**(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I. of Section three)**

## **INTERIM REVIEW REPORT**

To the Board of Directors of Yapi ve Kredi Bankası A.Ş.:

### **Introduction**

We have reviewed the consolidated balance sheet of Yapi ve Kredi Bankası A.Ş. ("the Bank") and its subsidiaries (together will be referred as "the Group") at June 30, 2015 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" except for the matters regulated by BRSA Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

### **Scope of Review**

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity" promulgated by the Public Oversight Accounting and Auditing Standards Authority ("POA") of Turkey. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

### **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true and fair view of the financial position of Yapi ve Kredi Bankası A.Ş. and its subsidiaries at June 30, 2015 and of the results of its operations and its cash flows for the six-month-period then ended in all aspects in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" except for the matters regulated by BRSA Legislation.

**Additional paragraph for convenience translation to English:**

As explained in detail in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation and Turkish Accounting Standard 34" Interim Financial reporting" except for the matters regulated by BRSA Legislation accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Section One**

**General Information**

**I. History of the Parent Bank including its incorporation date, initial legal status and amendments to legal status, if any:**

Yapı ve Kredi Bankası A.Ş. ("the Bank", "Yapı Kredi" or "the Parent Bank"), was established and started operations on September 9, 1944 with the permission of the Council of Ministers No. 3/6710 as a private capital commercial bank authorised to perform all banking, economic, financial and commercial activities which are allowed by the laws of the Turkish Republic. The statute of the Bank has not changed since its incorporation.

**II. Explanation about the Parent Bank's capital structure, shareholders holding directly or indirectly, collectively or individually, the management and controlling power and changes in current year, if any and explanations on the controlling Group of the Bank:**

The Parent Bank's publicly traded shares are traded on the Borsa İstanbul ("BIST") since 1987 and the representatives of these shares, Global Depository Receipts, are quoted at the London Stock Exchange. As of June 30, 2015, 18,20% of the shares of the Bank are publicly traded (December 31, 2014, - 18,20%). The remaining 81,80% is owned by Koç Finansal Hizmetler A.Ş. ("KFS"), a joint venture of UniCredit ("UCG") and Koç Group.

KFS was established on March 16, 2001 to combine Koç Group finance companies under one organisation and it became the main shareholder of Koçbank in 2002. On October 22, 2002, Koç Group established a strategic partnership with UCG over KFS.

In 2005, the Bank's shares that were owned by Çukurova Group Companies and the Saving Deposits Insurance Fund ("SDIF") were purchased by Koçbank. In 2006, Koçbank purchased additional shares of the Bank from BIST and an investment fund and, during the same year, all rights, receivables, debts and liabilities of Koçbank were transferred to the Bank pursuant the merger of the two banks.

In 2006 and 2007, with the acquisition of Yapı Kredi and its subsidiaries, KFS Group launched structural reorganisation and the following subsidiaries is still under the control of group were legally merged:

Merging entities	Merger date	Merged entity
Yapı Kredi	October 2, 2006	Yapı Kredi
Yapı Kredi Finansal Kiralama A.O. ("Yapı Kredi Leasing")	December 25, 2006	Yapı Kredi Leasing
Yapı Kredi Faktoring A.Ş. ("Yapı Kredi Faktoring")	December 29, 2006	Yapı Kredi Faktoring
Yapı Kredi Portföy Yönetimi A.Ş. ("Yapı Kredi Portföy")	December 29, 2006	Yapı Kredi Portföy
Yapı Kredi Yatırım Menkul Değerler A.Ş. ("Yapı Kredi Menkul")	January 12, 2007	Yapı Kredi Menkul
Yapı Kredi Bank Nederland N.V. ("Yapı Kredi NV")	July 2, 2007	Yapı Kredi NV

After the merger and the share transfer procedures in 2007 and of a capital increase by TL 920 million in 2008, KFS owns 81,80% of the shares of the Bank.

Koç Finansal Hizmetler A.Ş. is a joint venture of Koç Group, UniCredit Group and Temel Ticaret ve Yatırım A.Ş.

**V. Summary information on the Parent Bank's activities and service types:**

The Parent Bank's activities summarized in the article 3 of the articles of association are as follows:

The Parent Bank's purpose and subject matter in accordance with the Banking Law, regulations and existing laws include:

- The execution of all banking activities,
- The execution of all economic and financial activities which are allowed by the regulation,
- The execution of the representation, attorney and agency activities related to the subjects written above,
- The purchase and sale of share certificates, bonds and all the capital market instruments, in accordance with Capital Market Law and regulations.

In case of necessity for performing activities which are useful and required but that are not specified in the articles of association, a Board of Directors' proposal is to be presented to the General Assembly. With the approval of the General Assembly the proposal becomes applicable, subject to the approvals required by law.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**General information (continued)**

As of June 30, 2015, the Parent Bank has 1.012 branches operating in Turkey and 1 branch in overseas (December 31, 2014 – 1.002 branches operating in Turkey, 1 branch in overseas).

As of June 30, 2015, the Parent Bank has 18.444 employees (December 31, 2014 - 17.457 employees). The Parent Bank together with its consolidated subsidiaries is referred to as the "Group" in these consolidated financial statements. As of June 30, 2015 the Group has 19.545 employees (December 31, 2014 - 18.534 employees).

The accompanying consolidated financial statements and notes to these financial statements are expressed in thousands of Turkish Lira (TL), unless otherwise stated.

**VI. Differences between the communiqué on preparation of consolidated financial statements of Banks and Turkish Accounting Standards and short explanation about the entities subject to full consolidation or proportional consolidation and entities which are deducted from equity or entities which are not included in these three methods:**

According to Communiqué of the Preparation Consolidated Financial Statements and Turkish Accounting Standards, Banque de Commerce et de Placements SA, one of the associates of the Bank, and Yapı Kredi Koray Gayrimenkul Yatırım Ortaklığı, an entity under common control, are consolidated through "Equity Method" in the accompanying consolidated financial statements of the Group. Allianz Yaşam ve Emeklilik A.Ş., on which the Bank has indirect participation, is also consolidated through "Equity Method" in the consolidated financial statements of the Group. These entities are taken into account as a deduction item in shareholders' equity for the purpose of calculation of capital adequacy ratio.

Yapı Kredi Kültür Sanat Yayıncılık Tic. ve San. A.Ş., and Enternasyonal Turizm Yatırım A.Ş., which are subsidiaries of the Bank, are not consolidated into the Bank's consolidated financial statements in accordance with Communiqué of Preparation of Consolidated Financial Statements since these entities are not financial institutions.

All other subsidiaries are fully consolidated.

**VII. The existing or potential, actual or legal obstacles on the immediate transfer of shareholder's equity between the Bank and its subsidiaries or reimbursement of liabilities:**

None.

The accompanying explanations and notes form an integral part of these consolidated financial statements.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Section Three**

**Accounting policies**

**I. Explanations on basis of presentation:**

The Parent Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 ("Banking Act"), which is effective from November 1, 2005, the Turkish Commercial Code ("TCC") and Turkish Tax Legislation.

The consolidated financial statements are prepared in accordance with the "Regulation on the Principles and Procedures Regarding Banks' Accounting Applications and Safeguarding of Documents" published in the Official Gazette No. 26333 dated November 1, 2006 by the Banking Regulation and Supervision Agency ("BRSA") which refers to "Turkish Accounting Standards" ("TAS") and "Turkish Financial Reporting Standards" ("TFRS") issued by the Public Oversight Accounting and Auditing Standards Authority ("POA") and other decrees, notes and explanations related to the accounting and financial reporting principles (all "Turkish Accounting Standards" or "TAS") published by the BRSA. The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the "Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements" and changes and notes to this communiqué published in the Official Gazette No. 28337 dated June 28, 2012.

The financial statements of subsidiaries operating abroad have been prepared in accordance with legislations and regulations of the country in which they are operating, however in order to provide fair presentation according to TAS, necessary adjustments and reclassifications are reflected to those financial statements.

The accompanying consolidated financial statements are prepared in accordance with the historical cost basis (restated for the changes in the general purchasing power of TL until December 31, 2004), except for financial assets and liabilities at fair value through profit or loss, financial assets available for sale, trading derivative financial liabilities, hedging derivative financial assets/liabilities, art objects, paintings and buildings in tangible assets. Besides, the carrying values of assets carried at amortised cost but subject to fair value hedge are adjusted to reflect the fair value changes related to the hedged risks.

The preparation of consolidated financial statements in conformity with TAS requires the use of certain accounting estimates by the Group management to exercise its judgment on the assets and liabilities on the balance sheet and contingent assets and liabilities as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are explained in the related notes and reflected to the income statement.

The accounting policies and valuation principles applied in the preparation of financial statements are defined and applied in accordance with TAS and are consistent with the accounting policies applied for the year ended December 31, 2014, except for changes on accounting policies from historical cost basis to revaluation basis for buildings in tangible assets.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

#### **Accounting policies (continued)**

The effects of TFRS 9, "Financial Instruments" which has not been implemented yet, are under evaluation by the Group. The standard which the Group did not early adopt will primarily have an effect on the classification and measurement of the Group's financial assets. The Group is currently assessing the impact of adopting TFRS 9. However, as the impact of adoption depends on the assets held by the Group at the date of adoption itself, it is not practical or possible to quantify the effect at this stage. As of the date of these financial statements, the other TAS/TFRS standards announced but not yet effective are not expected to have significant impact on the Group's accounting policies, financial position and performance.

#### **Additional paragraph for convenience translation into English:**

The differences between accounting principles, as described in the preceding paragraphs and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

## **II. Explanations on strategy of using financial instruments and foreign currency transactions:**

The general strategy of the Group in using financial instruments is to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Group is deposits. The Group can also sustain a lengthened liability structure by using long-term foreign currency borrowings from foreign financial institutions. Funds obtained from deposits and other sources are invested in quality financial assets in order to keep currency, interest rate and liquidity risks within the limits determined by the asset-liability strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed accordingly within the risk limits accepted by the Group and the related legal limits. Derivative instruments are mainly utilised for liquidity needs and for mitigating currency and interest rate risks. The position of the Group as a result of foreign currency activities is being held at minimum levels and the currency risk exposure is followed within the determined levels by the Board of Directors by considering the limits specified by the Banking Act.

Foreign currency denominated monetary assets and liabilities are translated with the Parent Bank exchange rates prevailing at the balance sheet date gains and losses arising from such valuations are recognised in the income statement under the account of "Foreign exchange gains or losses", except for valuation differences arising from foreign currency participations, subsidiaries and foreign currency non-performing loans. Foreign currency non-performing loans are translated with the exchange rates at the date of transfer to non-performing loans accounts.

The Group hedges part of the currency translation risk of net investments in foreign operations through currency borrowings. The effective portion of the foreign exchange difference of these financial liabilities is recognised in "Hedging funds" in equity.

The Group, classifies its financial liabilities as the financial liabilities classified at fair value through profit/loss in order to eliminate the accounting mismatch at the initial recognition.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**III. Information on consolidation principles:**

**a. Consolidation principles applied:**

The consolidated financial statements have been prepared in accordance with the procedures listed in the "Communiqué related to the Regulation on the Preparation of the Consolidated Financial Statements of Banks" published in the Official Gazette No. 26340 dated November 8, 2006 and the "Turkish Accounting Standard for Consolidated Financial Statements" ("TFRS 10").

**1. Consolidation principles of subsidiaries:**

Subsidiaries are the entities controlled directly or indirectly by the Parent Bank.

Control is defined as the power over the investee, exposure or rights to variable returns from its involvement with the investee and the ability to use its power over the investee to affect the amount of the Parent Bank's returns.

Subsidiaries are consolidated with full consolidation method by considering the results of their activities and the size of their assets and shareholders' equity. Financial statements of the related subsidiaries are included in the consolidated financial statements from the date control is transferred to the Group and they are taken out of consolidation scope when control no longer exists. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

In accordance with the full consolidation method, balance sheet, income statement and off balance sheet items of the subsidiaries have been consolidated line by line with the balance sheet, income statement and off balance sheet of the Parent Bank. The book value of the investments of the Group in each subsidiary has been netted off with the portion of each subsidiary's capital that belongs to the Group. Unrealized gains and losses and balances resulting from the transactions among the entities included in consolidation have been eliminated. In the consolidated balance sheet and income statement, minority interest has been presented separately from the shares of the Group shareholders.

The subsidiaries included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	Incorporation (City/ Country)	Main activities	Effective	Direct and
			rates (%) June 30, 2015	indirect rates (%) June 30, 2015
Yapı Kredi Leasing	Istanbul/Turkey	Leasing	99,99	99,99
Yapı Kredi Faktoring	Istanbul/Turkey	Factoring	99,96	99,96
Yapı Kredi Menkul	Istanbul/Turkey	Investment Management	99,98	99,98
Yapı Kredi Portföy	Istanbul/Turkey	Portfolio Management	99,95	99,97
Yapı Kredi Holding B.V.	Amsterdam/Netherlands	Financial Holding	100,00	100,00
Yapı Kredi Bank N.V.	Amsterdam/Netherlands	Banking	100,00	100,00
Yapı Kredi Bank Moscow	Moscow/Russia	Banking	100,00	100,00
Yapı Kredi Azerbaijan	Baku /Azerbaijan	Banking	100,00	100,00
Stiching Custody Services YKB	Amsterdam/Netherlands	Custody services	100,00	100,00
Yapı Kredi Invest LLC	Baku/Azerbaijan	Portfolio Management	100,00	100,00
Yapı Kredi Malta	St.Julian/Malta	Banking	100,00	100,00
Yapı Kredi Diversified Payment Rights Finance Company <sup>(1)</sup>	George Town/ Cayman Islands	Special Purpose Company	-	-

(1) It is a structured entity established for securitization transactions and is included in the consolidation although it is not a subsidiary of the Parent Bank.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**2. Consolidation principles of associates:**

The associates are entities in which the Parent Bank participates in their capital and has significant influence on them, although the Parent Bank has no capital or management control, is established in domestic and abroad. The related associates are consolidated with equity method.

Significant influence refers to the participation power on the constitution of the financial and management policies of the participated associate.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in an associate from the changes in the participated associate's shareholders' equity during the period attributable to the portion of the investor and the deduction of the dividend received from the associate from the revised value of the associate amount.

The associates included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	(City/ Country)	Main activities	Effective rates % June 30, 2015	Direct and indirect rates % June 30, 2015
Banque de Commerce et de Placements S.A.	Geneva/Switzerland	Banking	30,67	30,67
Allianz Yaşam ve Emeklilik A.Ş.	İstanbul/Türkiye	Insurance	20,00	20,00

**3. Consolidation principles of joint ventures:**

The joint venture is an entity in which the Parent Bank participates in its capital and has joint control and whose main operation is real estate investment trust ("REIT") and operates according to special legislation with permission and license and is established in Turkey. The related joint venture is consolidated with equity method in accordance with materiality principle.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in a joint venture from the changes in the participated joint venture's shareholders' equity during the period attributable to the portion of the investor and the deduction of the dividend received from the associate from the revised value of the associate amount.

The joint venture included in consolidation, its title, its place of incorporation, main activities and effective shareholding rates are as follows:

Title	(City/ Country)	Main activities	Effective rates % June 30, 2015	Direct and indirect rates % June 30, 2015
Yapı Kredi Koray Gayrimenkul Yatırım Ortaklığı A.Ş.	İstanbul/Turkey	REIT	30,45	30,45

**4. Transactions with minority shareholders:**

The Group applies a policy of treating transactions with minority interests as transactions within the Group. The difference between the acquisition cost and net asset acquired is recognised under equity. Disposals from minority interests are also considered as equity transactions and result in changes in the equity of the Group.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**b. Presentation of unconsolidated subsidiaries, associates and joint ventures in consolidated financial statements:**

Turkish Lira denominated investments in unconsolidated associates, subsidiaries and joint ventures are accounted at cost value, less any impairment, in accordance with "Turkish Accounting Standards for Individual Financial Statements" ("TAS 27") in the consolidated financial statements.

Foreign currency denominated investments in unconsolidated associates, subsidiaries and joint ventures are accounted at their original foreign currency costs translated into Turkish Lira using the exchange rates prevailing at the transaction date less impairment, if any.

When the cost of associates, subsidiaries and joint ventures is higher than the net realizable value, the carrying amount is reduced to the net realizable or fair value considering whether the value decrease is temporary or permanent and the ratio of the value decrease.

**IV. Explanations on forward and options contracts and derivative instruments:**

The Group's derivative transactions mostly include foreign currency money and interest rate swaps, forward foreign exchange purchase and sale transactions and options.

Derivative instruments are measured at fair value on initial recognition and subsequently re-measured at their fair values. As a result, the fair value of derivatives is reflected as net liability or net asset on a contract by contract basis. The accounting method of the income or loss arising from derivative instruments depends on whether the derivative is being used for hedging purposes or not and depends on the type of item being hedged.

At the transaction date, the Group documents the relationship between hedging instruments and hedged items, together with the risk management policies and the strategies on hedging transactions. Besides, the Group regularly documents the effectiveness of the hedging instruments in offsetting the changes in the fair value of the hedged items.

Changes in the fair value of derivative instruments subject to fair value hedges are recognized under profit or loss accounts together with the variation in the fair value of hedged items. The changes of fair value of derivative transactions for fair value hedge are classified in "Derivative Financial Transactions Gains/Losses" account. In the balance sheet, changes in the fair value of hedged assets and liabilities, during the period in which the hedge is effective, are shown with the related assets and liabilities. The ineffective portion of the mentioned hedging transactions is reflected to the income statement. If the underlying hedge does not conform to the hedge accounting requirements, according to the adjustments made to the carrying value (amortised cost) of the hedged item, for which the risk is hedged by a portfolio hedge, are amortized with the straight line method within the time to maturity and recognized under the profit and loss accounts. Fair value adjustments are recognized directly in the income statement in an event of repayment and/or unwinding and/or the recognition of the hedged item.

The Parent Bank hedges its cash flow risk arising from foreign currency and Turkish Lira floating interest rate liabilities by using interest rate swaps. The effective portion of the fair value changes of the hedging instruments are recorded in "Hedging funds" under shareholders' equity. These funds are transferred to profit or loss from equity when the cash flows of the hedged items (interest expense) impact the income statement.

In case the cash flow hedge accounting is discontinued due to the expiry, realization for sale of the hedging instrument, termination of the hedged risk or due to the results of the effectiveness test the amounts accounted under shareholders' equity are transferred to the profit and loss accounts as these cash flows of the hedged item are realized.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

Some of the trading purpose derivative transactions, even though they provide effective economic hedges under the Group's risk management policy, do not qualify for hedge accounting under the specific rules in "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")" and are therefore treated as "financial instruments at fair value through profit or loss".

"Financial instruments at fair value through profit or loss" are measured at fair value. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "financial assets at fair value through profit or loss" in "derivative financial assets held for trading" and if the fair value difference is negative, it is disclosed under "derivative financial liabilities held for trading". Fair value changes are recorded under "Derivative Financial Transactions Gains/ (Losses)" in the income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Parameters used for the valuation of the option portfolio of the Parent Bank are determined by market risk management and the confirmation of the accuracy of fair value calculations are monitored periodically by market risk management.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to TAS 39; in case, (i) the related embedded derivative's economic features and risks are not closely related to the host contract, (ii) another instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and (iii) the hybrid instrument is not carried at fair value through profit or loss.

Credit derivatives are capital market tools designed to transfer credit risk from one party to another.

As of June 30, 2015, the Parent Bank's credit derivatives portfolio included in the off-balance sheet accounts is composed of credit linked notes (embedded derivatives are separated from host contract in line with TAS 39 and recorded as credit default swaps) and credit default swaps.

Credit linked notes are bonds that have repayments depending on a credit event or the credit risk evaluation of a reference asset or asset pool. Depending on whether the reference assets are included in the balance sheet of the issuer or the owner of the assets, these transactions can be accounted by the party assuming the credit risk as insurance or as an embedded derivative. As per the Bank's management evaluation, the embedded derivatives included in the credit linked notes are separated from the host contracts in accordance with TAS 39 and recorded and evaluated as credit default swaps. The bond itself (host contract) is valued in accordance with the valuation principles of the category it is classified. Credit default swaps are contracts, in which the seller commits to pay the contract value to the buyer in case of certain credit risk events in return for the premium paid by the buyer for the contract.

Credit default swaps are contracts, in which the seller commits to pay the contract value to the buyer in case of certain credit risk events in return for the premium paid by the buyer for the contract. Credit default swaps are valued daily by the valuation model of the Parent Bank and then accounted over their fair values; while credit linked notes are valued and accounted monthly.

Market risks of these products are monitored using the Parent Bank's internal modeling system for the Value-at-Risk and basis points sensitivity analysis; the liquidity risks are monitored using the short term liquidity report on daily and the long term liquidity report on monthly basis.

According to the regulations of BRSA, those currency exchange transactions realized at value date in the initial phase of currency swaps are recorded and followed as irrevocable commitments in off-balance sheet accounts until the value date.

A Credit Valuation Adjustment (CVA) is applied to the Bank's over-the-counter derivative exposures to take into account the counterparty's risk of default when measuring the fair value of the derivative. CVA is the mark-to-market cost of protection required to hedge credit risk from counterparties in the Bank's over-the-counter derivatives portfolio. The Bank calculates CVA based on collective provisioning methodology calculated in accordance with international financial reporting standards, TAS 39, comprising the product of Exposure, Probability of Default (PD) and Loss Given Default (LGD). CVA is calculated based on the exposure of each counter party.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**V. Explanations on interest income and expense:**

Interest income and expenses are recognised in the income statement on an accrual basis by using the effective interest method periodically. The Group ceases accruing interest income on non-performing loans and, any interest income accruals from such receivables are reversed and no income is accounted until collection is made according to the related regulation.

**VI. Explanations on fee and commission income and expenses:**

Fees and commissions received as a result of the service agreements or arising from negotiating or participating in the negotiation of a transaction on behalf of a third party are recognized either in the period when the transaction is realized or deferred based on the type of the underlying transaction. Other commission income and fees from various banking services are recorded as income at the time of realization.

**VII. Explanations on financial assets:**

The Group classifies and accounts its financial assets as "Fair value through profit or loss", "Available-for-sale", "Loans and receivables" or "Held-to-maturity". The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Group management, taking into consideration the purpose of holding the investment. Regular purchases and sales of financial assets are recorded based on settlement date. Settlement date of a financial asset is the date that the asset is received or delivered by the Group. Settlement date accounting requires; (a) accounting for the financial asset when the asset is received and (b) accounting of disposal of the financial asset and recording the related profit and loss when the asset is delivered. The fair value changes of an asset to be acquired between the trade date and settlement date is accounted in accordance with the basis of valuation of assets.

**a. Financial assets at fair value through profit or loss:**

Financial assets, which are classified as "Financial assets at fair value through profit or loss", are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer's margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading financial assets are initially recognized at fair value and are subsequently re-measured at their fair value. However, if fair values cannot be obtained from active market transactions, it is assumed that the fair value cannot be measured reliably and fair values are calculated by alternative models. All gains and losses arising from these valuations are recognized in the income statement. Interest earned while holding financial assets is reported as interest income and dividends received are included separately in dividend income.

Derivative financial instruments are treated as trading financial assets unless they are designated as hedge instruments. The principles regarding the accounting of derivative financial instruments are explained in detail in Note IV. of this section.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**b. Held-to-maturity financial assets:**

Held-to-maturity financial assets are non-derivative financial assets other than loans and receivables, with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity and that are not initially classified as financial assets at fair value through profit/loss or available for sale. Held-to-maturity financial assets are initially recognized at total of acquisition and transaction cost. Held-to-maturity securities are carried at "Amortized cost" using the "Effective interest method" after their initial recognition. Interest income related with held-to-maturity securities is recorded in "Interest income" and impairment arising from a decrease in cost or revalued amounts is recorded in "Provision for impairment of loans and other receivables" accounts.

There are no financial assets that were previously classified as held-to-maturity but cannot be subject to this classification for two years due to breach of classification principles. In accordance with TAS 39, sales or reclassification to available for sale portfolio of insignificant amount of financial assets, sale or reclassification to available for sale portfolio of financial assets which are close to maturity less than three months, or sale or reclassification to available for sale portfolio of assets as a result of significant increase in the risk weights of held-to-maturity investments used for regulatory risk-based capital purposes will not result in tainting.

**c. Loans and receivables:**

Loans and receivables are financial assets raised through lending without having the intention to trade in the short term. Loans and receivables are non derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted on active market. Loans and receivables are recognized initially at cost including transaction costs (which reflect fair values) and subsequently carried at the amortized cost using the "effective interest method". The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

Retail, commercial and corporate loans included in cash loans are accounted for with their original maturities in accounts which are mentioned in the Uniform Chart of Accounts ("UCA"). Foreign currency indexed loans are initially measured at local currency accounts with the foreign exchange rate prevailing at date of the initial recognition and re-valued with the relevant foreign currency rates prevailing at the date of the financial statements. Increase or decrease in the value of the principal amount of the loan due to changes in foreign exchange rates is accounted in the related income and expense accounts. Repayment amounts are translated with the foreign exchange rates prevailing at the repayment dates and the valuation differences is accounted for in foreign exchange gain/loss accounts.

The Parent Bank provides general and specific provisions based on the assessments and estimates of the management, by considering the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" ("Provisioning Regulation") published in the Official Gazette No. 26333 dated November 1, 2006. In this context, the management estimates are determined, on the basis of the prudence principle and the Parent Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

Provision expenses are deducted from the net income of the year. If there is a subsequent collection from a receivable that was already provisioned in previous years, the recovery amount is classified under "Other operating income". Uncollectible receivables are written-off after all the legal procedures are finalized.

**d. Available-for-sale financial assets:**

Available-for-sale financial assets are defined as financial assets other than the ones classified as "Loans and receivables", "Held-to-maturity assets" or "Financial assets at fair value through profit or loss".

Available-for-sale financial assets are subsequently re-measured at fair value. When fair values based on market prices cannot be obtained reliably, the available-for-sale financial assets are carried at fair values determined by using alternative models. Available for sale equity securities which are not quoted on a market and the fair values of which cannot be determined reliably, are carried at cost less any impairment. "Unrealized gains and losses" arising from changes in the fair value of financial assets classified as available-for-sale are recognized in the shareholders' equity as "Marketable securities valuation differences", until the related assets are impaired or disposed. When these financial assets are disposed or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement. Interest and dividends received from available for sale assets are recorded in interest income and dividend income as appropriate.

Interest income on available for sale financial assets are calculated by effective interest rate method and are accounted for in interest income account. At the time of sale of an available for sale financial assets before the maturity, the difference between the profit, which is the difference between the cost and sales price of the financial assets, and the interest income accrual are accounted under "Trading gains/(losses) on securities" according to the UCA.

**VIII. Explanations on impairment of financial assets:**

The existence of objective evidence whether a financial asset or group of financial assets is impaired, is assessed at each balance sheet date. If such evidence exists, impairment provision is provided based on the financial assets classification.

Impairment for held to maturity financial assets carried at amortized cost is calculated as the difference between the expected future cash flows discounted at the effective interest rate method and the carrying value. The impairment amount transferred from shareholders' equity to profit or loss for available for sale securities is calculated as the difference between the purchase cost (after deduction of principal repayments and redemption) and the fair value less any impairment that was previously recorded in profit or loss. This amount is recorded in expense accounts in accordance with the UCA.

The principles for the accounting of provisions for loans and receivables are explained in Note VII. of this section.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**IX. Explanations on offsetting financial assets:**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Group has a legally enforceable right to offset the recognised amounts and there is an intention to collect/pay related financial assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

**X. Explanations on sales and repurchase agreements and securities lending transactions:**

Securities subject to repurchase agreements ("Repos") are classified as "At fair value through profit or loss", "Available-for-sale" and "Held-to-maturity" according to the investment purposes of the Group and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under "Funds provided under repurchase agreements" in liabilities and the difference between the sale and repurchase price is accrued over the life of the repurchase agreements using the "Effective interest method". Interest expense on repo transactions are recorded under "Interest expense on money market transactions" in the income statement.

Funds given against securities purchased under agreements to resell ("reverse repo") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the effective interest method.

The Group has no securities lending transactions.

**XI. Information on assets held for resale and related to discontinued operations and explanations on liabilities related with these assets:**

According to the TFRS 5, a tangible asset (or a group of assets to be disposed) classified as "Asset held for resale" is measured at lower of carrying value and fair value less costs to sell. An asset (or a group of assets to be disposed) is regarded as "Asset held for resale" only when the sale is highly probable and the asset (or a group of assets to be disposed) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively in the market at a price consistent with its fair value.

Additionally, assets that were acquired due to non-performing receivables are accounted in the financial statements in accordance with the "Communiqué Regarding the Principles and Procedures for the Disposals of Immovables and Commodities Acquired due to Receivables and for Trading of Precious Metal" published in the Official Gazette dated November 1, 2006, No. 26333 and classified as assets held for resale.

A discontinued operation is a part of the Group's business classified as sold or held for sale. The operating results of the discontinued operations are disclosed separately in the income statement.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**XII. Explanations on goodwill and other intangible assets:**

**a. Goodwill:**

The excess of the cost of an acquisition over the fair value of the Group's share of the identifiable assets, liabilities or contingent liabilities of the acquired subsidiary at the date of acquisition of the control is recorded as goodwill and represents a payment made by the acquirer in anticipation of future economic benefits from assets that are not capable of being individually identified and separately recognised. The acquirer also recognises assets that are capable of being individually identified and separately recognised, intangible assets (e.g. credit card brand value, deposit base and customer portfolio) and contingent liabilities at fair value, irrespective of whether the asset had been recognised by the acquiree before the business combination, if it can be distinguished from the goodwill and if the asset's fair value can be measured reliably.

In line with "Turkish Financial Reporting Standard for Business Combinations" ("TFRS 3"), the goodwill is not subject to amortisation but is tested annually or more frequently for impairment and carried at cost less accumulated impairment losses, if any, in line with "Turkish Accounting Standard for Impairment on Assets" ("TAS 36").

**b. Other intangible assets:**

Intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortisation and the provision for impairment.

The Group evaluates the possibility of existence of impairment of intangible assets at the end of each reporting period. If there is an evidence of impairment, the Group estimates a recoverable amount in accordance with the Turkish Accounting Standard (TAS 36) "Impairment of Assets". The recoverable amount is the higher of net sales price or the value in use. When the book value of another intangible asset exceeds the recoverable amount, the related asset is considered to be impaired. If there is no evidence of impairment, there is no need to estimate the recoverable amount.

Intangibles are amortised over their estimated useful lives using the straight-line method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological and other kinds of obsolescence and all required maintenance expenses necessary to utilise the economic benefit from the asset. The rates used are presented below:

Credit card brand value, deposit base and customer portfolio	10%
Other intangible assets	20%

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**XIII. Explanations on property and equipment:**

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement in accordance with the Turkish Accounting Standard (TAS 16) "Tangible Assets". Subsequently, properties and equipments, except art objects, paintings and buildings, are carried at cost less accumulated depreciation and provision for impairment.

The Group adopted fair value accounting method for its buildings as of March 31, 2015 in tangible assets in accordance with TAS 16.

Depreciation is calculated over the cost of property and equipment using the straight-line method. The rates used are stated below:

Buildings	2-4%
Movables, movables acquired under financial leasing	20%

The depreciation charge for items remaining in property and equipment for less than a full accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

In accordance with the Turkish Accounting Standard (TAS 36) "Impairment of Assets", where the carrying amount of an asset is greater than its estimated "recoverable amount", it is written down to its "recoverable amount" and the provision for impairment is charged to the income statement.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales proceeds.

Expenditures for the repair and maintenance of property and equipment are recognised as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalised on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

**XIV. Explanations on leasing transactions:**

The Group performs financial and operational leasing in the capacity of the lessee and lessor.

**a. Accounting of leasing operations according to lessee:**

**Financial lease**

The Group includes the lower of the market value of the fixed asset subject to financial leasing in the beginning of the financial leasing period or present value of the lease payments in property and equipment and records the liabilities arising from financial leasing in liabilities. Financing costs arising due to leasing are spread through the lease period forming a fixed interest rate. In addition, fixed assets that are obtained by the way of financial leasing are subject to depreciation based on their useful lives. If a decrease in the value of fixed assets that are subject to financial leasing is noticed, impairment provision is recognised. The liabilities arising from financial leasing contracts are accounted under "financial lease payables". Expenses arising from interest and exchange rate changes related to financial leasing liabilities are charged to the income statement. Lease payments are deducted from financial leasing payables.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

#### **Accounting policies (continued)**

##### **Operational lease**

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operational lease. Payments that are made under operational leases are accounted in income statements on a straight line basis during the lease period.

##### **b. Accounting of leasing operations according to lessor:**

Assets that are subject to financial leasing are reflected as a receivable equal to the net leasing amount in the consolidated financial statements. Interest income is earned to form a fixed periodical interest rate on net investment amount of the related leased asset by the lessor and the portion relating to subsequent periods is followed in the unearned interest income account.

##### **Allowances for impairment of lease receivables**

The lease receivables provision for the impairment of investments in direct finance leases is established based on a credit review of the receivables portfolio. The Group has set this provision in accordance with the Communiqué of BRSA named "The Procedures Regarding the Provisions to Be Provided for the Loans of Leasing, Factoring and Consumer Finance Companies" ("Provisions Communiqué") which was published in the Official Gazette dated December 24, 2013, numbered 28861. According to the Communiqué, specific provisions are set in following proportions: minimum 20% for collateralized lease receivables for which related collections are delayed between 150 and 240 days, minimum 50% for collateralized lease receivables for which related collections are delayed between 240 and 360 day and 100% for collateralized lease receivables for which related collections are delayed more than 1 year.

In accordance with the related Communiqué of Provision, the Group also recognizes specific provision even if the overdue days are less than the days stated above or receivables are not over due at all, by taking into account all the existing data regarding the creditor and based on the principals of reliability and prudence.

In the Communiqué of Provisions, it is stated that although it is not mandatory, a general provision which is not related to a specific transaction can be recognised for the losses arising from the principal or interest of lease receivables that are not overdue or overdue less than 150 days but the amount of loss is not certain. In accordance with the Communiqué of Provisions, the Group sets a general provision for the lease receivables that have not been considered as doubtful yet.

Finance lease receivables and accounts receivables that cannot be recovered are written off and charged against the allowance for the impairment of lease and accounts receivables. Such receivables are written off after all the necessary legal proceedings have been completed and the amount of loss is finally determined. Recoveries of amounts previously provided for are treated as a reduction from the provision for the impairment of the lease receivable and are recognized as income.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**XV. Explanations on provisions and contingent assets and liabilities:**

Provisions and contingent liabilities, except for the specific and general provisions recognised for loans and other receivables, are accounted in accordance with the "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" ("TAS 37").

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions for contingent liabilities arisen from past events are recognised in the period of occurrence in accordance with the "Matching principle". A provision is recognised when it is probable that the contingent event will occur and a reliable estimate can be made. When a reliable estimate of the amount of obligation cannot be made, or it is not probable that an outflow of resources will be required to settle the obligation, it is considered that a "contingent" liability exists and it is disclosed in the related notes to the financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

**XVI. Explanations on obligations related to employee rights:**

**a. Employee termination benefits**

Obligations related to employee termination and vacation rights are accounted for in accordance with "Turkish Accounting Standard for Employee Rights" ("TAS 19") and are classified under "Reserve for employee rights" account in the balance sheet.

Under the Turkish Labour Law, the Group is required to pay a specific amount to the employees who have retired or whose employment is terminated other than for the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total liability for the future probable obligation of the Group determined by using certain actuarial assumptions. Actuarial gains and losses generated after January 1, 2013, are accounted for under equity in accordance with the revised TAS 19 standard.

**b. Pension rights**

The Parent Bank's personnel are members of the Yapı ve Kredi Bankası Anonim Şirketi Mensupları Yardım ve Emekli Sandığı Vakfı ("the Fund") which was established in accordance with the 20th temporary article of the Social Security Law No. 506. The technical financial statements of the Fund are audited in accordance with the Article 38 of the Insurance Supervision Law and the "Regulation Regarding the Actuaries" by a registered independent actuary.

Temporary article 23th paragraph 1 of the Banking Act published in the Official Gazette No 25983 dated November 1, 2005 stated that foundations like the Fund are to be transferred to the Social Security Institution ("SSI") within three years beginning from the publication date of the article.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

The article of the Law related to the transfer was cancelled (pursuant to the application by the President on November 2, 2005) by the decision of Constitutional Court (decision no: E.2005/39, K. 2007/33 dated March 22, 2007) published in the Official Gazette No. 26479 dated March 31, 2007, and the effect of the law article was suspended from the date of the publication of the decision.

The reasoning of the Constitutional Court regarding the abrogation of the corresponding article was published in the Official Gazette dated December 15, 2007, No 26372. With the publication of the reasoning of the decision, the Grand National Assembly of Turkey ("GNAT") started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the "Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations" No 5754 ("the New Law") regulating the transfer of the funds were approved by the GNAT on April 17, 2008. The New Law was published in the Official Gazette No. 26870 dated May 8, 2008. With the new law, the banks' pension funds will be transferred to SSI within three years from the date of publication of the decree and this period can be extended for a maximum of two years with the decision of the Council of Ministers. The transfer period was extended for another two years with the decision of the Council of Ministers No. 2011/1559 published in the Official Gazette dated April 9, 2011. According to the "Amendment of Social Insurance and General Health Insurance Law No. 6283" published in the Official Gazette dated March 8, 2012, Council of Ministers was authorized to increase the two-year extension period mentioned above to four years. According to the decision of The Council of Ministers dated February 24, 2014, the transfer date is set as May 2015. The Council of Ministers was authorized to determine the transfer date of pension funds in accordance with the last amendment in the first paragraph of the 20th provisional article of Law No.5510 implemented by the Law No. 6645 on Amendment of the Occupational Health and Safety Law and Other Laws and Decree Laws published in the Official Gazette dated April 23, 2015 and numbered 29335.

A commission (whose members are the representatives of the SSI, the Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, Saving Deposit Insurance Fund ("SDIF"), one member representing the Fund and one member representing the Fund members) is in charge of the calculation of the value of the payment that would need to be made to SSI to settle the obligation using a technical interest rate of 9,8% by law taking into consideration income and expenses by insurance branches of the funds and the excess of salaries and income paid by the funds over the salaries and income to be paid in accordance with the SSI arrangements which should not be less than SSI arrangements, related to the members of the Fund as of the date of the transfer including the members who have left the scheme.

In accordance with the New Law, after the transfer to SSI, any social rights and payments to Fund members and their beneficiaries which are not provided although they are included in the Fund Title Deed will continue to be provided by the Fund and the employers of the Fund members.

The Parent Bank accounts for a provision for the technical deficit based on the report prepared by a registered actuary in accordance with the rates determined by the New Law.

**c. Defined contribution plans:**

The Bank is required to pay certain contributions to the Social Security Institution on behalf of their employees. Other than these payments, the Group does not have any further obligation in this respect. Such premiums are charged to personnel expenses when incurred.

**d. Short term benefits of employee:**

Within the scope of TAS 19, the Group measures the expected costs of accumulated paid leaves as expected payments it will make due to unused leave rights as at the end of the reporting date.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**XVII. Explanations on taxation:**

**a. Current tax:**

The Corporate Tax rate is 20% in accordance with the article number 32 of the New Corporate Tax Law no.5520 which is published in the official Gazette dated June 21, 2006 and numbered 26205. This tax rate is applied to accounting income modified for certain exemptions and deductions, and additions for certain non-tax deductible expenses and allowances for tax purposes. No further tax is payable unless the profit is distributed.

Turkish tax legislation does not permit a parent company and its subsidiaries to file a consolidated tax return. Therefore, provisions for taxes, as reflected in these consolidated financial statements, have been calculated on a separate-entity basis.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

Under the Turkish Corporate Tax Law, effective from April 24, 2003, investment allowances had provided a deduction from the corporate tax base of 40% of the purchase price of purchases of the brand new fixed assets having economic useful life and exceeding TL 10 and directly related with the production of goods and services and investment allowance that arose prior to April 24, 2003 had been taxed at 19,8% (withholding tax) unless they had been converted to new type at companies' will. Effective from January 1, 2006, Turkish government had ceased to offer investment incentives for capital investments and companies having unused qualifying capital investment amounts as of June 30, 2006 would be able to deduct such amounts from corporate income for the following years.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

Tax rates that are used in tax calculations before the exemptions by foreign subsidiaries by taking current tax regulations in their countries into consideration as of June 30, 2015 are as follows:

Netherlands	25,00%
Russia	20,00%
Azerbaijan	20,00%
Malta	35,00%

**b. Deferred tax:**

The Group calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12") and in accordance with BRSA's explanations and circulars and the tax legislation, the Group calculates deferred tax on deductible temporary differences except for general loan loss provisions, to the extent that future taxable income is estimated to be available. In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that future taxable profit will be available against which the deferred tax asset can be utilised.

Deferred tax assets and liabilities of subsidiaries subject to consolidation have been netted of in their standalone financial statements in accordance with TAS 12. The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

Tax effects of the transactions that are directly accounted under equity are also reflected to equity.

Additionally, in accordance with the related legislation of BRSA, deferred tax effect, if income, is not eligible for dividend distribution and share capital increase.

**c. Transfer pricing:**

The article no.13 of the Corporate Tax Law No.5520 describes the issue of transfer pricing under the title of "Disguised profit distribution" by way of transfer pricing (previously included as "Disguised profit" in the Corporate Tax Law No.5422). "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at November 18, 2007/26704, explains the application related issues on this topic effective from January 1, 2007, also taking into account the regulations in Article 41 of the Income Tax Law.

"Arm's length principle", which is the basis for the transfer pricing rule, is the pricing system to be followed for purchase or sale activities between related parties for any product or service transactions as if the transaction is realized with any other third party. According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As discussed in the relevant section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

**XVIII. Explanations on borrowings:**

The financial liabilities classified at fair value through profit/loss, trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at "amortised cost" including costs of transactions using the "effective interest method".

The Group classifies some of its financial liabilities as the financial liabilities classified at fair value through profit/loss in order to eliminate the accounting mismatch at the initial recognition. For the related liabilities until the maturity, the Bank presents interest expenses paid and the difference between amortized cost and acquisition cost in the interest expense, the difference between the fair value of the financial liabilities and amortized cost presents under the trading gain/(loss) in the income statement.

The Group utilises various hedging techniques to minimise the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds have been issued.

Also, Group obtains funds by issuing bonds and bills.

**XIX. Explanations on issuance of share certificates:**

When shares are issued above their nominal value, the excess over the nominal value is accounted under shareholders' equity as "Share premium".

No dividend payments of the Parent Bank were announced after the balance sheet date.

**XX. Explanations on avalized drafts and letter of acceptances:**

Avalized drafts and acceptances are included in the "off-balance sheet commitments".

**XXI. Explanations on government grants:**

In accordance with the related articles of the "Law Regarding the Supporting of Research and Development Activities" numbered 5746, until balance sheet date, the Group received government grant from TÜBİTAK amounting to TL 1.907 (December 31, 2014 - TL 1.585).

**XXII. Profit reserves and profit distribution:**

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Legal reserves consist of first and second reserves as foreseen in the TCC. The TCC specifies that the first legal reserve is appropriated at the rate of 5% until the total reserve is equal to 20% of paid-in capital and that the second legal reserve is appropriated at the rate of 10% of distributions in excess of 5% of paid-in capital; however holding companies are not subject to this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate for accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

**XXIII. Earnings per share:**

Earnings per share disclosed in the income statement are calculated by dividing net profit/loss for the year to the weighted average number of shares outstanding during the period concerned.

	Current Period	Prior Period
Net Income/(loss) to be appropriated to ordinary shareholders	955.907	929.260
Weighted average number of issued ordinary shares(thousand)	434.705.128	434.705.128
<b>Earnings per share (full TL)</b>	<b>0,0022</b>	<b>0,0021</b>

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Accounting policies (continued)**

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. These bonus shares are treated as issued shares in earnings per share computations. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year is adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

No bonus shares were issued during 2015 (December 31, 2014 - no bonus shares were issued).

**XXIV. Related parties:**

For the purpose of these financial statements, shareholders having control shares of the Bank, key management personnel and board members together with their families and companies controlled by/affiliated with them, associated companies and joint ventures and the Fund providing post-employment benefits are considered and referred to as related parties in accordance with "Turkish Accounting Standard for Related Parties" ("TAS 24"). The transactions with related parties are disclosed in detail in Note VIII. of Section Five.

**XXV. Explanations on operating segments:**

Information about operating segments which are determined in line with "Turkish Financial Reporting Standard about Operating Segments" ("TFRS 8") together with organizational and internal reporting structure of the Bank, are disclosed in Note XV of Section Four.

**XXVI. Explanations on other matters:**

None.

**XXVII. Legal mergers under common control:**

As in TFRS 3 or in another standard in TFRS there is an absence of treatment that specifically applies to business combinations involving entities under common control, by examining the practices included in the generally accepted global accounting standards the Group decided to apply an accounting policy in parallel with the "pooling of interests" method in view of its judgement that the economic substance of the relevant transaction will be most reliably and accurately reflected in this manner. In the accounting of business combinations which occur under common control, assets and liabilities, subject to business combinations, are accounted for in the consolidated financial statements at their carrying values. Income statements are consolidated as of the beginning of the financial year in which the business combinations occurred. Financial statements belonging to previous periods also are adjusted in the same way in order to ensure the comparability. As a result of those transactions, any goodwill or negative goodwill is not calculated. The difference between the investment amount and the share in capital in the acquired company is directly accounted under equity as "the effect of legal mergers under common control".

POA has issued a policy decision in July, 2013 regarding "Accounting for business combinations Subject to Joint Control Group" which is effective for annual periods beginning on December 31, 2012. Based on this decision, i) rights in business combinations under common control combinations should be accounted for by the method of pooling of interest, ii) due to that goodwill should be included in the financial statements, iii) while pooling of interest method is applied, at the beginning of the reporting period where the common control occurs, corrections should be made in the financial statements as if the combination has been completed and this common control should be represented comparatively. The accounting policy applied by the group is consistent with the decision of principle.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Section four**

**Information related to financial position of the Group**

**I. Explanations on consolidated capital adequacy ratio:**

- a. The consolidated capital adequacy ratio of the Group is 12,99% (December 31, 2014 – 14,36%) and the Parent Bank is 14,03% (December 31, 2014 – 15,03%).
- b. The capital adequacy ratio is calculated in accordance with the "Regulation Regarding the Measurement and Evaluation of Banks' Capital Adequacy Ratio, "Regulation Credit Risk Mitigation Techniques", "Regulation on calculation of Risk-Weighted Amounts of Securitizations" published in the Official Gazette No. 28337 dated June 28, 2012 ("Regulation") and "Regulation Regarding Banks' Shareholders' Equity" published in the Official Gazette No. 28756 as of September 5, 2013".

For the calculation of amounts subject to credit risk, the Bank classifies the loans in the related risk weight taking into consideration the risk classes, ratings and the risk mitigating factors. "Comprehensive collateral method" is used in considering the risk mitigating factors for the banking and trading book.

For the calculation of capital adequacy ratio; financial information, which is prepared in accordance with the current regulations, is used. Within the scope of this Regulation, trading books and banking books are defined and they become subject to credit risk and market risk calculations. In addition, market risk and operational risk calculations are included in the calculation of the capital adequacy ratio, in accordance with the existing regulation.

Amounts taken into consideration as deduction items are subject to credit risk calculations. Assets subject to amortization or impairment are taken into consideration after relevant nettings over their net book values for the calculation of risk-weighted assets.

In the calculation of the value at credit risk for non-cash loans and commitments, the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the Provisioning Regulation. The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation and included in the relevant exposure category defined in the Regulation.

In accordance with Article 5 of the Regulation, counterparty credit risk is calculated for repo transactions, securities and commodities. The "Fair Value Valuation Method" mentioned in the communiqué is used for the counterparty credit risk calculation.

In the calculation of the value at credit risk for the derivative financial instruments which are in banking books, the receivables from counterparties are multiplied by the rates stated in the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in Regulation.

This footnote is not prepared in compliance with the Article 25 of the communiqué "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**III. Explanations on consolidated market risk:**

Risk management activities of the Parent Bank are carried out under the responsibility of Board of Directors in accordance with "Regulation on the Internal Systems and Internal Capital Adequacy Assessment Process of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

In order to comply with the regulations, the Parent Bank set its activities related with market risk management in accordance with "Regulation on the Internal Systems and Internal Capital Adequacy Assessment Process of Banks" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 29057 dated July 11, 2014.

Market risk policies, which are approved by the Board of Directors of the Bank and updated annually, if needed; include limit, methodologies, processes and responsibilities. Market risk calculations for the trading portfolio are performed by using standard method and Value at Risk (VaR) method. VaR is calculated using historical simulation method and reported to the management on a daily basis and Executive Committee on a monthly basis. In order to keep the effect of interest rate and foreign currency fluctuations at minimum, the Bank enters into derivative transactions of which some of the derivative transactions are subject to hedge accounting applications.

The table below shows details of the market risk as of June 30, 2015 in accordance with "Regulation on Banks' Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 28337 dated June 28, 2012.

**(1). Explanations on consolidated market risk:**

**a. Information on market risk:**

	<b>Current Period</b>	<b>Prior Period</b>
(I) Capital requirement against general market risk - standard method	62.373	59.260
(II) Capital requirement against specific risks - standard method	2.959	3.137
Capital requirement against specific risks of securitization positions— standard method	-	-
(III) Capital requirement against currency exchange risk - standard method	37.737	22.927
(IV) Capital requirement against commodity risks - standard method	104	133
(V) Capital requirement against exchange risks - standard method	-	-
(VI) Capital requirement against market risks of options - standard method	1.585	1.718
(VII) Capital requirement against counterparty credit risks - standard method	97.200	44.817
(VIII) Capital requirement against market risks of banks applying risk measurement model	-	-
(IX) Total capital requirement against market risk ((I)+(II)+(III)+(IV)+(V)+(VI)+(VII)+(VIII))	201.958	131.992
(X) Value-at-market risk ((12.5*VIII) or (12.5*IX))	2.524.475	1.649.900

**(2). Quantitative information on counterparty risk;**

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**(3). Explanations on calculation of capital requirements through a risk measurement model which is permitted to be used by the authorities;**

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**IV. Explanations on operational risk:**

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**V. Explanations on consolidated currency risk:**

The difference between the Group's foreign currency denominated and foreign currency indexed on- and off-balance sheet assets and liabilities is defined as the "Net Foreign Currency Position" and it is the basis of currency risk. Cross currency risk is also taken into consideration for the currency risk calculations and measurements.

The Group keeps the amount of currency risk exposure within the related legal limits and follows the exchange position on a daily/regular basis. In addition, although the internal exchange position limit is lower when compared to the related legal limit, there has not been any limit exceeding during the period. As an instrument of currency risk management, derivatives such as swap and forwards are used to reduce risk whenever needed. In order to guard against extreme volatility during the year stress tests are applied. Value at risk method is used for the measurement of foreign exchange risk.

The details of hedging of the foreign currency debt instruments and net foreign currency investment risk with derivative instruments are disclosed in section four Note XIII.

The Parent Bank's publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five days prior to that date are as follows:

(Exchange rates presented as full TL)

	USD	EUR
<b>Balance sheet evaluation rate</b>	<b>TL 2,68630</b>	<b>TL 2,98220</b>
First day current bid rate	TL 2,65870	TL 2,97770
Second day current bid rate	TL 2,66380	TL 2,98130
Third day current bid rate	TL 2,67700	TL 3,00030
Fourth day current bid rate	TL 2,67100	TL 3,00170
Fifth day current bid rate	TL 2,67860	TL 3,04010
<b>Arithmetic average of the last 30 days:</b>	<b>TL 2,69752</b>	<b>TL 3,02519</b>
<b>Balance sheet evaluation rate as of Prior Period:</b>	<b>TL 2, 31890</b>	<b>TL 2, 82070</b>

**Information related to financial position of the Group (continued)**

**VI. Explanations on consolidated interest rate risk:**

The monitoring of interest rate sensitive assets and liabilities of the Parent Bank, including sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements, is performed by the risk management department for all interest sensitive instruments over carrying values. The results are presented monthly to the Asset and Liability Management function of the Executive Committee. By using sensitivity and scenario analyses, the possible effects by interest rate volatility are analyzed. In these analyses possible losses are calculated for the change in fair value of interest sensitive products by applying shock tests to interest rates.

Sensitivity analyses are also calculated daily within Market Risk reporting on the basis of maturity and foreign exchange types and reported to Senior Management by checking them against the determined limits.

The Group utilizes TL/foreign currency and TL/TL interest rate swap transactions in order to limit the interest and foreign currency risk arising from short-term deposit and long-term consumer loans within the TL balance sheet. Furthermore, in order to reduce the repricing mismatch in the foreign currency balance sheet, foreign currency/foreign currency interest rate swaps are utilized.

**Information related to financial position of the Group (continued)**

**c. Interest rate risk arising from banking accounts:**

The sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements is performed for all interest earning assets and interest bearing liabilities.

Interest rate risk resulting from banking books comprise of repricing risk, yield curve risk, and basis risk.

Interest rate risk arising from banking book is measured in accordance with "The regulation of measurement and assessment of interest rate risk by standard shock method arising from banking accounts", published in the Official Gazette No. 28034 dated August 23, 2011 and legal limit of this measurement is monitored and reported monthly. Proportional amount of capital is provided in line with the same level of Interest rate risk arising from banking accounts.

Interest rate risk is measured and monitored monthly by market risk management. Duration analysis, gap analysis, basis points value analysis, scenario analysis and simulation of net interest income are performed and reported monthly to Asset Liability Management function of the Executive Committee. Interest sensitivity is measured most appropriately using the duration distribution map for every type of product. Investment decisions are done by taking into account the interest rate measurements. The maturity and interest risk for products with uncertain maturities is effectively measured using the behavioral analysis.

Economic value differences resulting from interest rate fluctuations of the Parent Bank as of June 30, 2015 are presented in the table below in accordance with the "Regulation of measurement and assessment of interest rate risk by standard shock method arising from banking accounts".

Currency <sup>(1)</sup>	Applied shock (+/- x basis points)	Gains/Losses	Gains/SE- Losses/SE
TRY	(+)500 bp	(2.587.019)	(9,64)%
TRY	(-)400 bp	2.549.376	9,50%
EUR	(+)200 bp	(130.965)	(0,49)%
EUR	(-)200 bp	182.513	0,68%
USD	(+)200 bp	125.316	0,47%
USD	(-)200 bp	17.569	0,07%
<b>Total (for negative shock)</b>		<b>2.749.458</b>	<b>10,24%</b>
<b>Total (for positive shock)</b>		<b>(2.592.669)</b>	<b>(9,66)%</b>

(1) The interest rate risk disclosed above is that of the Parent Bank.

**Information related to financial position of the Group (continued)**

**VII. Explanation on share certificates position risk from banking book:**

**1. Comparison of the carrying, fair and market values of equity shares:**

Group has no unconsolidated subsidiaries and joint venture quoted in Borsa Istanbul as of June 30, 2015.

**2. Information on realised gains/losses, revaluation surpluses and unrealised gains/losses on equity securities and results included in core and supplementary capitals:**

None.

**VIII. Explanations on consolidated liquidity risk:**

Liquidity risk covers the inability to fund increases in assets or to meet liabilities when they are due and other risks arising from transactions undertaken in illiquid markets. These risks contain maturity mismatch risk, emergency risk and market liquidity risk.

The main objective of the Parent Bank's overall liquidity management is to ensure the continuity of the Bank's payment obligations and sustain the level of payments availability in crisis time without risking the value and the brand name of the Bank. For this reason, two different models are defined: the current situation liquidity management and emergency situation liquidity management.

The current situation liquidity risk is monitored by the reports of short and long term liquidity. Short-term liquidity position is monitored on a daily basis including the legal Liquidity Adequacy Reports as to whether the position is within legal limits. Long-term liquidity position aims to ensure the financial stability of the balance sheet and is monitored on a monthly basis. On a monthly basis, the Asset and Liability Management function within the scope of the meetings of the Executive Board evaluates the Parent Bank's liquidity position and actions are taken when necessary.

In cases when the future financial events require more liquidity than the Bank's daily liquidity needs, "Emergency Situation Liquidity Plan" is considered where duties and responsibilities are defined in detail. Liquidity stress test scenarios are used to measure the Bank's resistance to unexpected situations.

The Parent Bank issues bonds and obtains long-term bank loans to overcome the current short-term funding of the banking sector.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Information related to financial position of the Group (continued)**

**IX. Explanations on securitization positions:**

None.

**X. Credit risk mitigation techniques:**

The Group does not use on-balance and off-balance sheet netting for the calculation of credit risk mitigation factors.

The Group applies credit risk mitigation according to the comprehensive method in compliance with the article 34 of the "Regulation on Credit Risk Mitigation Techniques". Only cash and cash equivalent collaterals are taken into account for the purpose of credit risk migration.

Credit derivatives are not taken into consideration for credit risk mitigation techniques.

Cash and cash equivalent collaterals considered for the mitigating the credit risk, are taken into account at their nominal values. Standard margin is applied where currencies of exposure and the collateral are different.

Mortgage collaterals considered for mitigating the credit risk are taken into account with the expertise value (which are also reviewed by the expert group of the Bank) determined by CMB licensed experts. Based on these values of the collaterals, total amount of credit risk is determined in accordance with the maximum Loan-to-Value ratio set by BRSA. For the guarantees that are taken to mitigate the credit risk, credit worthiness of the guarantor is measured. It is required to obtain partner consent for individual guarantees for married individuals.

The Parent Bank carries out its activities in accordance with the BRSA Communiqué for the valuation of the loans granted for financing of a real estate.

Cheques and notes in connection with a real business transaction are taken into consideration to mitigate the credit risk.

In order to use bank guarantee as collateral for a credit risk; it is required to have a counterparty limit on behalf of the guarantor bank and not to have mismatch of the maturity and the amount of the guarantee and the credit risk.

In the process of credit allocation, cash blockage guarantees, pledges, mortgages, guarantees and warranties are considered as risk-reducing collaterals.

The Group's exposure to risks is measured and monitored periodically by using internationally recognized methods, in accordance with international and local regulations and internal policies. With regards to the limitation of risks, also internal limits are employed besides regulatory limits. Possible changes that may occur in the economic environment are taken into account for determining these limits.

**Information related to financial position of the Group (continued)**

**XI. Strategies and policies of the risk management system:**

Risk management strategy of the Parent Bank includes measurement and monitoring of the risks with the methods that are defined in accordance with the international standards and local regulations. Also it includes having a sustainable growth in the framework of optimized capital use in accordance with the principle of keeping a balanced risk and return approach.

Risk Management Department including the sub-departments of "Credit Risk Control and Operational Risk Management", "Market Risk Management" and "Credit Risk Management", reports to the Board of Directors through the Audit Committee.

Credit risk rating models are mainly used to measure and monitor the credit risk. The rating model is used in day to day activities of the Bank such as; for the evaluation of new credit applications, determination of credit approval authority levels and monitoring the performance of the existing customer portfolio. Performance of the rating model is monitored by a validation team on a regular basis.

Reports related to the loan portfolio of the Bank are distributed to the relevant departments within the Bank, on a regular basis. Expected loss calculations for the Bank's loan portfolio are performed and used for determining the objectives and policies of the Bank.

Market Risk Analysis unit is responsible for measuring, monitoring and distributing the results of the market risk to the relevant departments within the Bank, as well as reviewing the valuation calculations of financial instruments, which are subject to market risk, in accordance with accounting standards.

The Parent Bank's exposure to risks is measured and monitored periodically by using internationally recognized methods, in accordance with international regulations, local regulations and internal policies. In addition to the regulatory limits, there are also internal limits set to measure and monitor the risk. Possible changes that may occur in the economic environment are taken into account for determining these limits.

**XII. Explanations on the presentation of financial assets and liabilities at fair values:**

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**XIII. Explanations on hedge accounting:**

The Group applies the following hedge accounting models as of June 30, 2015:

- Fair value Hedge ("FVH")
- Cash Flow Hedge ("CFH")

Cross currency interest rate swaps are used as hedging instrument in FVH. Interest rate swaps and cross currency swaps are used as hedging instrument in CFH. Contractual amounts and the fair values as at June 30, 2015 of these hedging instruments are presented in the table below:

	Current Period			Prior Period		
	Notional <sup>(1)</sup>	Asset	Liability	Notional <sup>(1)</sup>	Asset	Liability
Hedging instrument						
Interest rate swap / cross currency swap (CFH)	23.430.704	555.629	186.760	20.360.998	78.251	439.791
Cross currency interest rate swap (FVH)	328.175	183.396	173	481.084	177.895	657
<b>Total</b>	<b>23.758.879</b>	<b>739.025</b>	<b>186.933</b>	<b>20.842.082</b>	<b>256.146</b>	<b>440.448</b>

(1) Only the "sell" legs of the related derivatives are presented with the addition of the "buy" legs of these derivatives amounting to TL 24.139.764 (December 31, 2014 - TL 21.105.415) the total notional of derivative financial assets amounting to TL 47.898.643 (December 31, 2014 - TL 41.947.497) is accounted for in off-balance sheet under "Hedging Derivative Financial Instruments" line item.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Information related to financial position of the Group (continued)**

The fair valuation methodology of the derivatives presented in the above table is disclosed in detail in the accounting principles section of these financial statements in Section III. Part IV.

**Fair value hedge accounting:**

Starting from March 1, 2009, the Parent Bank has hedged the possible fair value effects of changes in market interest rates on part of its fixed interest TL mortgage and car loan portfolios and fair value effects of changes in foreign exchange rates on part of its foreign currency denominated funding by using cross-currency interest rate swaps. The Bank selected to apply macro FVH accounting for such relationship in accordance with TAS 39.

The impact of application of FVH accounting is summarized below;

<b>Current Period</b>					
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Fair value difference / adjustment of the hedged item <sup>(1)</sup>	Net fair value of the hedging instruments <sup>(2)</sup>	
				Asset	Liability
Cross currency interest rate swaps	Fixed interest TL mortgage and car loan portfolios and foreign currency funds	Fixed interest and changes in foreign exchange rate risk	(24.464)	182.245	-
					(15.948)

- (1) The amount refers to the fair value of the hedged item calculated for the TL fixed interest mortgage and car loans in accordance with hedge accounting effectiveness tests. The foreign exchange rate changes of foreign currency fundings and cross-currency swaps are reflected to the income statement in foreign exchange gains / losses line item.
- (2) The amounts include the foreign exchange differences and net straight line interest accruals of the related derivatives.
- (3) The ineffective portion of the mentioned hedging transaction is TL 331.

<b>Prior Period</b>					
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Fair value of the hedged item <sup>(1)</sup>	Net fair value of the hedging instruments <sup>(2)</sup>	
				Asset	Liability
Cross currency interest rate swaps	Fixed interest TL mortgage and car loan portfolios and foreign currency funds	Fixed interest and changes in foreign exchange rate risk	(10.516)	177.895	-
					(5.403)

- (1) The amount refers to the fair value of the hedged item calculated for the TL fixed interest mortgage and car loans in accordance with hedge accounting effectiveness tests. The foreign exchange rate changes of foreign currency fundings and cross-currency swaps are reflected to the income statement in foreign exchange gains / losses line item.
- (2) The amounts include the foreign exchange differences and net straight line interest accruals of the related derivatives.
- (3) The ineffective portion of the mentioned hedging transaction is TL 2.913.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

## Yapı ve Kredi Bankası A.Ş.

### Notes to consolidated financial statements as of June 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

#### Information related to financial position of the group (continued)

At the inception date, the Parent Bank documents the relationship between the hedging instruments and hedged items required by the FVH accounting application in accordance with TAS 39 and its own risk management policies and principles. Every individual relationship is approved and documented in the same methodology. In accordance with TAS 39, the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies. In the effectiveness tests, the fair values of the hedged item are calculated using the same assumptions used in calculation of fair values of the derivatives.

The effectiveness tests are performed prospectively and retrospectively on a monthly basis. At the inception date the effectiveness tests are performed prospectively. If the underlying hedge does not conform to the FVH accounting requirements (out of the 80% - 125% effectiveness range) or if the management voluntarily decides to discontinue the hedging relation, the adjustments made to the carrying value (amortized cost) of the hedged item are amortized with the straight line method and recognized in the profit and loss accounts within the remaining maturity. In addition if the hedging instrument is sold or closed before its maturity, the amount of the fair value adjustments of the hedged items are amortized to profit and loss accounts with the straight line method within the remaining maturity.

#### Cash flow hedge accounting:

The Parent Bank started to apply macro cash flow hedge accounting from January 1, 2010 onwards in order to hedge its cash flow risk from floating interest rate liabilities. The hedging instruments are USD, EUR and TL interest rate swaps and cross currency swaps with floating receive, fixed pay legs, and the hedged item is the cash outflows due to financing of interests of repricing USD, EUR and TL deposits, borrowings and repos.

The impact of application of CFH accounting is summarized below:

Current Period						
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Net fair value of the hedging instrument		Net gain/(loss) recognized in hedging funds <sup>(1)</sup>	Net gain/(loss) reclassified to equity <sup>(2)(3)</sup>
			Asset	Liability		
Interest rate swaps/ Cross currency interest rate swaps	Customer deposits, borrowings and repos	Cash flow risk due to the changes in the interest rates	555.629	186.760	168.436	465.445

(1) Includes deferred tax impact.

(2) Includes tax and foreign exchange differences.

(3) The ineffective portion of the mentioned hedging transaction is TL 24.169 realized as an expense.

Prior Period						
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Net fair value of the hedging instrument		Net gain/(loss) recognized in hedging funds <sup>(1)</sup>	Net gain/(loss) reclassified to equity <sup>(2)(3)</sup>
			Asset	Liability		
Interest rate swaps	Customer deposits and repos	Cash flow risk due to the changes in the interest rates	78.251	439.791	(297.009)	(181.892)

(1) Includes deferred tax impact.

(2) Includes tax and foreign exchange differences.

(3) The ineffective portion of the mentioned hedging transaction is TL 12.225.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Information related to financial position of the group (continued)**

At the inception date, the Parent Bank documents the relationship between the hedging instruments and hedged items required by the CFH accounting application in accordance with TAS 39 and its own risk management policies and principles. Every individual relationship is approved and documented in the same way. In accordance with TAS 39, the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies.

The effectiveness tests are performed on a monthly basis. If the underlying hedge does not conform to the CFH accounting requirements (out of the 80%-125% effectiveness range) or if the management voluntarily decides to discontinue the hedging relation or the hedging instrument is sold or closed before its maturity, the cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective shall remain separately in equity until the forecast transaction occurs or is no longer expected to occur. When the hedged forecasted transactions are no longer expected to occur, the net cumulative gain or loss is reclassified from other comprehensive income to profit and loss.

**Net Investment Hedge**

The Group hedges part of the currency translation risk of net investments in foreign operations through foreign currency borrowings. The Group's Euro denominated borrowing is designated as a hedge of the net investment in the Group's certain EUR denominated subsidiaries. The total amount of the borrowing designated as a hedge of the net investment at June 30, 2015 is EUR 345 million (December 31, 2014 - EUR 275 million). The foreign exchange loss of TL 257.300 net-off tax (December 31, 2014 - TL 215.653 foreign exchange loss), on translation of the borrowing to TL at the statement of financial position date is recognized in "hedging reserves" in equity.

**XIV. Explanations on the activities carried out on behalf of others and fiduciary transactions:**

The Group carries out trading, custody, management and consulting services on behalf of customers and on their account. The Group has no fiduciary transactions.

**XV. Explanations on consolidated operating segments:**

The Group carries out its banking operations through three main business units:

- (1) Retail Banking
- (2) Corporate and Commercial Banking
- (3) Private Banking and Wealth Management.

The Parent Bank's Retail Banking activities include card payment systems, SME (small medium size enterprises) banking and individual banking. Retail Banking products and services offered to customers include card payment systems, consumer loans (including general purpose loans, auto loans, mortgages), commercial installment loans, SME loans, time and demand deposits, gold banking, investment accounts, life and non-life insurance products and payroll services. Card payment systems cover the management of products, services, campaigns for member merchants as well as the sales and activities for a variety of customer types. Crystal, Play, Adios and Taksitçi are the other card brands providing services for the different segments within the World brand, shopping and marketing platform of the Bank. The Bank also offers debit card and a prepaid card named World Hediye Card.

Corporate and Commercial Banking segment is organized into three subgroups: Corporate Banking for large-scale companies, Commercial Banking for medium-sized enterprises and Multinational Companies Banking for multinational companies. Corporate and Commercial Banking, has a product range of working capital finance, trade finance, project finance, domestic and international non-cash loans such as letters of credit and letters of guarantee, cash management and internet banking.

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Information related to financial position of the Group (continued)**

Through its Private Banking and Wealth Management activities, the Bank serves high net worth customers and delivers investment products to this customer segment. Among the products and services offered to Private Banking customers are time deposit products, capital guaranteed funds, mutual funds, Type A Type B funds, derivative products such as forwards, futures and options in domestic futures exchange (VOB) and international markets, personal loans, foreign exchange, gold and equity trading, pension plans, insurance products and 7/24 safe deposit boxes and e-banking services. Also, personal art advisory, inheritance advisory, real estate advisory, tax advisory and philanthropic advisory are offered within the Private Banking and Wealth Management activities.

The Group's widespread branch network and alternative distribution channels including ATMs, telephone banking, internet banking and mobile banking are utilized to serve customers in all segments. Foreign operations include the Group's banking transactions in the Netherlands, Azerbaijan and Russia. Treasury, Asset – Liability Management and other operations, mainly consist of treasury management's results, operations of supporting business units and other unallocated transactions.

The below table is prepared in accordance with the Management Information System (MIS) data of the Bank.

**Major balance sheet and income statement items based on operating segments:**

Current Period	Retail banking	Corporate and commercial banking	Private banking and wealth management	Other foreign operations	Other domestic operations	Treasury, Asset-Liability Management and Other	Consolidation adjustments <sup>(1)</sup>	Total operations of the Group

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Section five**

**Explanations and notes related to consolidated financial statements**

**I. Explanations and notes related to consolidated assets:**

**a. Information related to cash and the account of the Central Bank:**

1. Information on cash and the account of the Central Bank of the Republic of Turkey ("the CBRT"):

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash	1.648.066	648.432	1.696.981	584.111
The CBRT <sup>(1)</sup>	1.776.690	21.076.897	1.293.701	19.460.663
Other	-	434.396	-	179.209
<b>Total</b>	<b>3.424.756</b>	<b>22.159.725</b>	<b>2.990.682</b>	<b>20.223.983</b>

- (1) The balance of gold amounting to TL 4.002.132 is accounted for under the Central Bank foreign currency account (December 31, 2014 – TL 3.302.860).

2. Information on the account of the CBRT:

	Current Period		Prior Period	
	TL	FC	TL	FC
Demand unrestricted amount <sup>(1)</sup>	1.776.690	1.966.582	1.293.701	2.046.196
Time unrestricted amount	-	-	-	-
Reserve requirement <sup>(2)</sup>	-	19.110.315	-	17.414.467
<b>Total</b>	<b>1.776.690</b>	<b>21.076.897</b>	<b>1.293.701</b>	<b>19.460.663</b>

- (1) According to the letter received from BRSA on January 3, 2008, average reserve requirements balances monitored under CBRT demand deposit account.

- (2) According to the "Required Reserves Communiqué", numbered 2005/1, Bank is required to maintain reserves for liabilities in TL, USD, EUR and gold currencies.

As of June 30, 2015, the Group's reserve deposits, including those at foreign banks, amount to TL 22.920.315 (December 31, 2014 - TL 20.785.117).

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note 1. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Explanations and notes related to consolidated financial statements (continued)**

**b. Information on financial assets at fair value through profit and loss:**

The Group does not have financial assets at fair value through profit and loss subject to repo transactions (December 31, 2014 - None) and there is no financial assets at fair value through profit and loss given as collateral/blocked (December 31, 2014 - None).

**c. Positive differences related to trading derivative financial assets:**

	Current Period		Prior Period	
	TL	FC	TL	FC
Forward transactions	195.260	4.995	48.509	3.088
Swap transactions <sup>(1)</sup>	1.510.627	171.745	894.930	118.185
Futures transactions	-	-	-	-
Options	81.526	18.887	27.400	18.409
Other	-	-	-	-
<b>Total</b>	<b>1.787.413</b>	<b>195.627</b>	<b>970.839</b>	<b>139.682</b>

(1) The effects of Credit Default Swaps are included.

**ç. Information on banks:**

**1. Information on banks:**

	Current Period		Prior Period	
	TL	FC	TL	FC
<b>Banks</b>				
Domestic	73.191	2.702.536	947.196	425.461

The above information is based on the information extracted from the individual financial statements of subsidiaries, used for consolidated financial statements of the Bank as of June 30, 2015.

The internal capital adequacy for the subsidiaries is calculated with the model and approaches used in the Parent Bank within the scope of the consolidated Internal Capital Adequacy Assessment Process ("ICAAP") report.

Paid-in capital is a capital which have been disclosed as Turkish Lira in the articles of incorporation and registered in trade register.

Inflation adjustment to share capital is the adjustment difference arising from inflation accounting.

Extraordinary Reserves are the reserves which represent the remaining net income of the previous periods after providing the legal reserves in accordance with the General Assembly of the Bank.

Legal reserves are the income reserves that are provided according to the first paragraph and the third subparagraph of the second paragraph of the article no 466 and no 467 of the Turkish Commercial Code No. 6762 allocated as capital reserves separated from annual profit according to the laws of foundation.

(1) Explained in the note XIII of Section IV.

k. Information on tangible assets:

The Group decided to change its accounting policy on valuation of buildings to fair value accounting in accordance with TAS 16 as of March 31, 2015. Based on valuation reports of expertise companies, authorized by CMB and BRSA, the Bank realized a positive fair valuation difference as other comprehensive income amounting to TL 1.430.049. Additionally, there has been a reversal out of previously incurred impairment amounting to TL 105.921, which is booked as an income. Had the Bank did not apply fair value accounting; carrying amount of buildings would have been TL 753.620, as of June 30, 2015.

l. Information on intangible assets:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

m. Information on investment property:

None (December 31, 2014 - None).

n. Information on deferred tax asset:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim periods.

**g. Information on provisions:**

1. Information on general provisions:

	Current Period	Prior Period
I. Provisions for first group loans and receivables	1.810.008	1.489.110
<i>of which, Provision for Loans and Receivables with Extended Maturity</i>	76.810	61.798
II. Provisions for second group loans and receivables	197.630	194.464
<i>of which, Provision for Loans and Receivables with Extended Maturity</i>	68.626	55.839
Provisions for non-cash loans	94.964	84.796
Other	195.522	159.451
<b>Total</b>	<b>2.298.124</b>	<b>1.927.821</b>

2. Information on reserve for employee rights:

In accordance with Turkish Labour Law, the reserve for employment termination benefits is calculated as the present value of the probable future obligation in case of the retirement of employees. TAS 19 necessitates actuarial valuation methods to calculate the liabilities of enterprises.

(Convenience translation of publicly announced consolidated financial statements originally issued in Turkish, see note I. of section three)

**Yapı ve Kredi Bankası A.Ş.**

**Notes to consolidated financial statements as of June 30, 2015 (continued)**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

**Explanations and notes related to consolidated financial statements (continued)**

The following actuarial assumptions were used in the calculation of total liabilities:

	Current Period	Prior Period
Discount rate (%)	3,50	3,50
Possibility of being eligible for retirement (%)	94,11	94,11

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate represents the expected real rate after adjusting for the effects of future inflation. As the annual ceiling is revised semi-annually, the ceiling of full TL 3.709,98 effective from July 1, 2015 (July 1, 2014 - full TL 3.438,22) has been taken into consideration in calculating the reserve for employment termination benefits.

Movement of employment termination benefits liability in the balance sheet:

	Current Period	Prior Period
<b>Prior period ending balance</b>	<b>141.134</b>	<b>122.718</b>
Changes during the period	21.236	28.456
Recognized in equity	-	21.194
Paid during the period	(16.558)	(31.631)
Foreign currency differences	692	397
<b>Balance at the end of the period</b>	<b>146.504</b>	<b>141.134</b>

In addition, the Group has accounted for unused vacation rights provision amounting to TL 155.193 as of June 30, 2015 (December 31, 2014 - TL 136.910).

3. Information on provisions related with the foreign currency difference of foreign currency indexed loans:

As of June 30, 2015, the provision related to the foreign currency difference of foreign currency indexed loans amounts to TL 11.484 (December 31, 2014 - TL 25.125). Provisions related to the foreign currency difference of foreign currency indexed loans are netted from the loan amount in the financial statements.

4. Other provisions:

(i) Information on other provisions:

	Current Period	Prior Period
Pension fund provision	610.766	654.901
Provisions on unindemnified non cash loans	93.421	82.424
