

Yapı ve Kredi Bankası A.Ş.

Publicly announced unconsolidated financial statements and related disclosures at September 30, 2015 together with independent auditor's review report

(Convenience translation of publicly announced unconsolidated financial statements and independent auditor's review report originally issued in Turkish, See Note I. of Section three)

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I. of Section three)

INTERIM REVIEW REPORT

To the Board of Directors of Yapı ve Kredi Bankası A.Ş.:

Introduction

We have reviewed the unconsolidated balance sheet of Yapı ve Kredi Bankası A.Ş. ("the Bank") at September 30, 2015 and the related unconsolidated income statement, unconsolidated statement of income and expense items under shareholders' equity, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the nine-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" except for the matters regulated by BRSA Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity" promulgated by the Public Oversight Accounting and Auditing Standards Authority ("POA") of Turkey. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true and fair view of the financial position of Yapı ve Kredi Bankası A.Ş. at September 30, 2015 and of the results of its operations and its cash flows for the nine-month-period then ended in all aspects in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated November 1, 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" except for the matters regulated by BRSA Legislation.

Additional paragraph for convenience translation to English:

As explained in detail in Note I. of Section Three, the effects of differences between accounting principles and standards set out by regulations in conformity with BRSA Accounting and Reporting Legislation and Turkish Accounting Standard 34" Interim Financial reporting" except for the matters regulated by BRSA Legislation accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

**The unconsolidated interim financial report of
Yapı ve Kredi Bankası A.Ş. as of September 30, 2015**

E-Mail: financialreports@yapikredi.com.tr

The unconsolidated financial report for the nine months which is prepared in accordance with the "Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements" as regulated by the Banking Regulation and Supervision Agency includes the following sections.

- **Section one** - General information about the Bank
- **Section two** - Unconsolidated financial statements of the Bank
- **Section three** - Explanations on accounting policies applied in the related period
- **Section four** - Information related to financial position of the Bank
- **Section five** - Explanations and notes related to unconsolidated financial statements
- **Section six** - Independent auditor's report

The accompanying unconsolidated financial statements for the nine months and notes to these financial statements which are expressed, (unless otherwise stated) in **thousands of Turkish Lira**, have been presented based on the accounting books of the Bank prepared in accordance with the Regulation on the Principles and Procedures Regarding Banks' Accounting Applications and Safeguarding of Documents, Turkish Accounting Standards, Turkish Financial Reporting Standards and related appendices and interpretations of these, and have been independently reviewed.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Section One

General Information

I. History of the Bank including its incorporation date, initial legal status and amendments to legal status, if any:

Yapı ve Kredi Bankası A.Ş. ("the Bank" or "Yapı Kredi"), was established and started operations on September 9, 1944 with the permission of the Council of Ministers No. 3/6710 as a private capital commercial bank authorised to perform all banking, economic, financial and commercial activities which are allowed by the laws of the Turkish Republic. The statute of the Bank has not changed since its incorporation.

II. Explanations about the Bank's capital structure, shareholders holding directly or indirectly, collectively or individually, the management and controlling power and changes in current year, if any and explanations on the controlling group of the Bank:

The Bank's publicly traded shares are traded on the Borsa İstanbul ("BIST") since 1987 and the representatives of these shares, Global Depository Receipts, are quoted at the London Stock Exchange. As of September 30, 2015, 18,20% of the shares of the Bank are publicly traded (December 31, 2014 - 18,20%). The remaining 81,80% is owned by Koç Finansal Hizmetler A.Ş. ("KFS"), a joint venture of UniCredit ("UCG") and Koç Group.

KFS was established on March 16, 2001 to combine Koç Group finance companies under one organization and it became the main shareholder of Koçbank in 2002. On October 22, 2002, Koç Group established a strategic partnership with UCG over KFS.

In 2005, the Bank's shares that were owned by Çukurova Group Companies and the Saving Deposits Insurance Fund ("SDIF") were purchased by Koçbank. In 2006, Koçbank purchased additional shares of the Bank from BIST and an investment fund and, during the same year, all rights, receivables, debts and liabilities of Koçbank were transferred to the Bank pursuant the merger of the two banks. As a result of the merger and the share transfer procedures in 2007 and of a capital increase by TL 920 million in 2008, KFS shares in the Bank increased to 81,80%.

Mehmet Murat ERMERT	Corporate Communication Management
Mert ÖNCÜ	Treasury Management
Mert YAZICIOĞLU	Private Banking and Asset Management
Nurgün EYÜBOĞLU	Corporate and Commercial Credit Management
Stefano PERAZZINI	Internal Audit / Chief Audit Executive
Süleyman Cihangir KAVUNCU ⁽¹⁾	Human Resources and Organization Management
Wolfgang SCHILK	Risk Management
Yakup DOĞAN	Alternative Distribution Channels
Zeynep Nazan SOMER ÖZELGİN	Retail Banking Management

(1) It is resolved by Board of Directors of Yapı ve Kredi Bankası A.Ş. at 21.10.2015 meeting that, as of 1 January 2016, due to Mr. S. Cihangir Kavuncu, Assistant General Manager responsible for Human Resources and Organization is taking another position within UniCredit Group as of 1 January 2016, Mr. M. Gökmen Uçar, who is currently Assistant General Manager responsible for Retail Credits, will be appointed as Assistant General Manager responsible for Human Resources and Organization; An application will be sent to BRSA to appoint Mr. Demir Karaaslan, who is currently Executive Vice President of Planning and Control - Financial Planning and Administration, as Assistant General Manager responsible for Retail Credits. The appointment will become effective unless an objection is received from BRSA within 7 working days.

IV. Information on the individual and corporate shareholders having control shares of the Bank:

Name/Commercial title	Share amounts (nominal)	Share percentage	Paid-in capital (nominal)	Unpaid portion
Koç Finansal Hizmetler A.Ş.	3.555.712.396,07	81,80%	3.555.712.396,07	-

Koç Finansal Hizmetler A.Ş. is a joint venture of Koç Group, UniCredit Group and Temel Ticaret ve Yatırım A.Ş.

V. Summary information on the Bank's activities and service types:

The Bank's activities summarized from the section 3 of the articles of association are as follows.

The Bank's purpose and subject matter, in accordance with the Banking Law, regulations and existing laws, include;

- The execution of all banking activities
- The execution of all economic and financial activities which are allowed by the regulation
- The execution of the representation, attorney and agency activities related to the subjects written above
- The purchase and sale of share certificates, bonds and all the capital market instruments, in accordance with Capital Market Law and regulations

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

General information (continued)

In case of necessity for performing activities which are useful and required but that are not specified in the articles of association, a Board of Directors' proposal is to be presented to the General Assembly. With the approval of the General Assembly the proposal becomes applicable, subject to the approvals required by law.

As of September 30, 2015, the Bank has 1.014 branches operating in Turkey and 1 branch overseas (December 31, 2014 – 1.002 branches operating in Turkey, 1 branch in overseas). As of September 30, 2015, the Bank has 18.430 employees (December 31, 2014 – 17.457 employees).

The accompanying unconsolidated financial statements and notes to these financial statements are expressed in thousands of Turkish Lira (TL), unless otherwise stated.

VI. Differences between the communiqué on preparation of consolidated financial statements of Banks and Turkish Accounting Standards and short explanation about the entities subject to full consolidation or proportional consolidation and entities which are deducted from equity or entities which are not included in these three methods:

According to Communiqué of the Preparation Consolidated Financial Statements and Turkish Accounting Standards, Banque de Commerce et de Placements SA, one of the associates of the Bank, and Yapı Kredi Koray Gayrimenkul Yatırım Ortaklığı, an entity under common control, are consolidated through "Equity Method" in the consolidated financial statements of the Group. Allianz Yaşam ve Emeklilik A.Ş., on which the Bank has indirect participation, is also consolidated through "Equity Method" in the consolidated financial statements of the Group. These entities are taken into account as a deduction item in shareholders' equity for the purpose of calculation of capital adequacy ratio.

Yapı Kredi Kültür Sanat Yayıncılık Tic. ve San. A.Ş., Yapı Kredi Teknoloji A.Ş. and Enternasyonel Turizm Yatırım A.Ş., which are subsidiaries of the Bank, are not consolidated into the Bank's consolidated financial statements in accordance with Communiqué of Preparation of Consolidated Financial Statements since these entities are not financial institutions.

All other subsidiaries are fully consolidated.

VII. The existing or potential, actual or legal obstacles on the immediate transfer of shareholder's equity between the Bank and its subsidiaries or reimbursement of liabilities: None.

The accompanying explanations and notes form an integral part of these financial statements.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Section Three

Accounting policies

I. Explanations on basis of presentation:

The Bank maintains its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 ("Banking Act"), which is effective from November 1, 2005, the Turkish Commercial Code ("TCC"), and Turkish Tax Legislation.

The unconsolidated financial statements are prepared in accordance with the "Regulation on the Principles and Procedures Regarding Banks' Accounting Applications and Safeguarding of Documents" published in the Official Gazette No. 26333 dated November 1, 2006 by the Banking Regulation and Supervision Agency ("BRSA") which refers to "Turkish Accounting Standards" ("TAS") and "Turkish Financial Reporting Standards" ("TFRS") issued by the Public Oversight Accounting and Auditing Standards Authority ("POA") and other decrees, notes and explanations related to the accounting and financial reporting principles (all "Turkish Accounting Standards" or "TAS") published by the BRSA. The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the "Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements" and changes and notes to this communiqué published in the Official Gazette No. 28337 dated June 28, 2012.

The accompanying unconsolidated financial statements are prepared in accordance with the historical cost basis (restated for the changes in the general purchasing power of TL until December 31, 2004), except for financial assets and liabilities at fair value through profit or loss, financial assets available for sale, investments in associates and subsidiaries measured at fair value, trading derivative financial liabilities, hedging derivative financial assets/liabilities and art objects and paintings in tangible assets. Besides, the carrying values of assets carried at amortised cost but subject to fair value hedge are adjusted to reflect the fair value changes related to the hedged risks.

The preparation of unconsolidated financial statements in conformity with TAS requires the use of certain accounting estimates by the Bank management to exercise its judgment on the assets and liabilities on the balance sheet and contingent assets and liabilities as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are explained in the related notes and reflected to the income statement.

The accounting policies and valuation principles applied in the preparation of financial statements are defined and applied in accordance with TAS and are consistent with the accounting policies applied for the year ended December 31, 2014, except for changes on accounting policies from historical cost basis to revaluation basis for intangible assets and changes on accounting policies from fair value method to equity method in compliance with Accounting Standard on Separate Financial Statements (TAS 27), which will be effective from 1 January 2016, allowing the early adaption of valuating subsidiaries, joint ventures and associates based on equity method defined in TAS 28.

The effects of TFRS 9, "Financial Instruments" (2011 version, classification and measurement) which has not been implemented yet, are under evaluation by the Bank. The standard which the Bank did not early adopt will primarily have an effect on the classification and measurement of the Bank's financial assets. The Bank is currently assessing the impact of adopting TFRS 9. However, as the impact of adoption depends on the assets held by the Bank at the date of adoption itself, it is not practical or possible to quantify the effect at this stage. As of the date of these financial statements, the other TAS/TFRS standards announced but not yet effective are not expected to have significant impact on the Bank's accounting policies, financial position and performance.

Accounting policies (continued)

II. Explanations on strategy of using financial instruments and foreign currency transactions:

The general strategy of the Bank in using financial instruments is to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Bank is deposits. The Bank is also sustaining a lengthened liability structure by using long-term foreign and local currency borrowings from domestic and international investors and financial institutions. Funds obtained from deposits and other sources are invested in quality financial assets in order to keep currency, interest rate and liquidity risks within the limits determined by the asset-liability strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed accordingly within the risk limits accepted by the Bank and the related legal limits. Derivative instruments are mainly utilized for liquidity needs and for mitigating currency and interest rate risks. The position of the Bank as a result of foreign currency activities is being held at minimum levels and the currency risk exposure is followed within the determined levels by the Board of Directors, by considering the limits specified by the Banking Act.

Foreign currency denominated monetary assets and liabilities are translated with the exchange rates prevailing at the balance sheet date. Gains and losses arising from such valuations are recognized in the income statement under the account of "Foreign exchange gains or losses", except for valuation differences arising from foreign currency participations, subsidiaries and foreign currency non-performing loans. Foreign currency non-performing loans are translated with the exchange rates at the date of transfer to non-performing loans accounts.

The Bank hedges foreign currency exposure arising from carrying its foreign subsidiaries at equity method, with financial liabilities in foreign currency and applies net investment hedge accounting. The effective portions of the change in fair value in financial liabilities in foreign currency are recorded under "Hedging funds" in equity.

Bank, upon initial recognition, classifies its financial liabilities as fair value of financial liabilities value through profit / loss in order to eliminate the recognition inconsistency.

III. Explanations on investments in associates, subsidiaries and joint ventures:

Associates, subsidiaries and joint ventures are being carried at equity method in unconsolidated financial statements of the Bank started from 30 June 2015. Any valuation differences arising from prior years are booked as "marketable securities valuation differences" under equity and any valuation differences arising from current years are booked in profit and loss statement. This accounting policy change is performed through an early adaption before the effective date of 1 January 2016 in accordance with the change of "Standard on Stand-alone Financial Statement (TAS 27)" numbered 29321 on 9 April 2015 and confirmation by BRSA's letter numbered 10686 on 14 July 2015.

IV. Explanations on forward and options contracts and derivative instruments:

The Bank's derivative transactions mostly include money and interest rate swaps, forward foreign exchange purchase and sale transactions and options.

Derivative instruments are measured at fair value on initial recognition and subsequently remeasured at their fair values. As a result, the fair value of derivatives is reflected as net liability or net asset on a contract by contract basis. The accounting method applied to the income or loss arising from derivative instruments depends on whether the derivative is being used for hedging purposes or not and depends on the type of item being hedged.

At the transaction date, the Bank documents the relationship between hedging instruments and hedged items, together with the risk management policies and the strategies on hedging transactions. Besides, the Bank regularly documents the effectiveness of the hedging instruments in offsetting the changes in the fair value of the hedged items.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

Changes in the fair value of derivative instruments subject to fair value hedges are recognized under profit or loss accounts together with the variation in the fair value of hedged items. The changes of fair value of derivative transactions for fair value hedge are classified in "Derivative Financial Transactions Gains/Losses" account. In the balance sheet, changes in the fair value of hedged assets and liabilities, during the period in which the hedge is effective, are shown with the related assets and liabilities. The ineffective portion of the mentioned hedging transaction is reflected to the income statement. If the underlying hedge does not conform to the hedge accounting requirements, according to the adjustments made to the carrying value (amortised cost) of the hedged item, for which the risk is hedged by a portfolio hedge, are amortized with the straight line method within the time to maturity and recognized under the profit and loss accounts. Fair value adjustments are recognized directly in the income statement in an event of repayment and/or unwinding and/or derecognition of the hedged item.

The Bank hedges its cash flow risk arising from foreign currency and Turkish Lira floating interest rate liabilities by using interest rate swaps. The effective portion of the fair value changes of the hedging instruments are recorded in "Hedging funds" under shareholders' equity. These funds are transferred to profit or loss from equity when the cash flows of the hedged items (interest expense) impact the income statement.

In case the cash flow hedge accounting is discontinued due to the expiry, realization for sale of the hedging instrument, or due to the results of the effectiveness test the amounts accounted under shareholders' equity are transferred to the profit and loss accounts as these cash flows of the hedged item are realized.

Some of the trading purpose derivative transactions, even though they provide effective economic hedges under the Bank's risk management policy, do not qualify for hedge accounting under the specific rules in "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")" and are therefore treated as "financial instruments at fair value through profit or loss".

"Financial instruments at fair value through profit or loss" are measured at fair value. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "financial assets at fair value through profit or loss" in "derivative financial assets held for trading" and if the fair value difference is negative, it is disclosed under "derivative financial liabilities held for trading". Fair value changes are recorded under "Derivative Financial Transactions Gains/(Losses)" in the income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Parameters used for the valuation of the option portfolio are determined by market risk management and the confirmation of the accuracy of fair value calculations are monitored periodically by market risk management.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to TAS 39 in case (i) the related embedded derivative's economic features and risks are not closely related to the host contract, (ii) another instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and (iii) the hybrid instrument is not carried at fair value through profit or loss.

Credit derivatives are capital market tools designed to transfer credit risk from one party to another.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

As of September 30, 2015, the Bank's credit derivatives portfolio included in the off-balance sheet accounts is composed of credit linked notes (embedded derivatives are separated from host contract in line with TAS 39 and recorded as credit default swaps) and credit default swaps.

Credit linked notes are bonds that have repayments depending on a credit event or the credit risk evaluation of a reference asset or asset pool. Depending on whether the reference assets are included in the balance sheet of the issuer or the owner of the assets, these transactions can be accounted by the party assuming the credit risk as insurance or as an embedded derivative. As per the Bank's management evaluation, the embedded derivatives included in the credit linked notes are separated from the host contracts in accordance with TAS 39 and recorded and evaluated as credit default swaps. The bond itself (host contract) is valued in accordance with the valuation principles of the category it is classified. Credit default swaps are contracts, in which the seller commits to pay the contract value to the buyer in case of certain credit risk events in return for the premium paid by the buyer for the contract.

Credit default swaps are valued daily by the valuation model of the Bank and then accounted over their fair values; while credit linked notes are valued and accounted monthly.

Market risks of these products are monitored using the Bank's internal modeling system for the Value-at-Risk and basis points sensitivity analysis; the liquidity risks are monitored using the short term liquidity report on daily and the long term liquidity report on monthly basis.

According to the regulations of BRSA, currency exchange transactions, which are realized at value date in the initial phase of currency swaps, are recorded and followed as irrevocable commitments in off-balance sheet accounts until the value date.

A Credit Valuation Adjustment (CVA) is applied to the Bank's over-the-counter derivative exposures to take into account the counterparty's risk of default when measuring the fair value of the derivative. CVA is the mark-to-market cost of protection required to hedge credit risk from counterparties in the Bank's over-the-counter derivatives portfolio. The Bank calculates CVA based on collective provisioning methodology calculated in accordance with Turkish Accounting Standards, TAS 39, comprising the product of Exposure, Probability of Default (PD) and Loss Given Default (LGD). CVA is calculated based on the exposure of each counterparty.

V. Explanations on interest income and expense:

Interest income and expenses are recognized in the income statement on an accrual basis by using the effective interest method periodically. The Bank ceases accruing interest income on non-performing loans and any interest income accruals from such receivables are reversed and no income is accounted until collection is made according to the related regulation.

VI. Explanations on fee and commission income and expenses:

Fees and commissions received as a result of the service agreements or arising from negotiating or participating in the negotiation of a transaction on behalf of a third party are recognized either in the period when the transaction is realized or deferred based on the type of the underlying transaction. Other commission income and fees from various banking services are recorded as income at the time of realization.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

VII. Explanations on financial assets:

The Bank classifies and accounts its financial assets as "fair value through profit or loss", "available-for-sale", "loans and receivables" or "held-to-maturity". The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of holding the investment. Regular purchases and sales of financial assets are recorded based on settlement date. Settlement date of a financial asset is the date that the asset is received or delivered by the Bank. Settlement date accounting requires; (a) accounting for the financial asset when the asset is received and (b) accounting of disposal of the financial asset and recording the related profit and loss when the asset is delivered. The fair value changes of an asset to be acquired between the trade date and settlement date is accounted in accordance with the basis of valuation of assets.

a. Financial assets at fair value through profit or loss:

Financial assets, which are classified as "Financial assets at fair value through profit or loss", are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer's margin, or are financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading financial assets are initially recognized at fair value and are subsequently re-measured at their fair value. However, if fair values cannot be obtained from active market transactions, it is assumed that the fair value cannot be measured reliably and fair values are calculated by alternative models. All gains and losses arising from these valuations are recognized in the income statement. Interest earned while holding financial assets is reported as interest income and dividends received are included separately in dividend income.

Derivative financial instruments are treated as trading financial assets unless they are designated as hedge instruments. The principles regarding the accounting of derivative financial instruments are explained in detail in Note IV of this section.

b. Held-to-maturity financial assets:

Held-to-maturity financial assets are non-derivative financial assets other than loans and receivables, with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity and that are not initially classified as financial assets at fair value through profit/loss or available for sale. Held-to-maturity financial assets are initially recognized at total of acquisition and transaction cost. Held-to-maturity securities are carried at "Amortized cost" using the "Effective interest method" after their initial recognition. Interest income related with held-to-maturity securities is recorded in "Interest income" and impairment arising from a decrease in cost or revalued amounts is recorded in "Provision for impairment of loans and other receivables" accounts.

There are no financial assets that were previously classified as held-to-maturity but cannot be subject to this classification for two years due to breach of classification principles. In accordance with TAS 39, sales or reclassification to available for sale portfolio of insignificant amount of financial assets, sale or reclassification to available for sale portfolio of financial assets which are close to maturity less than three months, or sale or reclassification to available for sale portfolio of assets as a result of significant increase in the risk weights of held-to-maturity investments used for regulatory risk-based capital purposes will not result in tainting.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

c. Loans and receivables:

Loans and receivables are financial assets raised through lending without having the intention to trade in the short term. Loans and receivables are non derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted on active market. Loans and receivables are recognized initially at cost including transaction costs (which reflect fair values) and subsequently carried at the amortized cost using the "effective interest method". The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

Retail, commercial and corporate loans included in cash loans are accounted for with their original maturities in accounts which are mentioned in the Uniform Chart of Accounts ('UCA'). Foreign currency indexed loans are initially measured at local currency accounts with the foreign exchange rate prevailing at date of the initial recognition and re-valued with the relevant foreign currency rates prevailing at the date of the financial statements. Increase or decrease in the value of the principal amount of the loan due to changes in foreign exchange rates is accounted in the related income and expense accounts. Repayment amounts are translated with the foreign exchange rates prevailing at the repayment dates and the valuation differences is accounted for in foreign exchange gain/loss accounts.

The Bank provides general and specific provisions based on the assessments and estimates of the management, by considering the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" ("Provisioning Regulation") published in the Official Gazette No. 26333 dated November 1, 2006. In this context, the management estimates are determined, on the basis of the prudence principle and Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture.

Provision expenses are deducted from the net income of the year. If there is a subsequent collection from a receivable that was already provisioned in previous years, the recovery amount is classified under "other operating income". Uncollectible receivables are written-off after all the legal procedures are finalized.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

d. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as "Loans and receivables", "Held-to-maturity assets" or "Financial assets at fair value through profit or loss".

Available-for-sale financial assets are subsequently re-measured at fair value. When fair values based on market prices cannot be obtained reliably, the available-for-sale financial assets are carried at fair values determined by using alternative models. Available for sale equity securities which are not quoted on a market and the fair values of which cannot be determined reliably, are carried at cost less any impairment. "Unrealized gains and losses" arising from changes in the fair value of financial assets classified as available-for-sale are recognized in the shareholders' equity as "Marketable securities valuation differences", until the related assets are impaired or disposed. When these financial assets are disposed or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement. Interest and dividends received from available for sale assets are recorded in interest income and dividend income as appropriate.

Interest income on available for sale financial assets are calculated by effective interest rate method and are accounted for in interest income account. At the time of sale of an available for sale financial assets before the maturity, the difference between the profit, which is the difference between the cost and sales price of the financial assets, and and the interest income accrual are accounted under UCA.

VIII. Explanations on impairment of financial assets:

The existence of objective evidence whether a financial asset or group of financial assets is impaired, is assessed at each balance sheet date. If such evidence exists, impairment provision is provided based on the financial assets classification.

Impairment for held to maturity financial assets carried at amortized cost is calculated as the difference between the expected future cash flows discounted at the effective interest rate method and the carrying value. The impairment amount transferred from shareholders' equity to profit or loss for available for sale securities is calculated as the difference between the purchase cost (after deduction of principal repayments and redemption) and the fair value less any impairment that was previously recorded in profit or loss. This amount is recorded in expense accounts in accordance with the UCA.

The principles for the accounting of provisions for loans and receivables are explained in Note VII. of this section.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

IX. Explanations on offsetting financial assets:

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognized amounts and to collect/pay related financial assets and liabilities on a net basis, or there is an intention to realize the asset and settle the liability simultaneously.

X. Explanations on sales and repurchase agreements and securities lending transactions:

Securities subject to repurchase agreements ("Repos") are classified as "at fair value through profit or loss", "Available-for-sale" and "Held-to-maturity" according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under "Funds provided under repurchase agreements" in liabilities and the difference between the sale and repurchase price is accrued over the life of the repurchase agreements using the "Effective interest method". Interest expense on repo transactions are recorded under "Interest expense on money market transactions" in the income statement.

Funds given against securities purchased under agreements to resell ("Reverse repo") are accounted under "Receivables from reverse repurchase agreements" on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the effective interest method.

The Bank has no securities lending transactions.

XI. Information on assets held for resale and related to discontinued operations and explanations on liabilities related with these assets:

According to the TFRS 5, a tangible asset (or a group of assets to be disposed) classified as "Asset held for resale" is measured at lower of carrying value and fair value less costs to sell. An asset (or a group of assets to be disposed) is regarded as "Asset held for resale" only when the sale is highly probable and the asset (or a group of assets to be disposed) is available for immediate sale in its present condition. For a highly probable sale, there must be a valid plan prepared by the management for the sale of asset including identification of possible buyers and completion of sale process. Furthermore, the asset should be actively in the market at a price consistent with its fair value.

Additionally, assets that were acquired due to non-performing receivables are accounted in the financial statements in accordance with the "Communiqué Regarding the Principles and Procedures for the Disposals of Immovables and Commodities Acquired due to Receivables and for Trading of Precious Metal" published in the Official Gazette dated November 1, 2006, No. 26333 and classified as assets held for resale.

A discontinued operation is a part of the Bank's business classified as sold or held for sale. The operating results of the discontinued operations are disclosed separately in the income statement.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

XII. Explanations on goodwill and other intangible assets:

a. Goodwill:

The excess of the cost of an acquisition over the fair value of the Group's share of the identifiable assets, liabilities or contingent liabilities of the acquired subsidiary at the date of acquisition of the control is recorded as goodwill and represents a payment made by the acquirer in anticipation of future economic benefits from assets that are not capable of being individually identified and separately recognized. The acquirer also recognizes assets that are capable of being individually identified and separately recognized, intangible assets (e.g. credit card brand value, deposit base and customer portfolio) and contingent liabilities at fair value, irrespective of whether the asset had been recognized by the acquiree before the business combination, if it can be distinguished from the goodwill and if the asset's fair value can be measured reliably.

In line with "Turkish Financial Reporting Standard for Business Combinations" ("TFRS 3"), the goodwill is not subject to amortization but is tested annually or more frequently for impairment and carried at cost less accumulated impairment losses, if any, in line with "Turkish Accounting Standard for Impairment on Assets" ("TAS 36").

b. Other intangible assets:

Intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortization and the provision for impairment.

The Bank evaluates the possibility of existence of impairment of intangible assets at the end of each reporting period. If there is an evidence of impairment, the Bank estimates a recoverable amount in accordance with the Turkish Accounting Standard (TAS 36) "Impairment of Assets". The recoverable amount is the higher of net sales price or the value in use. When the book value of another intangible asset exceeds the recoverable amount, the related asset is considered to be impaired. If there is no evidence of impairment, there is no need to estimate the recoverable amount.

Intangibles are amortized over their estimated useful lives using the straight-line method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological and other kinds of obsolescence and all required maintenance expenses necessary to utilize the economic benefit from the asset. The rates used are presented below:

Credit card brand value, deposit base and customer portfolio	10%
Other intangible assets	20%

XIII. Explanations on property and equipment:

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement in accordance with the Turkish Accounting Standard (TAS 16) "Tangible Assets". Subsequently, properties and equipments, except art objects, paintings and buildings are carried at cost less accumulated depreciation and provision for impairment.

The Bank adopted a fair value accounting method for its buildings as of March 31, 2015 in tangible assets in accordance with TAS 16.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

Depreciation is calculated over the cost of property and equipment using the straight-line method. The rates used are stated below:

Buildings	2-4%
Movables, movables acquired under financial leasing	20%

The depreciation charge for items remaining in property and equipment for less than a full accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

In accordance with the Turkish Accounting Standard 36 (TAS 36) "Impairment of Assets", where the carrying amount of an asset is greater than its estimated "recoverable amount", it is written down to its "recoverable amount" and the provision for impairment is charged to the income statement.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales proceeds.

Expenditures for the repair and maintenance of property and equipment are recognized as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the product or to decrease the costs.

XIV. Explanations on leasing transactions:

The Bank performs financial and operational leasing in the capacity of the lessee.

Financial lease

The Bank includes the lower of the market value of the fixed asset subject to financial leasing in the beginning of the financial leasing period or present value of the lease payments in property and equipment and records the liabilities arising from financial leasing in liabilities. Financing costs arising due to leasing are spread through the lease period forming a fixed interest rate. In addition, fixed assets that are obtained by the way of financial leasing are subject to depreciation based on their useful lives. If a decrease in the value of fixed assets that are subject to financial leasing is noticed, impairment provision is recognized. The liabilities arising from financial leasing contracts are accounted under "Financial lease payables". Expenses arising from interest and exchange rate changes related to financial leasing liabilities are charged to the income statement. Lease payments are deducted from financial leasing payables. The Bank does not perform financial leasing operations as "Lessor".

Operational lease

Leases, in which the majority of risk and return of property belongs to lessor, are classified as operational lease. Payments that are made under operational leases, are accounted in income statements on a straight line basis during the lease period.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

XV. Explanations on provisions, contingent liabilities:

Provisions and contingent liabilities, except for the specific and general provisions recognized for loans and other receivables, are accounted in accordance with the "Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets" ("TAS 37").

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. Provisions for contingent liabilities arisen from past events are recognized in the period of occurrence in accordance with the "Matching principle". A provision is recognized when it is probable that the contingent event will occur and a reliable estimate can be made. When a reliable estimate of the amount of obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, it is considered that a "contingent" liability exists and it is disclosed in the related notes to the financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

XVI. Explanations on obligations related to employee rights:

a. Employee termination benefits

Obligations related to employee termination and vacation rights are accounted for in accordance with "Turkish Accounting Standard for Employee Rights" ("TAS 19") and are classified under "Reserve for employee rights" account in the balance sheet.

Under the Turkish Labour Law, the Bank is required to pay a specific amount to the employees who have retired or whose employment is terminated other than for the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total liability for the future probable obligation of the Bank determined by using certain actuarial assumptions. Actuarial gains and losses generated after January 1, 2013, are accounted for under equity in accordance with the revised TAS 19 standard.

b. Pension rights

The Bank's personnel are members of the Yapı ve Kredi Bankası Anonim Şirketi Mensupları Yardım ve Emekli Sandığı Vakfı ("the Fund") which was established in accordance with the 20th temporary article of the Social Security Law No.506. The technical financial statements of the Fund are audited in accordance with the Article 38 of the Insurance Supervision Law and the "Regulation Regarding the Actuaries" by a registered independent actuary.

Temporary article 23 paragraph 1 of the Banking Act published in the Official Gazette No. 25983 dated November 1, 2005 stated that foundations like the Fund are to be transferred to the Social Security Institution ("SSI") within three years beginning from the publication date of the article.

The article of the Law related to the transfer was cancelled (pursuant to the application by the President on November 2, 2005) by the decision of Constitutional Court (decision no: E.2005/39, K. 2007/33 dated March 22, 2007) published in the Official Gazette No. 26479 dated March 31, 2007, and the effect of the law article was suspended from the date of the publication of the decision.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

The reasoning of the Constitutional Court regarding the abrogation of the corresponding article was published in the Official Gazette dated December 15, 2007, No 26372. With the publication of the reasoning of the decision, the Grand National Assembly of Turkey ("GNAT") started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the "Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations" No 5754 ("the New Law") regulating the transfer of the funds were approved by the GNAT on April 17, 2008. The New Law was published in the Official Gazette No. 26870 dated May 8, 2008. With the new law, the banks' pension funds will be transferred to SSI within three years from the date of publication of the decree and this period can be extended for a maximum of two years with the decision of the Council of Ministers. The transfer period was extended for another two years with the decision of the Council of Ministers No. 2011/1559 published in the Official Gazette dated April 9, 2011. According to the "Amendment of Social Insurance and General Health Insurance Law No. 6283" published in the Official Gazette dated March 8, 2012, Council of Ministers was authorized to increase the two-year extension period mentioned above to four years. According to the decision of The Council of Ministers dated February 24, 2014, the transfer date is set as May 2015. The Council of Ministers was authorized to determine the transfer date of pension funds in accordance with the last amendment in the first paragraph of the 20th provisional article of Law No.5510 implemented by the Law No. 6645 on Amendment of the Occupational Health and Safety Law and Other Laws and Decree Laws published in the Official Gazette dated 23 April 2015 and numbered 29335.

A commission (whose members are the representatives of the SSI, the Ministry of Finance, Turkish Treasury, State Planning Organization, BRSA, Saving Deposit Insurance Fund ("SDIF"), one member representing the Fund and one member representing the Fund members) is in charge of the calculation of the value of the payment that would need to be made to SSI to settle the obligation using a technical interest rate of 9,8% by law taking into consideration income and expenses by insurance branches of the funds and the excess of salaries and income paid by the funds over the salaries and income to be paid in accordance with the SSI arrangements which should not be less than SSI arrangements, related to the members of the Fund as of the date of the transfer including the members who have left the scheme.

In accordance with the New Law, after the transfer to SSI, any social rights and payments to Fund members and their beneficiaries which are not provided although they are included in the Fund Title Deed will continue to be provided by the Fund and the employers of the Fund members.

The Bank accounts for a provision for the technical deficit based on the report prepared by a registered actuary in accordance with the rates determined by the New Law.

c. Short term benefits of employee:

Within the scope of TAS 19, the Bank measures the expected costs of accumulated paid leaves as expected payments it will make due to unused leave rights as at the end of the reporting date.

XVII. Explanations on taxation:

a. Current tax:

The Corporate Tax rate is 20% in accordance with the article number 32 of the New Corporate Tax Law no.5520 which is published in the official Gazette dated June 21, 2006 and numbered 26205. This tax rate is applied to accounting income modified for certain exemptions and deductions, and additions for certain non-tax deductible expenses and allowances for tax purposes. No further tax is payable unless the profit is distributed.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

b. Deferred tax:

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12") and in accordance with BRSA's explanations and circulars and the tax legislation, the Bank calculates deferred tax on deductible temporary differences except for general loan loss provisions, to the extent that future taxable income is estimated to be available. In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that future taxable profit will be available against which the deferred tax asset can be utilised.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

Tax effects of the transactions that are directly accounted under equity are also reflected to equity.

Additionally, in accordance with the related legislation of BRSA, deferred tax effect, if income, is not eligible for dividend distribution and share capital increase.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

c. Transfer pricing:

The article no.13 of the Corporate Tax Law No.5520 describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing (previously included as "Disguised profit" in the Corporate Tax Law No.5422). "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at November 18, 2007/26704, explains the application related issues on this topic effective from January 1, 2007, also taking into account the regulations in Article 41 of the Income Tax Law.

"Arm's length principle", which is the basis for the transfer pricing rule, is the pricing system to be followed for purchase or sale activities between related parties for any product or service transactions as if the transaction is realized with any other third party. According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate tax base for tax purposes.

As discussed in the relevant section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

XVIII. Explanations on borrowings:

Trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at "amortised cost" including costs of transactions using the "effective interest method".

Bank, classified it's part of the financial debts as fair value through profit / loss on financial liabilities. Difference between fair value of the debt and amortised cost of the debt together with the interest expense paid on financial instrument is presented as trading gain and losses in the accompanying financial statements.

The Bank utilises various hedging techniques to minimise the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds have been issued by the Bank.

Also, the Bank obtains funds by issuing bonds and bills.

XIX. Explanations on issuance of share certificates:

When shares are issued above their nominal value, the excess over the nominal value is accounted under shareholders' equity as "Share premium".

No dividend payments were announced after the balance sheet date.

XX. Explanations on avalized drafts and letter of acceptances:

Avalized drafts and acceptances are included in the "Off-balance sheet commitments".

XXI. Explanations on government grants:

In accordance with the related articles of the "Law Regarding the Supporting of Research and Development Activities" numbered 5746, until balance sheet date, the Bank received government grant from TÜBİTAK amounting to TL 2.201 (December 31, 2014 - TL 1.585).

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Accounting policies (continued)

XXII. Profit reserves and profit distribution:

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Legal reserves consist of first and second reserves as foreseen in the TCC. The TCC specifies that the first legal reserve is appropriated at the rate of 5% until the total reserve is equal to 20% of paid-in capital and that the second legal reserve is appropriated at the rate of 10% of distributions in excess of 5% of paid-in capital; however holding companies are not subject to this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate for accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

XXIII. Earnings per share:

Earnings per share disclosed in the income statement are calculated by dividing net profit/(loss) for the year to the weighted average number of shares outstanding during the period concerned.

	Current Period	Prior Period
Net Income/(loss) from continuing operations to be appropriated to ordinary shareholders	1.225.542	1.426.940
Weighted average number of issued ordinary shares(thousand)	434.705.128	434.705.128
Earnings per share from continued operations (full TL)	0,0028	0,0033

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. These bonus shares are treated as issued shares in earnings per share computations. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year is adjusted in respect of bonus shares issued without a corresponding change in resources by giving them a retroactive effect. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

No bonus shares were issued as of September 30, 2015 (December 31, 2014 - no bonus shares were issued).

XXIV. Related parties:

For the purpose of these financial statements, shareholders having control shares of the Bank, key management personnel and board members together with their families and companies controlled by/affiliated with them, associated companies and joint ventures and the Fund providing post employment benefits are considered and referred to as related parties in accordance with "Turkish Accounting Standard for Related Parties" ("TAS 24"). The transactions with related parties are disclosed in detail in Note VII of Section Five.

XXV. Explanations on operating segments:

Information about operating segments which are determined in line with "Turkish Financial Reporting Standard about Operating Segments" ("TFRS 8") together with organizational and internal reporting structure of the Bank, are disclosed in Note XV of Section Four.

XXVI. Explanations on other matters:

None.

Section Four

Information related to financial position of the Bank

I. Explanations on capital adequacy ratio:

- a. The capital adequacy ratio of the Bank is 12,85% (December 31, 2014 – 15,03%).
- b. The capital adequacy ratio is calculated in accordance with the "Regulation Regarding the Measurement and Evaluation of Banks' Capital Adequacy Ratio", "Regulation Credit Risk Mitigation Techniques", "Regulation on calculation of Risk-Weighted Amounts of Securitizations" published in the Official Gazette No. 28337 dated June 28, 2012 and "Regulation Regarding Banks' Shareholders' Equity" published in the Official Gazette No. 28756 as of September 5, 2013".

For the calculation of amounts subject to credit risk, the Bank classifies the loans in the related risk weight taking into consideration the risk classes, ratings and the risk mitigating factors. "Comprehensive collateral method" is used in considering the risk mitigating factors for the banking and trading book.

For the calculation of capital adequacy ratio; financial information, which is prepared in accordance with the current regulations, is used. Within the scope of this Regulation, trading books and banking books are defined and they become subject to credit risk and market risk calculations. In addition, market risk and operational risk calculations are included in the calculation of the capital adequacy ratio, in accordance with the existing regulation.

Amounts taken into consideration as deduction items are subject to credit risk calculations. Assets subject to amortization or impairment are taken into consideration after relevant nettings over their net book values for the calculation of risk-weighted assets.

In the calculation of the value at credit risk for non-cash loans and commitments, the receivables from counterparties in such transactions are weighted after netting with specific provisions that are classified under liabilities and calculated based on the Provisioning Regulation. The net amounts are then multiplied by the rates stated in the Article 5 of the Regulation and included in the relevant exposure category defined in the Regulation.

In accordance with Article 5 of the Regulation, counterparty credit risk is calculated for repo transactions, securities and commodities. The "Fair Value Valuation Method" mentioned in the communiqué is used for the counterparty credit risk calculations.

In the calculation of the value at credit risk for the derivative financial instruments which are in banking books, the receivables from counterparties are multiplied by the rates stated in the Regulation, reduced as per the "Regulation on Credit Risk Mitigation Techniques" and then included in the relevant exposure category defined in Regulation.

Information related to financial position of the Bank (continued)

c. Approaches for assessment of adequacy of internal capital requirements for current and future activities:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

II. Explanations on credit risk:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

III. Explanations on market risk:

Risk management activities of the Bank are carried out under the responsibility of the Bank's Board of Directors in accordance with "Regulation on Bank's Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

In order to comply with the regulations, the Bank set its activities related with market risk management in accordance with "Regulation on Bank's Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 29057 dated July 11, 2014.

Market risk policies, which are approved by the Bank's Board of Directors and updated annually, if needed, include limit, methodologies, processes and responsibilities. Market risk calculations for the trading portfolio are performed by using standard method and Value at Risk (VaR) method. VaR is calculated using historical simulation method and reported to the management on a daily basis and to the Bank's Executive Committee on a monthly basis. In order to keep the effect of interest rate and foreign currency fluctuations at minimum, the Bank enters into derivative transactions of which some of the derivative transactions are subject to hedge accounting applications.

The table below shows details of the market risk as of September 30, 2015 in accordance with "Regulation on Banks' Internal Control and Risk Management Systems" and "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks" published in the Official Gazette no. 28337 dated June 28, 2012.

(1) Explanations on market risk:

a. Information on market risk:

	Current Period	Prior Period
(I) Capital requirement against general market risk - standard method	54.126	46.021
(II) Capital requirement against specific risks - standard method	1.986	2.814
Capital requirement against specific risks of securitization positions- standard method	-	-
(III) Capital requirement against currency exchange risk - standard method	54.748	36.113
(IV) Capital requirement against commodity risks - standard method	53	133
(V) Capital requirement against exchange risks - standard method	-	-
(VI) Capital requirement against market risks of options - standard method	924	1.718
(VII) Capital requirement against counterparty credit risks - standard method	162.792	43.451
(VIII) Capital requirement against market risks of banks applying risk measurement model	-	-
(IX) Total capital requirement against market risk (I+II+III+IV+V+VI+VII+VIII)	274.629	130.250
(X) Value-at-market risk (12,5 x VIII) or (12,5 x IX)	3.432.863	1.628.125

b. Average market risk table of calculated market risk at month ends:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

(2) Quantitative information on counterparty risk:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

(3) Explanations on calculation of capital requirements through a risk measurement model which is permitted to be used by the authorities:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

IV. Explanations on operational risk:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

V. Explanations on currency risk:

The difference between the Bank's foreign currency denominated and foreign currency indexed on- and off-balance sheet assets and liabilities is defined as the "Net Foreign Currency Position" and it is the basis of currency risk. Cross currency risk is also taken into consideration for the currency risk calculations and measurements.

The Bank keeps the amount of currency risk exposure within the related legal limits and follows the exchange position on a daily/regular basis. In addition, although the internal exchange position limit is lower when compared to the related legal limit, there has not been any limit exceeding during the period. As an instrument of currency risk management, derivatives such as swap and forwards are used to reduce risk whenever needed. In order to guard against extreme volatility during the year stress tests are applied. Value at risk method is used for the measurement of foreign exchange risk.

The details of hedging of the foreign currency debt instruments and net foreign currency investment risk with derivative instruments are disclosed in section four Note XIII.

The Bank's publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five work days prior to that date are as follows:

(Exchange rates presented as full TL)

	USD	EUR
Balance sheet evaluation rate	3,04330	3,42120
29.09.2015 current bid rate	3,04640	3,40570
28.09.2015 current bid rate	3,00690	3,36020
22.09.2015 current bid rate	2,99780	3,38470
21.09.2015 current bid rate	2,99610	3,42480
18.09.2015 current bid rate	3,01430	3,41160
Arithmetic average of the last 30 days:	3,00324	3,37553

Information related to financial position of the Bank (continued)

VI. Explanations on interest rate risk:

The monitoring of interest rate sensitive assets and liabilities, including sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements, is performed by the risk management department for all interest sensitive instruments over carrying values. The results are presented monthly to the Asset and Liability Management function of the Executive Committee. By using sensitivity and scenario analyses, the possible effects by interest rate volatility are analyzed. In these analyses possible losses are calculated for the change in fair value of interest sensitive products by applying shock tests to interest rates.

Sensitivity analyses are also calculated daily within Market Risk reporting on the basis of maturity and foreign exchange types and reported to Senior Management by checking them against the determined limits.

The bank utilizes TL/foreign currency and TL/TL interest rate swap transactions in order to limit the interest and foreign currency risk arising from short-term deposit and long-term consumer loans within the TL balance sheet.

a. Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates:

(1) Does not include demand/non-interest transactions.

c. Interest rate risk arising from banking accounts:

The sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements is performed for all interest earning assets and interest bearing liabilities.

Interest rate risk resulting from banking books comprise of repricing risk, yield curve risk, and basis risk.

Interest rate risk arising from banking book is measured in accordance with "The regulation of measurement and assessment of interest rate risk by standard shock method arising from banking accounts", published in the Official Gazette No. 28034 dated August 23, 2011 and legal limit of this measurement is monitored and reported monthly. Proportional amount of capital is provided in line with the same level of Interest rate risk arising from banking accounts.

Interest rate risk is measured and monitored monthly by market risk management. Duration analysis, gap analysis, basis points value analysis, scenario analysis and simulation of net interest income are performed and reported monthly to Asset Liability Management function of the Executive Committee. Interest sensitivity is measured most appropriately using the duration distribution map for every type of product. Investment decisions are done by taking into account the interest rate measurements. The maturity and interest risk for products with uncertain maturities is effectively measured using the behavioral analysis.

Economic value differences resulting from interest rate fluctuations as of September 30, 2015 are presented in the table below in accordance with the "Regulation of measurement and assessment of interest rate risk by standard shock method arising from banking accounts".

VII. Explanation on share certificates position risk from banking book:

None.

VIII. Explanations on liquidity risk:

Liquidity risk covers the inability to fund increases in assets or to meet liabilities when they are due and other risks arising from transactions undertaken in illiquid markets. These risks contain maturity mismatch risk, emergency risk and market liquidity risk.

The main objective of the Bank's overall liquidity management is to ensure the continuity of the Bank's payment obligations and sustain the level of payments availability in crisis time without risking the value and the brand name of the Bank. For this reason, two different models are defined: the current situation liquidity management and emergency situation liquidity management.

The current situation liquidity risk is monitored by the reports of short and long term liquidity. Short-term liquidity position is monitored on a daily basis including the legal Liquidity Adequacy Reports as to whether the position is within legal limits. Long-term liquidity position aims to ensure the financial stability of the balance sheet and is monitored on a monthly basis. On a monthly basis, the Asset and Liability Management function within the scope of the meetings of the Executive Board evaluates the Bank's liquidity position and actions are taken when necessary.

In cases when the future financial events require more liquidity than the Bank's daily liquidity needs, the Bank carries out its activities accordance with the "Emergency Situation Liquidity Plan" where duties and responsibilities are defined in detail. Liquidity stress test scenarios are used to measure the Bank's resistance to unexpected situations.

The Bank issues bonds and obtains long-term bank loans to overcome the current short-term funding of the banking sector.

(1) Assets that are necessary for continuance of banking activities and that cannot be liquidated in the short-term, such as fixed and intangible assets, investments in associates, subsidiaries, assets held for sale, stationary stocks, prepaid expenses and loans under follow-up, are classified in this column.

(2) Shareholders' equity is presented under the "Other liabilities" item in the "Unclassified" column.

IX. Explanations on securitization positions:

None.

X. Credit risk mitigation techniques:

The Bank does not use on-balance and off-balance sheet netting for the calculation of credit risk mitigation factors.

The Bank applies credit risk mitigation according to the comprehensive method in compliance with the article 34 of the "Regulation on Credit Risk Mitigation Techniques". Only cash and cash equivalent collaterals are taken into account for the purpose of credit risk migration.

Credit derivatives are not taken into consideration for credit risk mitigation techniques.

Cash and cash equivalent collaterals considered for the mitigating the credit risk, are taken into account at their nominal values. Standard margin is applied where currencies of exposure and the collateral are different.

Mortgage collaterals considered for mitigating the credit risk, are taken into account with the expertise value (which are also reviewed by the expert group of the Bank) determined by CMB licensed appraisal companies' experts. Based on these values of the collaterals, total amount of credit risk is determined in accordance with the maximum Loan-to-Value ratio set by BRSA. For the guarantees that are taken to mitigate the credit risk, credit worthiness of the guarantor is measured. It is required to obtain partner consent for individual guarantees for married individuals.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Information related to financial position of the Bank (continued)

The Bank carries out its activities in accordance with the BRSA Communiqué for the valuation of the loans granted for financing of a real estate.

Cheques and notes in connection with a real business transaction are taken into consideration to mitigate the credit risk.

In order to use bank guarantee as collateral for a credit risk, it is required to have a counterparty limit on behalf of the guarantor bank and not to have mismatch of the maturity and the amount of the guarantee and the credit risk.

In the process of credit allocation, cash blockage guarantees, pledges, mortgages, guarantees and warranties are considered as risk-reducing collaterals.

The Bank's exposure to risks is measured and monitored periodically by using internationally recognized methods, in accordance with international and local regulations and internal policies. With regards to the limitation of risks, also internal limits are employed besides regulatory limits. Possible changes that may occur in the economic environment are taken into account for determining these limits.

Information related to financial position of the Bank (continued)

XI. Strategies and policies of the risk management system:

Risk management strategy of the Bank includes measurement and monitoring of the risks with the methods that are defined in accordance with the international standards and local regulations. Also it includes having a sustainable growth in the framework of optimized capital use in accordance with the principle of keeping a balanced risk and return approach.

Risk Management Department including the sub-departments of "Credit Risk Control and Operational Risk Management", "Market Risk Management" and "Credit Risk Management", reports to the Board of Directors through the Audit Committee.

Credit risk rating models are mainly used to measure and monitor the credit risk. The rating model is used in day to day activities of the Bank such as, for the evaluation of new credit applications, determination of credit approval authority levels and monitoring the performance of the existing customer portfolio. Performance of the rating model is monitored by a validation team on a regular basis.

Reports related to the loan portfolio of the Bank are distributed to the relevant departments within the Bank, on a regular basis. Expected loss calculations for the Bank's loan portfolio are performed and used for determining the objectives and policies of the Bank.

Market Risk Analysis unit is responsible for measuring, monitoring and distributing the results of the market risk to the relevant departments within the Bank, as well as reviewing the valuation calculations of financial instruments, which are subject to market risk, in accordance with accounting standards.

The Bank's exposure to risks is measured and monitored periodically by using internationally recognized methods, in accordance with international regulations, local regulations and internal policies. In addition to the regulatory limits, there are also internal limits set to measure and monitor the risk. Possible changes that may occur in the economic environment are taken into account for determining these limits.

XII. Explanations on the presentation of financial assets and liabilities at fair values:

This footnote is not prepared in compliance with the Article 25 of the communique "Financial Statements and Related Disclosures and Footnotes to be Announced to Public by Banks" for the interim period financial statements.

XIII. Explanations on hedge accounting:

The Bank applies the following hedge accounting models as of September 30, 2015:

- Fair value Hedge ("FVH")
- Cash Flow Hedge ("CFH")

Cross currency interest rate swaps are used as hedging instrument in FVH and interest rate swaps are used as hedging instrument in CFH.

Contractual amounts and the fair values as at September 30, 2015 and December 31, 2014 of these hedging instruments are presented in the table below:

	Current Period			Prior Period		
	Notional ⁽¹⁾	Asset	Liability	Notional ⁽¹⁾	Asset	Liability
Hedging instrument						
Interest rate swap / Cross currency interest rate swap (CFH)	28.185.502	917.222	231.869	20.360.998	78.251	439.791
Cross currency interest rate swap (FVH)	531.065	274.848	11.769	455.325	177.895	-
Total	28.716.567	1.192.070	243.638	20.816.323	256.146	439.791

(1) Only the "sell" legs of the related derivatives are presented with the addition of the "buy" legs of these derivatives amounting to TL 29.272.715 (December 31, 2014 – TL 21.080.221) the total notional of derivative financial assets amounting to TL 57.989.282 (December 31, 2014 – TL 41.896.544) is accounted for in off-balance sheet under "Hedging Derivative Financial Instruments" line item.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Information related to financial position of the Bank (continued)

The fair valuation methodology of the derivatives presented in the above table is disclosed in the accounting principles section of these financial statements in Section III. Part IV.

Fair value hedge accounting:

Starting from March 1, 2009 and July 28, 2015 for marketable securities, the Bank has hedged the possible fair value effects of changes in market interest rates on part of its fixed interest TL mortgage and car loan portfolios and marketable securities and fair value effects of changes in foreign exchange rates on part of its foreign currency denominated funding and marketable securities by using cross-currency interest rate swaps. The Bank selected to apply macro FVH accounting for such relationship in accordance with TAS 39.

The impact of application of FVH accounting is summarized below:

Current Period						
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Fair value difference / adjustment of the hedged item ⁽¹⁾	Net fair value of the hedging instrument ⁽²⁾		Net gain/(loss) recognised in the income statement (Derivative financial transactions gains/losses) ⁽³⁾
				Asset	Liability	
Cross currency interest rate swaps	Fixed interest TL mortgage and car loan portfolios and foreign currency funds and marketable securities	Fixed interest and changes in foreign exchange rate risk	(30.472)	274.848	11.769	(19.956)

(1) The amount refers to the fair value of the hedged item calculated for the TL fixed interest mortgage and car loans in accordance with hedge accounting effectiveness tests. The foreign exchange rate changes of foreign currency fundings and cross-currency swaps are reflected to the income statement in foreign exchange gains / losses line item.

(2) The amounts include the foreign exchange differences and net straight line interest accruals of the related derivatives.

(3) The ineffective portion of the mentioned hedging transaction is TL 982.

Prior Period						
Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Fair value difference / adjustment of the hedged item ⁽¹⁾	Net fair value of the hedging instrument ⁽²⁾		Net gain/(loss) recognised in the income statement (Derivative financial transactions gains/losses) ⁽³⁾
				Asset	Liability	
Cross currency interest rate swaps	Fixed interest TL mortgage and car loan portfolios and foreign currency funds	Fixed interest and changes in foreign exchange rate risk	(10.516)	177.895	-	(5.403)

(1) The amount refers to the fair value of the hedged item calculated for the TL fixed interest mortgage and car loans in accordance with hedge accounting effectiveness tests. The foreign exchange rate changes of foreign currency funding and cross-currency swaps are reflected to the income statement in foreign exchange gains / losses line item.

(2) The amounts include the foreign exchange differences and net straight line interest accruals of the related derivatives.

(3) The ineffective portion of the mentioned hedging transaction is TL 2.913.

At the inception date, the Bank documents the relationship between the hedging instruments and hedged items required by the FVH accounting application in accordance with TAS 39 and its own risk management policies and principles. Every individual relationship is approved and documented in accordance with the same methodology. In accordance with TAS 39, the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies. In the effectiveness tests, the fair values of the hedged item are calculated using the same assumptions used in calculation of fair values of the derivatives.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Information related to financial position of the Bank (continued)

The effectiveness tests are performed prospectively and retrospectively on a monthly basis. At the inception date the effectiveness tests are performed prospectively. If the underlying hedge does not conform to the FVH accounting requirements (out of the 80%-125% effectiveness range) or if the management voluntarily decides to discontinue the hedging relation, the adjustments made to the carrying value (amortized cost) of the hedged item are amortized with the straight line method and recognized in the profit and loss accounts. In addition if the hedging instrument is sold or closed before its maturity, the amount of the fair value adjustments of the hedged items are amortized to profit and loss accounts with the straight line method.

Cash flow hedge accounting:

The Bank started to apply macro cash flow hedge accounting from January 1, 2010 onwards in order to hedge its cash flow risk from floating interest rate liabilities. The hedging instruments are USD, EUR and TL interest rate swaps with floating receive, fixed pay legs, and the hedged item is the cash outflows due to financing of interests of repricing USD, EUR and TL deposits, borrowings and repos.

The impact of application of CFH accounting is summarized below:

Current Period

Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Net fair value of the hedging instrument		Net gain/(loss) recognized in hedging funds ⁽¹⁾	Net gain/(loss) reclassified to equity ⁽²⁾⁽³⁾
			Asset	Liability		
Interest rate swaps	Customer deposits, borrowings and repos	Cash flow risk due to the changes in the interest rates	917.222	231.869	212.924	509.933

(1) Includes deferred tax impact.

(2) Includes tax and foreign exchange differences.

(3) The ineffective portion of the mentioned hedging transaction is amounting TL 31.171 realized as an expense.

Prior Period

Type of hedging instrument	Hedged item (asset and liability)	Nature of hedged risks	Net fair value of the hedging instrument		Net gain/(loss) recognized in hedging funds ⁽¹⁾	Net gain/(loss) reclassified to equity ⁽²⁾⁽³⁾
			Asset	Liability		
Interest rate swaps	Customer deposits and repos	Cash flow risk due to the changes in the interest rates	78.251	439.791	(297.009)	(181.892)

(1) Includes deferred tax impact.

(2) Includes tax and foreign exchange differences.

(3) The ineffective portion of the mentioned hedging transaction is TL 12.225.

At the inception date, the Bank documents the relationship between the hedging instruments and hedged items required by the CFH accounting application in accordance with TAS 39 and its own risk management policies and principles. Every individual relationship is approved and documented in the same way. In accordance with TAS 39, the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies.

The effectiveness tests are performed on a monthly basis. If the underlying hedge does not conform to the CFH accounting requirements (out of the 80%-125% effectiveness range) or if the management voluntarily decides to discontinue the hedging relation or the hedging instrument is sold or closed before its maturity, the cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective shall remain separately in equity until the forecast transaction occurs or is no longer expected to occur. When the hedged forecasted transactions are no longer expected to occur, the net cumulative gain or loss is reclassified from other comprehensive income to profit and loss.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of September 30, 2015 (continued)

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Net Investment Hedge:

The Bank, starting with at July 1,2015 hedges part of the currency translation risk of net investments in foreign operations through foreign currency borrowings. The Bank's Euro denominated borrowing is designated as a hedge of the net investment in the Bank's certain EUR denominated subsidiaries. The total amount of the borrowing designated as a hedge of the net investment at September 30, 2015 is EUR 350 million.

XIV. Explanations on the activities carried out on behalf of others and fiduciary transactions:

The Bank carries out trading, custody, management and consulting services on behalf of customers and on their account. The Bank has no fiduciary transactions.

XV. Explanations on operating segments:

The Bank carries out its banking operations through three main business units:

- (1) Retail Banking
- (2) Corporate and Commercial Banking
- (3) Private Banking and Wealth Management.

The Bank's Retail Banking activities include card payment systems, small medium size enterprises (SME) banking and individual banking. Retail Banking products and services offered to customers include card payment systems, consumer loans (including general purpose loans, auto loans, mortgages), commercial installment loans, SME loans, time and demand deposits, gold banking, investment accounts, life and non-life insurance products and payroll services. Card payment systems cover the management of products, services, campaigns for member merchants as well as the sales and activities for a variety of customer types. Crystal, Play, Adios and Taksitçi are the other card brands providing services for the different segments within the World brand, shopping and marketing platform of the Bank. The Bank also offers debit card and a prepaid card named World Hediye Card.

Corporate and Commercial Banking segment is organized into three subgroups: Corporate Banking for large-scale companies, Commercial Banking for medium-sized enterprises and Multinational Companies Banking for multinational companies. Corporate and Commercial Banking, has a product range of working capital finance, trade finance, project finance, domestic and international non-cash loans such as letters of credit and letters of guarantee, cash management and internet banking.

Through its Private Banking and Wealth Management activities, the Bank serves high net worth customers and delivers investment products to this customer segment. Among the products and services offered to Private Banking customers are time deposit products, capital guaranteed funds, mutual funds, Type A Type B funds, derivative products such as forwards, futures and options in domestic futures exchange (VOB) and international markets, personal loans, foreign exchange, gold and equity trading, pension plans, insurance products and 7/24 safe deposit boxes and e-banking services. Also, personal art advisory, inheritance advisory, real estate advisory, tax advisory and philanthropic advisory are offered within the Private Banking and Wealth Management activities.

The Bank's widespread branch network and alternative distribution channels including ATMs, telephone banking, internet banking and mobile banking are utilized to serve customers in all segments.

Section Five

Explanations and notes related to unconsolidated financial statements

I. Explanations and notes related to assets

a. Information related to cash and the account of the Central Bank of the Republic of Turkey (the "CBRT"):

1. Information on cash and the account of the CBRT:

	Current Period		Prior Period	
	TL	FC	TL	FC
Cash	1.987.275	671.907	1.696.963	517.372
The CBRT ⁽¹⁾	2.056.324	28.505.235	1.293.701	19.460.663
Other	-	265	-	189
Total	4.043.599	29.177.407	2.990.664	19.978.224

(1) The balance of gold amounting to TL 4.118.762 is accounted for under the Central Bank foreign currency account (December 31, 2014 – TL 3.302.860).

2. Information on the account of the CBRT:

	Current Period		Prior Period	
	TL	FC	TL	FC
Demand unrestricted amount ⁽¹⁾	2.056.324	6.262.852	1.293.701	2.046.196
Time unrestricted amount	-	-	-	-
Reserve requirement ⁽²⁾	-	22.242.383	-	17.414.467
Total	2.056.324	28.505.235	1.293.701	19.460.663

(1) The TL reserve requirement has been classified in "Central Bank Demand Unrestricted Account" based on the correspondence with BRSA letter as of January 3, 2008.

(2) The Bank keeps TL, USD, EUR and Gold reserve deposits for its TL and FX liabilities at Central Bank accounts in accordance with the legislation of the Central Bank numbered 2005/1, "Decree on Reserve Deposits".

b. Information on financial assets at fair value through profit and loss:

The Bank does not have financial assets at fair value through profit and loss subject to repo transactions and does not have financial assets at fair value through profit and loss given as collateral/blocked amount (December 31, 2014 - None).

c. Positive differences related to trading derivative financial assets:

	Current Period		Prior Period	
	TL	FC	TL	FC
Forward transactions	357.809	-	48.509	-
Swap transactions	3.094.391	284.770	905.200	102.595
Futures transactions	-	-	-	-
Options	185.326	18.397	27.318	18.243
Other	-	-	-	-
Total	3.637.526	303.167	981.027	120.838

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)

(1) Explained in Note XIII of Section IV.

g. Information on provisions:

1. Information on general provisions:

	Current Period	Prior Period
Provisions for first group loans and receivables	1.951.209	1.451.714
<i>of which, Provision for Loans and Receivables with Extended Maturity</i>	77.612	61.798
Provisions for second group loans and receivables	200.883	188.332
<i>of which, Provision for Loans and Receivables with Extended Maturity</i>	59.418	55.839
Provisions for non cash loans	98.967	84.527
Others	227.693	158.694
Total	2.478.752	1.883.267

2. Information on reserve for employee rights:

In accordance with Turkish Labour Law, the reserve for employment termination benefits is calculated as the present value of the probable future obligation in case of the retirement of employees. TAS 19 necessitates actuarial valuation methods to calculate the liabilities of enterprises.

The following actuarial assumptions were used in the calculation of total liabilities:

	Current Period	Prior Period
Discount rate (%)	3,50	3,50
Probability of retirement rate (%)	94,11	94,11

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the effects of future inflation. The ceiling of full TL 3.828,37 effective from September 1, 2015 (July 1, 2014: full TL 3.438,22) has been taken into consideration in calculating the reserve for employment termination benefits.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, See Note I. of Section three)
