premiums are collected, after the portion that has been set aside for the accumulation is deducted. However, in reinsurance and retrocession transactions where it is impossible to calculate a reserve can be allocated according to 1/8 principle.

Provision for unexpired risks, is a reserve which shall be allocated in those insurance branches for which it is accepted that the level of risk undertaken and earned premiums throughout the contract term are not compatible, and also where unearned premiums reserve is inadequate compared to the risk undertaken by the company and its level of expected cost.

Outstanding claims provision, consists of the amount of claims that has been reported but not yet paid, estimated amount of claims that has been incurred but not reported and reserves for expenses arising from such claims, and of additional reserves allocated according to the principles set by the Undersecretariat of Treasury for adequacy when such amounts prove to be inadequate.

Mathematical reserve, is the sum of the reserves specified in the contract's technical terms and calculated using statistical and actuarial methods in order to cover the liabilities of insurance companies to policyholders and beneficiaries for life, health, sickness and personal accident insurance contracts with periods longer than a year, and if it is committed, the reserves for the part allocated to insured from the revenues derived from the investment of such reserves.

Provision for bonus and rebate; consists of the amounts of bonuses and rebates reserved for insured or beneficiaries according to the technical results of the current year if the company gives bonuses or applies rebates.

The entrance fee income includes the accrued balance when the participants enter the private pension system for the first time or when they open a new private pension account, not exceeding the monthly minimum wage (half of monthly amount for contracts issued after August 9, 2008) at the date the private pension agreement is signed. In the Group's private pension plans, half of the entrance fee is collected within the first year of the contract and is recorded as income. The collection of the other half is deferred till the date the participants leave the private pension system or make a demand for transfer to another company within 10 years (5 years for the contracts issued after August 9, 2008).

Based on the entrance fee amount collected at the beginning, the Group contributes a continuity (loyalty) award (for TL contracts, the deferred portion of the entrance fee is increased with the inflation rate), amounting to the deferred portion of the entrance fee which is fixed for foreign currency denominated contracts and the deferred portion of the entrance fee increased with the inflation for TL contracts, to the private pension account of the participants on the condition that the participants hold their private pension account in the Group for 10 years without interruption. For contracts issued after August 9, 2008, loyalty bonus is given when the participants are entitled to pension therefore the calculation of this provision for contracts issued after this date is made over the probability of the participants to keep their pension accounts in the Group until the date of their eligibility to pension.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations on accounting policies (continued)

Fund management charge, which is charged in return for the fund management services, representation and other services provided to pension funds, is recorded as income in the Group's accounts and is shared between the Group and the funds' portfolio manager according to the ratios specified in the agreement signed between the parties. The total charge is recorded to the Group's technical income as fund management revenue and the part of charge which belongs to the funds' portfolio manager thereof, is recorded in the Group's technical expenses.

Management expense deduction, which is deducted as 8% at most, from contributions made to participants' private pension accounts, is accounted for under the management expense deductions account.

Commission expenses incurred for pension fund operations are accounted as pension operating expenses when incurred. The Group, defers the commissions paid for issuing the private pension contracts in the context of TMS 18 "Revenue" and TMS 39 "Financial Instruments: Recognition and Measurement" with the condition of not exceeding the total guaranteed income from these contracts and by considering the expected period of time to secure this income.

Section four

Information related to financial position of the Group

I. Explanations on consolidated capital adequacy ratio:

- a. The capital adequacy ratio of the Group is 15,70% (December 31, 2009 - 16,52%).
- b. The capital adequacy ratio is calculated in accordance with the "Regulation Regarding the Measurement and Evaluation of Banks' Capital Adequacy Ratio" and "Regulation Regarding Banks' Shareholders' Equity" published as of November 1, 2006 (together referred as "Regulation Regarding Capital Adequacy"). The following tables show the details of "risk weighted assets" and the calculation of "shareholders' equity" for the capital adequacy ratio calculation.
- c. **Information related to capital adequacy ratio:**

Information related to financial position of the Group (continued)

II. Explanations on consolidated market risk:

The Parent Bank considers currency risk, liquidity risk and interest rate risk as the most important components of market risk. The Bank's market risk exposure is calculated on a daily and weekly basis with the "Value-at-Risk Method" on the basis of the marketable securities portfolio and net foreign currency position including the Bank's currency risk. The Bank monitors its position in terms of portfolio created according to risk management policy and value-at-risk limits on a daily basis. All the Bank's on- and off-balance-sheet positions and exchange positions are taken into consideration in the value-at-risk calculations. The results are presented daily to the senior management and monthly to the Asset and Liability Committee. The below table represents the details of market risk calculation as of March 31, 2010 in accordance with Section 3 of the "Regulation Regarding Measurement and Evaluation of Banks' Capital Adequacy Ratio" published in the Official Gazette No. 26333, dated November 1, 2006, namely the "Calculation of Market Risk with Standard Method".

a. Information on market risk:

	March 31, 2010	December 31, 2009
(I) Capital to be employed for general market risk - Standard method	106.321	107.626
(II) Capital to be employed for specific risk -Standard method	38.490	14.694
(III) Capital to be employed for currency risk - Standard method	65.968	26.772
(IV) Capital to be employed for commodity risk - Standard method	-	-
(V) Capital to be employed for settlement risk-Standard method	-	-
(VI) Capital to be employed for market risk due to options-Standard method	131	135
(VII) Capital to be employed for market risk for banks applying risk measurement model	-	-
(VIII) Total capital to be employed for market risk (I+II+III+IV+V+VI+VII)	210.910	149.227
(IX) Amount subject to market risk (12,5xVIII) or (12,5xVII)	2.636.375	1.865.338

III. Explanations on consolidated operational risk:

The Group calculates the amount subject to operational risk based on "Basic Indicator Method" by using 2009, 2008 and 2007 year-end gross income balances of the Group, in accordance with Section 4 of the "Regulation Regarding Measurement and Evaluation of Banks' Capital Adequacy Ratio" effective from June 1, 2007, published in the Official Gazette No. 26333 dated November 1, 2006, namely "The Calculation of the Amount Subject to Operational Risk". As of March 31, 2010, the total amount subject to operational risk is TL 8.999.966 (December 31, 2009 - TL 7.695.259) and the amount of the related capital requirement is TL 719.998 (December 31, 2009- TL 615.621).

IV. Explanations on consolidated currency risk:

The difference between the Parent Bank's foreign currency denominated and foreign currency indexed on- and off-balance sheet assets and liabilities are defined as the "Net Foreign Currency Position" and it is the basis of currency risk. Another important dimension of the currency risk is the changes of the exchange rates of different foreign currencies in "Net Foreign Currency Position" (Cross Currency Risk).

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see in note I. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Information related to financial position of the Group (continued)

The Bank keeps the amount of currency risk exposure within the related legal limits and follows the exchange position on a daily/momentary basis. Notwithstanding, the internal exchange position limit is minimal when compared to the related legal limit, internal position limits are not exceeded during the period. As a tool of currency risk management, derivatives such as swap and forwards are used to abstain from risk whenever needed. In order to guard against extreme volatility during the year Stress tests are applied.

The Parent Bank's publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five days prior to that date are as follows:

(Exchange rates presented as full TL)

	USD	EUR	Yen
Balance sheet evaluation rate	TL 1,48340	TL 2,00090	TL 0,01599
30 March 2010 bid rate	TL 1,48550	TL 2,00220	TL 0,01602
29 March 2010 bid rate	TL 1,48840	TL 1,99120	TL 0,01604
26 March 2010 bid rate	TL 1,49600	TL 1,99660	TL 0,01621
25 March 2010 bid rate	TL 1,49640	TL 2,00110	TL 0,01635
24 March 2010 bid rate	TL 1,49830	TL 2,02420	TL 0,01655

The simple arithmetic average of the Parent Bank's foreign exchange bid rates for the last thirty days preceding the balance sheet date for major foreign currencies are shown in the table below:

USD : TL 1,48996
Euro : TL 2,02358
Yen : TL 0,01644

As of December 31, 2009;

	USD	EUR	Yen
Balance sheet evaluation rate:	TL 1,46800	TL 2,10620	TL 0,01589

Information on currency risk of the Group:

Foreign currency position of the Group is disclosed in terms of the material currencies in the following table. Foreign currency indexed assets, classified as Turkish Lira assets according to Uniform Chart of Accounts, are considered as foreign currency assets for the calculation of Net Foreign Currency Position. In addition, foreign currency general provisions in the balance sheet, specific provision for non cash loans, trading/hedging derivative financial assets and liabilities, prepaid expenses, marketable securities valuation differences and non-performing loans are considered as Turkish Lira in the calculation of the Net Currency Position regarding the related regulation. Therefore, there is a difference between the sum of the foreign currency assets and liabilities in the following table and in the balance sheet. The Group's real position, both in financial and economic terms, is presented in the table below:

Information related to financial position of the Group (continued)

V. Explanations on consolidated interest rate risk:

The monitoring of interest rate sensitive assets and liabilities and sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements are performed by the risk management department for all interest sensitive instruments. The results are presented monthly to Asset and Liability Committee ("ALCO"). By using sensitivity and scenario analyses, the possible loss effects on the equity are analysed due to the interest rate volatility not only within current year but also for the future periods.

Sensitivity analyses are also calculated daily within Market Risk reporting on the basis of maturity and foreign exchange types and reported to Senior Management by checking them against the determined limits.

The Parent Bank utilizes TL/Foreign Currency interest rate swap transactions in order to limit the interest and foreign currency risk arising from short-term deposit and long-term consumer loans within the TL balance sheet. Furthermore, in order to reduce the maturity mismatch in the Foreign Currency balance sheet, Foreign Currency/Foreign Currency interest rate swaps were utilized.

a. Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates:

Information related to financial position of the Group (continued)

VI. Explanations on consolidated liquidity risk:

Liquidity risk comprises the risks arising from the inability to fund the increase in the assets, the inability to cover the liabilities due and the operations performed in illiquid markets. The liquidity risk is managed within the Asset and Liability Management strategy in accordance with the policies of the market risk. In this scope, the funding sources are being diversified, and sufficient cash and cash equivalents are held, the liquidity position of the Parent Bank in the short and the long term is followed. During the monthly meetings of the Assets and Liability Committee, the liquidity position of the Parent Bank is evaluated and it is ensured that the required actions are taken when considered necessary.

Subordinated loans with long-term maturity and off-balance-sheet derivative instruments are used in order to extend the short-term funding structure in the banking sector. The liquidity risk according to the mismatch of assets and liabilities is limited by investing in short-term instruments and liquid bonds.

Information related to financial position of the Group (continued)

VII. Explanations on consolidated operating segments:

Through its new organisational structure launched in February 2009 aimed at further enhancing the customer-focused divisionalised service model as well as supporting the performances of business units in closer collaboration with product factories, the Group carries out its banking operations through three main business units: (1) Retail Banking (including credit cards and SME banking), (2) Corporate and Commercial Banking (3) Private Banking and Wealth Management.

The Group's Retail Banking activities include credit cards, SME (small and medium size enterprises) banking and individual banking. Retail banking products and services offered to customers include credit cards, consumer loans (including general purpose loans, auto loans and mortgages), commercial instalment loans, SME loans, time and demand deposits, investment accounts, life and non-life insurance products and payroll services. Credit card operations cover the management of products and services for member merchants as well as the sales and marketing operations for a variety of customer types. The Parent Bank's Clubs and Programs within the World brand includes Gold Club, Platinum Club, Crystal Club, Adios (Travel Program), Adios Premium (VIP Travel Program), Play Card (Young Employees Program and Student Program), Fenerbahçe Worldcard, KoçAilem Worldcard, Business Club (Corporate Program, Trio Program, Company Program and SME Program), Share Program and Communication Program. The Parent Bank also offers debit cards and a prepaid card named World Hediye Card.

Corporate and Commercial Banking is organised into two sub-segments: Commercial Banking, which serves mid-sized companies; and Corporate Banking, which serves large local and multinational companies. Corporate and Commercial Banking provides products and services including working capital financing, foreign trade finance, project finance, leasing and factoring, domestic and international non-cash credit line facilities such as letters of credit and guarantees, cash management and e-banking services.

Through its private banking and wealth management activities, the Group serves high net worth customers and delivers investment products to this customer segment. Among the products and services offered to Private Banking customers are time deposits, mutual funds, derivative products such as forwards, futures and options, personal loans, foreign exchange, gold and equity trading, pension plans, insurance products, safe deposit boxes and e-banking services. Private Banking services are enhanced by investment advisory and portfolio management services provided by the Parent Bank and its portfolio management and brokerage subsidiaries.

The Group's widespread branch network and alternative distribution channels including ATMs, telephone banking, internet banking and mobile banking are utilized to serve customers in all segments.

Foreign operations include the Group's banking transactions in the Netherlands, Azerbaijan and Russia.

Other operations mainly consist of treasury transactions, operations of supporting business units, insurance operations and other unallocated transactions.

Section five

Explanations and notes related to consolidated financial statements

I. Explanations and notes related to consolidated assets:

a. Information related to cash and the account of the Central Bank of the Republic of Turkey ("the CBRT"):

1. Information on cash and the account of the Central Bank of the Republic of Turkey:

	March 31, 2010		December 31, 2009	
	TL	FC	TL	FC
Cash	372.547	158.072	481.585	173.797
The CBRT	1.116.027	1.964.933	1.302.688	2.034.806
Other	-	186.356	-	236.459
Total	1.488.574	2.309.361	1.784.273	2.445.062

2. Information on the account of the Central Bank of the Republic of Turkey:

	March 31, 2010		December 31, 2009	
	TL	FC	TL	FC
Demand Unrestricted Account	1.116.027	654.976	1.302.688	678.258
Time Unrestricted Account	-	-	-	-
Reserve Requirement ⁽¹⁾	-	1.309.957	-	1.356.548
Total	1.116.027	1.964.933	1.302.688	2.034.806

⁽¹⁾ The TL reserve requirements have been classified in "Central Bank Demand Unrestricted Account" based on the correspondence with BRSA letter as of January 3, 2008.

3. Information on reserve requirements:

In accordance with the "Communiqué Regarding the Reserve Requirements" numbered 2005/1, the banks operating in Turkey are supposed to place reserves in the CBRT for their TL liabilities by 5% and for their foreign currency liabilities by 9% as USD and/or EUR. As of March 31, 2010, the corresponding interest rate for TL is 5,20%, no interest is earned on foreign currency reserve requirements.

As of March 31, 2010, the Group's reserve deposits, including those at foreign banks, amount to TL 1.476.800 (December 31, 2009 – TL 1.555.864).

⁽¹⁾ As a result of the Extraordinary General Assembly Meetings, dated 30 June 2009, of Yapı Kredi Menkul, the Parent Bank's subsidiary with a shareholding of 99,98%, and of Unicredit Menkul Değerler A.Ş. ("UCM"), the Parent Bank's main shareholder Koç Finansal Hizmetler A.Ş.'s subsidiary with a shareholding of 99,99%; it has been decided that Yapı Kredi Menkul's intermediary activities function, which serves corporate clients, was added to UCM's capital in-kind through a partial spin-off over its book values at December 31, 2008. As a result of this operation, the share of the Bank in Yapı Kredi Menkul's capital did not change. According to the spin-off agreement, the Bank has acquired a share in UCM share capital (10,73%). The fair value of this business line was TL 1.432 and classified as share certificates under available for sale portfolio.

j. Information on hedging derivative financial assets:

	March 31, 2010		31 December 2009	
	TL	FC	TL	FC
Fair value hedge	135.832	802	127.678	953
Cash flow hedge	-	972	-	-
Foreign net investment hedge	-	-	-	-
Total	135.832	1.774	127.678	953

Starting from March 1, 2009, the Parent Bank has hedged the possible fair value effects of changes in market interest rates on part of its fixed interest TL mortgage and car loan portfolios and fair value effects of changes in foreign exchange rates on part of its foreign currency denominated funds borrowed using cross-currency interest rate swaps. The net fair value of hedging instruments at March 31, 2010 is a liability amounting to TL 245.267 (December 31, 2009 – TL 228.982) At March 31, 2010, the fair value difference of the hedging instruments since the inception date is TL163.934 (December 31, 2009 – TL 147.649) and the fair value difference of the hedged item is TL 153.563 (December 31, 2009 – TL 140.137).

In order to hedge its cash flow risk from liabilities, the Bank started to apply cash flow hedge accounting from January 1, 2010 onwards. The hedging instruments are USD interest rate swaps with floating receive, fixed pay legs, and the hedged item is the cash outflows due to financing of interests of repricing USD deposits.

k. Information on intangible assets:

	March 31, 2010	December 31, 2009

Notes to consolidated financial statements March 31, 2010 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations and notes related to consolidated financial statements (continued)

2. Information on reserve for employee rights:

In accordance with Turkish Labour Law, reserve for employment termination benefits is calculated as the present value of the probable future obligation in case of the retirement of employees. TAS 19 necessitates actuarial valuation methods to calculate the liabilities of enterprises.

The following actuarial assumptions are used in the calculation of total liabilities:

	March 31, 2010	December 31, 2009
Discount rate (%)	5,92	5,92
Possibility of being eligible for retirement (%)	94,71	94,78

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the effects of future inflation. As the annual ceiling is revised semi-annually, the ceiling of full TL 2.427,04 (full TL) effective from January 1, 2010 (January 1, 2009: TL 2.260,05 (full TL)) has been taken into consideration in calculating the reserve for employment termination benefits.

Movement of employment termination benefit liability in the balance sheet:

	March 31, 2010	December 31, 2009
Prior period ending balance	100.482	94.889
Provisions recognised during the period	4.355	20.610
Paid during the period	(4.737)	(15.031)
Foreign currency differences	(111)	14
Balance at the end of the period	99.989	100.482

In addition, the Group has accounted for unused vacation rights provision amounting to TL 71.445 as of March 31, 2010 (December 31, 2009 - TL 65.717).

Unemployment insurance – employer	1.303	1.041
Other	942	820
Total	22.441	17.120

(iii) Information on deferred tax liability:

There is a net deferred tax liability of TL 473 (December 31, 2009 – TL 2.136) reflected in the consolidated financial statements after the deferred tax assets and liabilities of each entity in consolidation has been net off in their standalone financial statements as per TAS 12.

j. Information on subordinated loans:

	March 31, 2010		December 31, 2009	
	TL	FC	TL	FC
From domestic banks	-	-	-	-
From other domestic institutions	-	-	-	-
From foreign banks	-	2.113.742	-	2.224.023
From other foreign institutions	-	-	-	-
Total	-	2.113.742	-	2.224.023

At March 30, 2006, the Parent Bank obtained a subordinated loan amounting to EUR500 million, with ten years maturity and a repayment option at the end of five years. The interest rate was determined as EURIBOR+2% for the first five years. The loan was obtained from Merrill Lynch Capital Corporation with UniCredito Italiano S.p.A. as guarantor. In addition, the subordinated loan obtained by Koçbank at April 28, 2006 amounting to EUR350 million, with ten years maturity and a repayment option at the end of five years has been transferred to the Bank. The interest rate is determined as EURIBOR+2,25% for the first five years. The loan was obtained from Goldman Sachs International Bank with Unicredit S.p.A. as guarantor. In addition, the Bank obtained a subordinated loan on June 25, 2007 amounting to EUR200 million, with ten years maturity and a repayment option at the end of five years. The interest rate is determined as EURIBOR+1,85% for the first five years. The loan was obtained from Citibank, N.A., London Branch with Unicredito Italiano SpA as guarantor. With the written approvals of the BRSA dated April 3, 2006, May 2, 2006 and June 19, 2007, the loans have been approved as subordinated loans and can be taken into consideration as supplementary capital within the limits of the "Capital Adequacy Regulation".

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Explanations and notes related to consolidated financial statements (continued)

b Information on cash and cash equivalents that are not in use due to legal limitations and other reasons:

As of March 31, 2010, the Group's reserve deposits, including those at foreign banks, amount to TL 1.476.800 (December 31, 2009 – TL 1.555.864).

c. Explanations on other items in the statement of cash flows and the effects of the change in foreign exchange rates on cash and cash equivalents:

Decrease in "Other Account" amounting to TL 141.914 (March 31, 2009 - TL 1.260.740 decrease) which is classified under "Operating profit before changes in operating assets and liabilities" basically includes fee and commissions given, other operating expenses excluding personnel expenses and foreign exchange gains/losses.

Increase in "Net increase/decrease in other liabilities" amounting to TL 138.508 (March 31, 2009 – TL 18.653 increase) which is classified under "Changes in operating assets and liabilities" includes miscellaneous payables, other liabilities.

The effects of the change in foreign exchange rates on cash and cash equivalents is calculated approximately as TL 66.355 decrease as of March 31, 2010.

To conform to changes in presentation of financial statements as of March 31, 2010, the effects of the change in foreign exchange rates on cash and cash equivalents has been calculated as TL 284.945 increase and related reclassifications have been made on comparative figures as of March 31, 2009.

VI. Explanations and notes related to Group's merger, transfers and companies acquired by Bank

2010

None.

2009

As a result of the Extraordinary General Assembly Meetings, dated June 30, 2009, of YK Yatırım, and of UCM it has been decided that YK Yatırım's intermediary activities function, which serves corporate clients, was added to UCM's capital as capital in-kind through a partial spin-off over its book values at December 31, 2008. As a result of this operation, the share of the Bank in YK Yatırım's capital did not change. According to the spin-off agreement, the Bank has acquired a share in UCM share capital (10,73%). The fair value of this business line was TL 1.432 and classified as share certificates under available for sale portfolio.
