Publicly announced unconsolidated financial statements and related disclosures at December 31, 2023 together with independent auditor's report

(Convenience translation of publicly announced un consolidated financial statements and independent auditor's report originally issued in Turkish, See Note 1. of Section three)

CONVENIENCE TRANSLATION INTO ENGLISH OF INDEPENDENT A UDITOR'S REPORT ORIGINALLY ISSUED INTURKISH (See Note I of Section Three) INDEPENDENT A UDITOR'S REPORT

T o the General Assembly of Yapı ve Kredi Bankası A.Ş.

A. Audit of the Unconsolidated Financial Statements

1. Opinion

We have audited the accompanying unconsolidated financial statements of Yapıve Kredi BankasıA.Ş. (the "Bank"), which comprise the statement of unconsolidated balance sheet as at December 31, 2023, unconsolidated statements of profit and loss, unconsolidated statement of profit or loss and other comprehensive income, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows for the year then ended and the notes to the unconsolidated financial statement notes.

In our opinion, the unconsolidated financial statements present fairly, in all material respects, the unconsolidated financial position of the Bank as at December 31, 2023, and its unconsolidated financial performance and its unconsolidated cash flows for the year then ended in accordance with the Banking Regulation and Supervision Agency ("BRSA") Accounting and Financial Reporting Legislation which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette No.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Board and circulars and interpretations published by BRSA and Turkish Financial Reporting Standards ("TFRS") for those matters not regulated by the aforementioned regulations.

2. Basis for Opinion

Our audit was conducted in accordance with the "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and the Standards on Independent Auditing (the "SIA") that are part of Turkish Standards on Auditing issued by the Public Oversight Accounting and Auditing Standards Authority (the "POA"). Our responsibilities under these standards are further described in the "Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements" section of our report. We hereby declare that we are independent of the Bankin accordance with the Ethical Rules for Independent Auditors (including Independence Standards) (the "Ethical Rules") and the ethical requirements regarding independent audit in regulations issued by POA that are relevant to our audit of the unconsolidated financial statements. We have also fulfilled our other ethical responsibilities in accordance with the Ethical Rules and regulations. We believe that the audit evidence we have obtained during the independent audit provides a sufficient and appropriate basis for our opinion.

3. Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. Key audit matters were addressed in the context of our independent audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

| Key Audit Matters | How the key audit matter was addressed in the audit |
|--|---|
| Expected credit losses for loans | |
| The Bank has total expected credit losses for loans amounting to TL 39.819.927 thousand in respect to total loans amounting to TL 904.560.223 thousand which represent a significant portion of the Bank's total assets in its unconsolidated financial statements as at December 31, 2023. | With respect to stage classification of loans and calculation of expected credit losses, we have assessed policy, procedure and management principles of the Bank within the scope of our audit. We tested the design and the operating effectiveness of relevant systems and processes implemented in accordance with these principles. |
| Ex planations and notes related to expected credit losses for loans and receivables are presented in Section Three Part 7.3 and 8, Section Four Part 2, Section Four Part 3.3, Section Five Part 1.7 in the accompanying unconsolidated financial statements as at December 31, 2023. The Bank recognizes provision for impairment in accordance with "TFRS 9 Financial Instruments" ("TFRS 9") requirements and the "Regulation on the Procedures and Principles for Classification of Loans and Provisions to be Provided" as published in the Official Gazette dated 22 June 2016 numbered 29750. The Bank exercises significant decisions using subjective judgement, interpretation and assumptions over when and how much to record as loan impairment. | We checked appropriateness of matters considered in methodology applied by the Bank with TFRS 9 for calculation of the provision amount through stage classification of loans. For forward looking assumptions made by the Bank's management in its expected credit losses calculations, we held discussions with management and evaluated the assumptions using publicly available information. Regarding expected credit losses methodology; we have assessed and tested model segmentation, lifetime probability of default model, exposure at default model, loss given default model and the approaches to reflecting reasonable and supportable forward looking expectations (including macroeconomic factors) with our financial risk experts. Our procedures also included the following: Together with our financial risk experts, we evaluated and tested reasonableness of the changes in the expected credit loss allowance methodology and the performance of the impairment models used and results of validation studies. |

| Key Audit Matters | How the key audit matter was addressed in the audit |
|--|--|
| Expected credit losses for loans (Continued) To determine expected credit losses as of December 31, 2023 the Bank determines stage classification of loans by identifying significant increase in credit risk with quantitative and qualitative assessments disclosed in Section Three Part 8 in the accompanying unconsolidated financial statements and identification of default events disclosed in Section Four Part 2 in the accompanying unconsolidated financial statements. The Bank uses complex models that requires data to be derived from multiple systems, for determining significant increase in credit risk and calculation of TFRS 9 expected credit losses. These models contain judgement and estimations in regard to forward looking estimations, scenarios of macro-economic conditions and weighing of scenarios based on expert opinion. Information used in the individually or collectively assessment of expected credit loss such as historical loss experiences, current conditions and macroeconomic expectations should be supportable and appropriate. Our audit was focused on this area due to existence of complex estimates and information used in the impairment assessment such as macro-economic expectations, current conditions, historicalloss experiences, current | in the audit We have checked Probability of Default (PD) models used in determination of provisions for v arious credit portfolios with our financial risk experts by reperforming on a sample selection basis. For a sample of exposures, we checked the accuracy of determining Ex posure at Default, including the consideration of prepayments and repayments in the cash flows and the resultant arithmetical calculations. We checked the calculation of the Loss Given Default (LGD) used by the Bank in the expected credit losses calculation methodologys, and tested collaterals, recovery and costs. For a selected sample, we checked expected credit losses determined based on individual assessment per Bank's policy by means of supporting data and evaluated appropriateness via communications with management. We checked key data sources for data used in expected credit losses calculations. We tested reliability and completeness of the data used in expected credit losses calculations with our information systems specialists. We checked accuracy of resultant expected credit losses calculations. |
| collectively assessment of expected credit loss such as historical loss experiences, current conditions and macroeconomic expectations should be supportable and appropriate. Our audit was focused on this area due to existence of complex estimates and information used in the impairment assessment such as macro-economic expectations, current conditions, historical loss experiences, development and weighting of macro-economic scenarios; the significance of the loan balances; | management. We checked key data sources for data used in expected credit losses calculations. We tested reliability and completeness of the data used in expected credit losses calculations with our information systems specialists. We checked accuracy of resultant expected credit losses calculations. |
| the classification of loans as per their credit risk (staging) and the importance of determination of the associated expected credit loss. Timely and correct identification of default event and significant increase in credit risk and level of judgements and estimations made by the management have significant impacts on the amount of impairment provisions for loans. Therefore, this area is considered as key audit matter. | appropriate provisioning for impairment we have performed loan review procedures based on a selected sample. We evaluated the adequacy of the disclosures made in the unconsolidated financial statements regarding the provision for impairment of loans. |

| Key Audit Matters | How the key audit matter was addressed in the audit |
|---|---|
| Valuation of Pension Fund obligations | |
| The Bank has booked provision amounting to TL 10.027.806 thousand for Pension Fund Liabilities in the accompanying unconsolidated financial statements as at December 31, 2023. Explanations on Valuation of Pension Obligations are presented in the section five part 2.6.3 in the accompanying unconsolidated financial statements. | Within our audit we tested on a sample basis the accuracy of the retired and employee data supplied by the Bank management to the external actuary firm for the purpose of evaluation pension obligation. In addition, we verified the existence and values of the Pension Fund assets. |
| As presented in Section Three Part 16.2, Yapı ve Kredi Bankası Anonim Şirketi Mensupları Yardım ve Emekli Sandığı (Pension Fund) is established in accordance with the Social Security Law numbered 506 article No 20 and is within the scope of Funds whose members' rights to be transferred to the Social Security Institution (SSI). The President is authorized to determine the transfer date. The total obligation of the fund is estimated using separate methods and assumption for benefits to be transferred and for non-transferrable benefits. The calculation of the pension obligations requires significant judgement and technical expertise in choosing appropriate assumptions. Calculation of Pension Fund liabilities include estimates and uncertain assumptions such as transferrable benefits, discount rates, salary increases, economic and demographic assumptions. | We checked whether significant changes in actuarial assumptions used in calculation, employee benefits in the period, plan assets and liabilities, and whether significant changes in laws and regulations related to valuations exist. Through use of our actuarial specialist, we assessed the reasonableness of assumptions and evaluation made by the external actuaries in the calculation of the liability. We evaluated the adequacy of the disclosures made in the unconsolidated financial statements of the Bank regarding the Pension Fund. |
| obligations. During our audit, above mentioned significant judgement, assumption and estimates used in the calculations of Pension Fund obligations, uncertainty of the transfer date, technical interest rate determined in accordance with the law regulating the transfer conditions and significant impact of any differentiation in these assumptions taken into consideration, and this area is considered as key audit matter. | |

4. Responsibilities of Management and Those Charged with Governance for the Unconsolidated Financial Statements

The Bank management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the BRSA Accounting and Financial Reporting Legislation, and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

5. Au ditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Responsibilities of independent auditors in an independent audit are as follows:

Our aim is to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an independent auditor's report that includes our opinion. Reasonable assurance expressed as a result of an independent audit conducted in accordance with "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA is a high level of assurance but does not guarantee that a material misstatement will always be detected. Misstatements can arise from fraud or error. Misstatements are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an independent audit conducted in accordance with "Regulation on Independent Audit of Banks" published by the BRSA on the Official Gazette No.29314 dated 2 April 2015 and SIA, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

• Identify and assess the risks of material misstatement in the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Assess the internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our independent auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence. We also communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

B. Other Responsibilities Arising From Regulatory Requirements

- 1 No matter has come to our attention that is significant according to subparagraph 4 of Article 402 of Turkish Commercial Code ("TCC") No. 6102 and that causes us to believe that the Bank's bookkeeping activities concerning the period from 1 January to December 31, 2023 period are not in compliance with the TCC and provisions of the Bank's articles of association related to financial reporting.
- 2 In accordance with subparagraph 4 of Article 402 of the TCC, the Board of Directors submitted the necessary explanations to us and provided the documents required within the context of our audit.

Additional Paragraph for Convenience Translation

BRSA Accounting and Financial Reporting Legislation explained in detail in Section Three differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of December 31, 2023. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

Section one - General Information

1. History of the Bank including its incorporation date, initial legal status and amendments to legal status, if any:

Yapı ve Kredi Bankası A.Ş. ("the Bank" or "Yapı Kredi"), was established and started operations on September 9, 1944 with the permission of the Council of Ministers No. 3/6710 as a private capital commercial bank authorised to perform all banking, economic, financial and commercial activities which are allowed by the laws of the Turkish Republic. The statute of the Bank has not changed since its incorporation.

2. Explanations about the Bank's capital structure, shareholders holding directly or indirectly, collectively or individually, the management and controlling power and changes in current year, if any and explanations on the controlling group of the Bank:

Bank's publicly traded shares are traded on the Borsa Istanbul ("BIST") since 1987. As of December 31, 2023, 38,83% of the shares of the Bank are publicly traded (December 31, 2022 - 32,03%). 40,95% of the shares out of the remaining 61,17% is owned by Koç Finansal Hizmetler A.Ş. ("KFS") which is owned by Koç Group, 20,22% is owned by Koç Holding A.Ş.

KFS was established on March 16, 2001 to combine Koç Group finance companies under one organisation and it became the main shareholder of Koçbank in 2002. On October 22, 2002, Koç Group established a strategic partnership with UniCredit Group ("UCG") over KFS.

In 2005, the Bank's shares that were owned by Çukurova Group Companies and the Saving Deposits Insurance Fund ("SDIF") were purchased by Koçbank. In 2006, Koçbank purchased additional shares of the Bank from BIST and an investment fund and, during the same year, all rights, receivables, debts and liabilities of Koçbank were transferred to the Bank pursuant the merger of the two banks. As a result of the merger and the share transfer procedures in 2007 and of a capital increase by TL 920 million in 2008, KFS shares in the Bank increased to 81,80%. KFS shares increased to 81,90% with the capital increase by TL 4,1 billion in 2018.

As of November 30, 2019, Koç Group and UCG have reached a deal to exchange their shares in the Bank and KFS.

Accordingly all the shares of KFS, which was a joint venture, were transferred to Koç Group. Besides, after the shares were transferred, KFS held 40,95%, UCG held 31,93% directly and Koç Group held a total of 49,99% directly and indirectly of the Bank shares and became controlling shareholder.

In addition, as of February 6, 2020, UniCredit also announced the placement of an 11,93% shares in Bank to institutional investors. The transaction has been completed on February 13, 2020. As a result UCG held directly 20,00% of the Bank shares.

In year 2021, UCG completed the sale of 2,00% shares in stock market and for the sale of remaining 18,00% shares UCG came to an agreement with Koç Group as per the Share Sale and Purchase Agreement relating to the sale of the Bank publicly disclosed as of November 30, 2019. Accordingly, it has been announced that Koç Group used its right of first offer for the sale of the Bank shares which were planned to be sold by UCG on November 9, 2021. The sale of the relevant shares was completed on April 1, 2022, and Koç Holding A.Ş.'s share ratio increased from 9,02% to 27,02%.

As of July 28, 2023, Koç Holding A.Ş sold its 6,81% share in the Bank to institutional investors through offexchange sale. After the sale, shareholding of Koç Holding A.Ş in the Bank decreased to 20,22%.

3. Explanations regarding the board of directors, members of the audit committee, Chief Executive Officer and executive vice presidents, and their areas of responsibility and shares if any:

As of December 31, 2023, the Bank's Board of Directors, Members of the Audit Committee, General Manager and Assistant General Managers are as follows.

Board of Directors Members:

| Name | Responsibility | |
|-----------------------|----------------------------|--|
| Y. Ali KOÇ | Chairman | |
| Levent ÇA KIROĞLU | Vice Chairman | |
| Gökhan ERÜN | Executive Director and CEO | |

| Uğur Gökhan ÖZDİNÇ | Technology, Data and Process Management |
| Yakup DOĞAN | Limitless Banking |

(1) As of October 9, 2023, Hakan Kaya was appointed as Chief Legal Officer due to resignation of Cemal Aybars Sanal, Assistant General Manager responsible for Legal Management, as of September 22, 2023.

4. Information on the individual and corporate shareholders having control shares of the Bank:

| Name/Commercial title | Share amounts (nominal) | Share percentage | Paid-in capital (nominal) | Unpaid portion |
|-----------------------------|----------------------------|---------------------|------------------------------|----------------|
| Koç Finansal Hizmetler A.Ş. | 3.459.065.642,23 | 40,95 | 3.459.065.642,23 | - |
| Koç Holding A.Ş. | 1.707.666.574,00 | 20,22 | 1.707.666.574,00 | |

Koç Finansal Hizmetler A.Ş. is managed of Koç Group, and Temel Ticaret ve Yatırım A.Ş.

5. Summary information on the Bank's activities and service types:

The Bank's activities summarized from the section 3 of the articles of association are as follows.

The Bank's purpose and subject matter, in accordance with the Banking Law, regulations and existing laws, include;

- > The execution of all banking activities,
- > The execution of all economic and financial activities which are allowed by the regulation,
- > The execution of the representation, attorney and agency activities related to the subjects written above,
- > The purchase and sale of share certificates, bonds and all the capital market instruments, in accordance with Capital Market Law and regulations.

In case of necessity for performing activities which are useful and required but that are not specified in the articles of association, a Board of Directors' proposal is to be presented to the General Assembly. With the approval of the General Assembly the proposal becomes applicable, subject to the approvals required by law.

As of December 31, 2023, the Bank has 779 branches operating in Türkiye and 1 branch in overseas (December 31, 2022 - 800 branches operating in Türkiye, 1 branch in overseas).

As of December 31, 2023, the Bank has 15.009 employees (December 31, 2022 - 15.431 employees).

6. Differences between the Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards and short explanation about the entities subject to full consolidation or proportional consolidation and entities which are deducted from equity or entities which are not included in these three methods:

According to Communiqué on Preparation of Consolidated Financial Statements of Banks and Turkish Accounting Standards, Banque de Commerce et de Placements SA, one of the associates of the Bank is consolidated through "Equity Method" in the consolidated financial statements of the Group. Allianz Yaşam ve Emeklilik A.Ş., on which the Bank has indirect participation, is also consolidated through "Equity Method" in the consolidated financial statements of the Group.

Yapı Kredi Kültür Sanat Yayıncılık Tic. ve San. A.Ş., Enternasyonal Turizm Yatırım A.Ş., Yapı Kredi Teknoloji A.Ş. and Yapı Kredi Finansal Teknolojiler A.Ş. which are subsidiaries of the Bank, are not consolidated into the Bank's consolidated financial statements in accordance with Communiqué on Preparation of Consolidated Financial Statements since these entities are not financial institutions.

All other subsidiaries are fully consolidated.

7. The existing or potential, actual or legal obstacles on the immediate transfer of shareholder's equity between the Bank and its subsidiaries or reimburs ement of liabilities:

None.

Unconsolidated financial statements as of December 31,2023 and 2022 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

(1) Regarding profit distribution, the authorized body of the Bank is the General Assembly and the annual general assembly meeting has not been held as of the date of preparation of these financial statements. Since the dividend distribution proposal for 2023 has not yet been prepared by the Board of Directors, only the distributable profit is stated in the profit distribution table.

Section Three

Accounting policies

1. Explanations on basis of presentation:

The Bank keeps its books of accounts in Turkish Lira in accordance with the Banking Act No. 5411 ("Banking Act"), which is effective from November 1, 2005, the Turkish Commercial Code ("TCC"), and Turkish Tax Legislation.

The unconsolidated financial statements prepared in accordance with the "Regulation on the Principles and Procedures Regarding Banks Accounting Applications and Safeguarding of Documents" published in the Official Gazette No. 26333 dated November 1, 2006 and other communiqués, interpretations and legis lations published by the Banking Regulation and Supervision Agency ("BRSA") and Turkish Financial Reporting Standards ("TFRS") published by the Public Oversight Accounting and Auditing Standards Authority ("POA") for the matters not regulated by the aforementioned legislations published by BRSA. The format and the details of the publicly announced financial statements and related disclosures to these statements have been prepared in accordance with the "Communiqué Related to Publicly Announced Financial Statements of Banks and Explanations and Notes Related to these Financial Statements" and changes and notes to this communiqué published in the Official Gazette No. 28337 dated June 28, 2012.

The accompanying unconsolidated financial statements and notes to these financial statements are expressed in thousands of Turkish Lira (TL), unless otherwise stated.

The accompanying unconsolidated financial statements are prepared in accordance with the historical cost basis (restated for the changes in the general purchasing power of TL until December 31, 2004), except for financial assets and liabilities measured at fair value through profit or loss, financial assets measured at fair value through other comprehensive income, derivative financial assets/liabilities buildings and art objects and paintings in tangible assets. Besides, the carrying values of assets carried at amortized cost but subject to fair value hedge are adjusted to reflect the fair value changes related to the hedged risks.

The preparation of unconsolidated financial statements in conformity with TFRS requires the use of certain accounting estimates by the Bank management to exercise its judgment on the assets and liabilities on the balance sheet and contingent assets and liabilities as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are explained in the related notes and reflected to the income statement.

The accounting policies and valuation principles employed for the preparation the financial statements are in compliance with "Accounting and Reporting Legislation" published in the regulation, communique, interpretations and circular of BRSA. If there is no specific regulation of BRSA, it has been determined and applied in the context of TFRS.

As of June 30, 2023, the Bank completed the development of necessary infrastructure for transition to ovemight interest rates in risk management systems and USD Libor indexed derivatives, money market transactions, bonds, loan products. As of June 30, 2023, alternative benchmark interest rates is started to be used in the new floating rate transactions. The transition to alternative benchmark interest rates is completed for the existing interbank derivative transactions and interbank money market transactions. The transition process has not been completed yet for customer transactions. The transition to alternative interest rates have no material impact on the Bank's financial statements.

On November 23, 2023, POA announced that, entities reporting under the TFRS should begin implementing "TAS - 29 Financial Reporting in Hyperinflationary Economies" standard in their financial statements, from periods ending on and after December 31, 2023. Besides, regulatory and auditing bodies that are authorized in their respective areas have flexibility to determine alternative transition dates for the application of TAS - 29.

Within the scope of the decision dated December 12, 2023 and numbered 10744 by the BRSA, banks, financial leasing, factoring, financing, savings financing, and asset management companies are not subject to inflation adjustments required under TAS-29 in their financial statements as of December 31, 2023. Based on the decision dated January 11, 2024 and numbered 10825, these entities are required to implement inflation accounting starting from January 1, 2025.

Notes to unconsolidated financial statements as of December 31, 2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Additional paragraph for convenience translation into English:

BRSA Accounting and Financial Reporting Legislation, as described in the preceding paragraphs, differ from International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board including the application of IAS 29 - Financial Reporting in Hyperinflationary Economies as of December 31, 2023 and the differences between accounting principles have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present fairly the unconsolidated financial position, results of operations, changes in equity and cash flows of the Bank in accordance with IFRS.

2. Explanations on strategy of using financial instruments and foreign currency transactions:

The general strategy of the Bank in using financial instruments is to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Bank is deposits. For non-deposit items, the Bank maintains longer-termfunding structure especially through long-term foreign borrowings. Funds from deposits and other funding sources are invested in high quality financial assets in order to keep currency, interest rate and liquidity risks within the limits determined by the asset-liability strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed in accordance with the risk limits approved in the Bank and the related legal limits. Derivative instruments are mainly utilized for liquidity needs and for mitigating currency and interest rate risks. The position of the Bank as a result of foreign currency activities is being held at minimum levels and the currency risk exposure is monitored within the limits determined by the Board of Directors under the context of Banking Act.

Foreign currency denominated monetary assets and liabilities are translated with the exchange rates prevailing at the balance sheet date. Gains and losses arising from such valuations are recognized in the income statement under the account of "Foreign exchange gains or losses", except for valuation differences arising from foreign currency participations, subsidiaries and foreign currency non-performing loans.

The Bank hedges foreign currency exposure arising from carrying its foreign subsidiaries at equity method, with foreign currency financial liabilities and applies net investment hedge accounting. The effective portions of the change in fair value in financial liabilities in foreign currency are recorded under "Other accumulated comprehensive income that will be reclassified in other profit or loss" in equity.

In order to eliminate the inconsistency in the recognition, the Bank might classify its financial liabilities as financial liabilities at fair value through profit / loss upon the initial recognition.

3. Explanations on investments in associates, subsidiaries and joint ventures:

Associates, subsidiaries and joint ventures are being carried at equity method as defined in "TAS 28 - Investments in Associates and Joint Ventures" in the unconsolidated financial statements of the Bank started from June 30, 2015. Any valuation differences arising from prior years, before January 1, 2015, are booked as "Other accumulated comprehensive income that will not be reclassified in profit or loss" under equity. In the following periods, any valuation differences arising from the current period income and other comprehensive income are recognised in profit or loss and "Other accumulated comprehensive income that will not be reclassified in profit or loss" under the equity, respectively. This accounting policy change is performed through an early adaption before the effective date of January 1, 2016 in accordance with the change of "TAS – 27 Turkish Accounting Standards for Individual Financial Statements" numbered 29321 on April 9, 2015 and confirmation by BRSA's letter numbered 10686 on July 14, 2015.

4. Explanations on forward and option contracts and derivative instruments:

The Bank's derivative transactions mostly include money and interest rate swaps, forward foreign exchange purchase and sale transactions and options.

Derivative instruments are measured at fair value on initial recognition and subsequently remeasured at their fair values. As a result, the fair value of derivatives is reflected as net liability or net asset on a contract by contract basis. The accounting method applied to the income or loss arising from derivative instruments depends on whether the derivative is being used for hedging purposes or not and depends on the type of itembeing hedged.

At the transaction date, the Bank documents the relationship between hedging instruments and hedged items, together with the risk management policies and the strategies on hedging transactions. Besides, the Bank regularly documents the effectiveness of the hedging instruments in offsetting the changes in the fair value of the hedged items.

Changes in the fair value of derivative instruments subject to fair value hedges are recognized under profit or loss accounts together with the variation in the fair value of hedged items. The changes of fair value of derivative trans actions for fair value hedge are classified in "Derivative Financial Transactions Gains/Losses" account. In the balance sheet, changes in the fair value of hedged assets and liabilities, during the period in which the hedge is effective, are shown with the related assets and liabilities. The ineffective portion of the mentioned hedging transaction is reflected to the income statement. If the underlying hedge does not conform to the hedge accounting requirements, according to the adjustments made to the carrying value (amortized cost) of the hedged item, for which the risk is hedged by a portfolio hedge, are amortized with the straight line method within the time to maturity and recognized in profit or loss accounts. Fair value adjustments are recognized directly in the income statement in an event of repayment and/or unwinding and/or derecognition of the hedged item.

The Bank hedges its cash flow risk arising from foreign currency and Turkish Lira floating interest rate liabilities by using currency and interest rate swaps. The effective portion of the fair value changes of the hedging instruments are recorded in "Other accumulated comprehensive income that will be reclassified in profit or loss" under shareholders' equity. These funds are transferred to profit or loss from equity when the cash flows of the hedged items (interest expense) impact the income statement.

In case the cash flow hedge accounting is discontinued due to the expiry, realization for sale of the hedging instrument, or due to the results of the effectiveness test the amounts accounted under shareholders' equity are transferred to the profit or loss accounts as these cash flows of the hedged item are realized.

Some of the trading purpose derivative transactions, even though they provide effective economic hedges under the Bank's risk management policy, do not qualify for hedge accounting under the specific rules in "TFRS 9 - Financial Instruments" and are therefore treated as "Derivative financial assets measured at fair value through profit or loss".

"Derivative financial assets measured at fair value through profit or loss" are measured at fair value. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "Derivative financial assets measured at fair value through profit or loss"; and if the fair value difference is negative, it is disclosed under "Derivative financial liabilities measured at fair value through profit or loss". Fair value changes are recorded under "Derivative Financial Transactions Gains/(Losses)" in the income statement.

The fair values of the derivative financial instruments are calculated using quoted market prices or by using discounted cash flow models.

Parameters used for the valuation of the option portfolio are determined by market risk management and the confirmation of the accuracy of fair value calculations are monitored periodically by market risk management.

Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts as their contractual values. Embedded derivatives are separated from the host contract and accounted as derivative instruments according to "TFRS – 9 Financial Instruments" in case (i) the related embedded derivative's economic features and risks are not closely related to the host contract, (ii) another instrument that has the same contract conditions with the embedded derivative satisfies the definition of a derivative instrument and (iii) the hybrid instrument is not carried at fair value through profit or loss.

Credit derivatives are capital market tools designed to transfer credit risk from one party to another.

As of December 31, 2023, the Bank's credit derivatives portfolio included total return swaps.

Credit linked notes are bonds that have repayments depending on a credit event or the credit risk evaluation of a reference asset or asset pool. Depending on whether the reference assets are included in the balance sheet of the issuer or the owner of the assets, these transactions can be accounted by the party assuming the credit risk as insurance or as an embedded derivative. As per the Bank's management evaluation, the embedded derivatives included in the credit linked notes are separated from the host contracts in accordance with "TFRS – 9 Financial Instruments" and recorded and evaluated as credit default swaps. The bond itself (host contract) is valued in accordance with the valuation principles of the category it is classified.

Total return swaps are contracts, in which the seller commits to pay the contract value for all cash flows of the reference assets of the seller and the changes of the market values of these reference assets to the buyer during the contract maturity and bear all the decreases in the market value of these reference assets. The Bank uses the total return swaps to generate long term funding.

Notes to unconsolidated financial statements as of December 31,2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Market risks of these products are monitored using the Bank's internal modeling system for the Value-at-Risk and basis points sensitivity analysis; the liquidity risks are monitored using the short term liquidity report on daily and the long term liquidity report on monthly basis.

According to the regulations of BRSA, currency exchange transactions, which are realized at value date in the initial phase of currency swaps, are recorded and followed as irrevocable commitments in off-balance sheet accounts until the value date.

A Credit Valuation Adjustment (CVA) is applied to the Bank's over-the-counter derivative exposures to take into account the counterparty's risk of default when measuring the fair value of the derivative. CVA is the mark-to-market cost of protection required to hedge credit risk from counterparties in the Bank's over-the-counter derivatives portfolio. The Bank calculates CVA based on collective provisioning methodology calculated in accordance with Turkish Financial Reporting Standards, "TFRS -9 Financial Instruments", comprising the product of Exposure, Probability of Default (PD) and Loss Given Default (LGD). CVA is calculated based on the exposure of each counterparty.

Within the scope of TFRS 13 Fair Value Measurement standard; (i) if there is a significant decrease in the volume or level of activity for that asset or liability in relation to normal market activity for the asset or liability (or similar assets or liabilities); (ii) when the transaction or quoted price does not represent fair value; and / or (iii) when a price for a similar asset requires significant adjustment to make it comparable to the asset being measured, or (iv) when the price is stale, the Bank makes an adjustment to the transactions or quoted prices and reflects this adjustment to the fair value measurement. In this context, the Bank determines the point within the range that is most representative of fair value under current market conditions.

5. Explanations on interest income and expense:

Interest income and expenses are recognized in the income statement on an accrual basis by using the effective interest method periodically

Retrospective rediscount calculation and foreign exchange evaluation is performed for non performing loans, and accrued interest and rediscounts as of transfer to non performing loan accounts are accounted under loan accrual/rediscount accounts as per UniformChart of Accounts ("UCA"). The Bank ceases accruing interest after non-performing loan classification. In place of that, interest amount representing the time value of future collections is recognized under interestincome instead of provision expense.

6. Explanations on fee and commission income and expenses:

Fees and commissions received as a result of the service agreements or arising from negotiating or participating in the negotiation of a transaction on behalf of a third party are recognized either in the period when the transaction is realized or deferred based on the type of the underlying transaction. Other commission income and fees from various banking services are recorded as income at the time of realization.

Except for fees and commissions that are integral part of the effective interest rates of financial instruments measured at amortized costs, the fees and commissions are accounted for in accordance with TFRS 15 "Revenue from Contract with Customers".

7. Explanations on financial assets:

As of January 1, 2018, the Bank has applied TFRS 9 and classifies its financial assets in the following measurement categories:

- ➢ Fair value through profit or loss (FVPL)
- ➤ Fair value through other comprehensive income (FVOCI)
- Financial assets measured at amortised cost

According to TFRS 9, classification of financial assets is based on two criterias; business model under which the financial asset is being managed and contractual cash flows representing solely payments of principal and interest of the financial asset. This evaluation incorporates whether there is any clause that may change timing or amount of contractual cash flows of the financial asset.

Classification of financial assets reflects the business model of how the Bank manages the assets in order to generate cash flows. Bank's business model may be to collect the contractual cash flows from the assets or to collect both the contractual cash flows and cash flows arising from the sale of assets.

If neither of these is applicable, then the financial assets are classified as part of 'other' business model and measured at FVPL. Factors considered by the Bank in determining the business model for a bank of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. Securities held for trading are held principally for the purpose of selling in the near termor are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the 'other' business model and measured at FVPL.

The Bank owns Consumer Price Indexed (CPI) Government Bonds which are classified under "Fair value through other comprehensive income" and "measured at amortised cost" securities portfolio. Related securities and reference indices used in calculating the actual coupon payment amounts of these assets are based on the Consumer Price Index(CPI) of prior two months.

Assessment of the business model

The Bank determines the business model at a level that reflects how groups of financial assets are managed together to achieve a particular business objective.

The business model does not depend on management's intentions for an individual instrument. Accordingly, this condition is not a single-instrument basis approach for classification and should be determined on a higher level of aggregation.

During the assessment of the business model for management of financial assets, all relevant evidences available at the assessment date have taken into consideration. Such relevant evidence includes below:

- > How the performance of the portfolio is evaluated and reported to the Bank's management;
- the stated policies and objectives for the portfolio and the operation of those policies in practice. In particular, whether management's strategy focuses on earning contractual interest revenue, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of the liabilities that are funding those assets or realising cash flows through the sale of the assets;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and
- the risks that affect the performance of the business model (and the financial as sets held within that business model) and its strategy for how those risks are managed;
- > the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Bank's stated objective for managing the financial assets is achieved and how cash flows are realised.

If cash flows are realised in a way that is different from the expectations on the date of the assessment of the business model, that does not give rise to a prior period error in the financial statements nor does it change the classification of the remaining financial assets held in that business model as long as all relevant information that was available at the time of business model assessment were. However, when the business model is assessed for newly originated or newly purchased financial assets, it must be considered information about how cash flows were realised in the past, along with all other relevant information.

The business models are divided into three categories. These categories are defined below:

> Business model whose objective is to hold assets in order to collect contractual cash flows

Financial assets that are held within a business model whose objective is to hold assets in order to collect contractual cash flows are managed to realise cash flows by collecting contractual payments over the life of the instrument. That is, the Bank manages the assets held within the portfolio to collect those particular contractual cash flows.

Although the objective of Bank's business model may be to hold financial assets in order to collect contractual cash flows, the Bank does not need to hold all of those instruments until the maturity. Thus Bank's business model can be to hold financial assets to collect contractual cash flows even when sales of financial assets occur or are expected to occur in the future.

The business model may be to hold assets to collect contractual cash flows even if the Bank sells financial assets when there is an increase in the assets' credit risk. The Bank considers reasonable and supportable information, including forward looking information, in order to determine whether there has been an increase in the assets' credit risk. Regardless of their frequency and value, sales due to an increase in the assets' credit risk are not in consistent with a business model whose objective is to hold financial assets to collect contractual cash flows because the credit quality of financial assets is relevant to the Bank's ability to collect contractual cash flows.

A business model whose objective is achieved by both collecting contractual cash flows and selling financial assets

The Bank may hold financial assets in a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets. In this type of business model, the Bank's management have made a decision on both collecting contractual cash flows and selling financial assets is necessary for achieving the objective of the business model. There are various objectives that may be consistent with this type of business model. For example, the objective of the business model may be to manage liquidity needs on a daily basis, to maintain a particular interest vield profile or to match the duration of the financial assets to the duration of the liabilities funding those assets. To achieve such an objective, the Bank will both collect contractual cash flows and sell financial assets.

Compared to a business model whose objective is to hold financial assets to collect contractual cash flows, this business model will typically involve greater frequency and value of sales. This is because selling financial assets is integral to achieving the business model's objective instead of being only incidental to it.

Other business models

Financial as sets are measured at fair value through profit or loss if they are not held within a business model whose objective is to hold assets to collect contractual cash flows or within a business model whose objective is achieved by both collecting contractual cash flows and selling financial as sets

A portfolio of financial assets that is managed and whose performance is evaluated on a fair value basis is neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets. The Bank is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions.

Assessment of whether contractual cash flows are solely payments of principal and interest (SPPI)

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs. In assessing whether the contractual cash flows are SPPI, the Bank considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

When making such assessment, the Bank:

- > Contingent events that would change the amount and timing of cash flows;
- Leverage features;
- Prepayment and extension terms;
- > Terms that limit the Bank's claim to cash flows from specified assets (e.g. non-recourse loans); and
- Features that modify consideration of the time value of money (e.g. periodical reset of interest rates).

When the contractual conditions are exposed to the risks which are not consistent with the basic lending arrangement or variability of cash flows, the relevant financial asset is measured at fair value through profit or loss.

7.1. Financial assets measured at fair value through profit or loss

Financial assets, which are classified as "Financial assets measured at fair value through profit or loss", are trading financial assets and are either acquired for generating profit from short-term fluctuations in the price or dealer's margin, or are financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Trading financial assets are initially recognized at fair value and are subsequently re-measured at their fair value. However, if fair values cannot be obtained from active market transactions, it is assumed that the fair value cannot be observed reliably and fair values are calculated by alternative models.

All gains and losses arising from these valuations are recognized in the income statement. Interest earned while holding financial assets is reported as interest income and dividends received are included separately in dividend income.

The principles regarding the accounting of derivative financial instruments are explained in detail in Note 4 of this section.

7.2. Financial assets measured at amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest, are measured at amortised cost. These financial assets are initially recognized at total of acquisition and transaction cost. After their initial recognition they are carried at "Amortized cost" using the "Effective interest method".

7.3. Loans :

Loans are financial assets raised through lending without having the intention to trade in the short term. Loans are non derivative financial assets with fixed or determinable payments and fixed maturities that are not quoted on active market. Loans are recognized initially at cost including transaction costs (which reflect fair values) and subsequently carried at the amortized cost using the "effective interest method". The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognized in the expense accounts.

Retail, commercial and corporate loans included in cash loans are accounted for with their original maturities in accounts which are mentioned in the UCA. Foreign currency indexed loans are initially measured at local currency accounts with the foreign exchange rate prevailing at date of the initial recognition and re-valued with the relevant foreign currency rates prevailing at the date of the financial statements. Increase or decrease in the value of the principal amount of the loan due to changes in foreign exchange rates is accounted in the related income and expense accounts. Repayment amounts are translated with the foreign exchange rates prevailing at the repayment dates and the valuation differences are accounted for in "foreign exchange gain/loss" accounts.

The Bank provides provision for expected credit losses based on the assessments and estimates of the management, by considering "TFRS 9 - Financial Instruments" and the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" ("Provisioning Regulation") published in the Official Gazette No. 29750 dated June 22, 2016. In this context, the management estimates are determined on the basis of the prudence principle and Bank credit risk policies, considering the general structure of the loan portfolio, the financial conditions of the customers, non-financial information and the economic conjuncture.

As of December 31, 2023, the Bank has made its classifications in accordance with the TFRS 9 standard and reflected themin its financial statements. In this context; the Bank has evaluated many reasonable and supportable qualitative and quantitative data in assessing whether there is a significant increase in credit risk in the classification of loans according to stages and determining the moment when the default situation occurs. It has classified the loans according to their stages according to its best judgment under the current conditions.

Provision expenses are deducted from the net income of the year. If there is a subsequent collection from a receivable that was already provisioned in previous years, the recovery amount is classified under "Other operating income". The write off policy is described in the explanations and notes related to assets, fifth section.

7.4. Financial assets measured at fair value through other comprehensive income:

Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income (FVOCI).

Financial assets measured at fair value through other comprehensive income are subsequently re-measured at fair value. When fair values based on market prices cannot be obtained reliably, the financial assets at fair value through other comprehensive income are carried at fair values determined by using alternative models. "Unrealized gains and losses" arising from changes in the fair value of financial assets classified as financial assets at fair value through other comprehensive income are recognized in the shareholders' equity as "Other accumulated comprehensive income that will be reclassified in profit or loss", until the related assets are impaired or disposed. When these financial assets are disposed or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement.

Interest and dividends received from Financial assets at fair value through other comprehensive income are recorded in interest income and dividend income as appropriate.

Interest income on financial assets at fair value through other comprehensive income are calculated by effective interest rate method and are accounted for in interest income account. At the time of sale of a financial assets at fair value through other comprehensive income before the maturity, the difference between the profit, which is the difference between the cost and sales price of the financial assets, and the interest income accrual are accounted under "Profit/losses from capital market transactions".

7.5. Equity instruments measured at fair value through other comprehensive income:

At initial recognition, an irrevocable election can be made to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument within the scope of TFRS 9. Such election is made on an instrument by instrument basis. Fair value differences recognized in other comprehensive income are not transferred to profit or loss in the following periods and transferred to prior years' profit / loss. The equity instruments measured at fair value through other comprehensive income, are not subject to impairment calculation

8. Explanations on impairment of financial assets:

The Bank assesses the expected credit losses ("ECL") related with its debt instrument assets carried at amortised cost and at fair value through other comprehensive income, with the exposure arising from loan commitments and financial guarantee contracts on a forward-looking basis. The Bank recognises a loss allowance for such losses at each reporting date. The measurement of expected credit losses reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- \succ The time value of money;
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The measurement of the expected credit loss allowance:

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and at fair value through other comprehensive income is an area that requires the use of advanced models and significant assumptions about future economic conditions and credit behaviour.

These financial as sets will be divided into three categories depending on the gradual increase in credit risk observed since their initial recognition. Impairment shall be recognized on outstanding amounts in each category, as follows:

Stage 1:

For the financial assets at initial recognition or that do not have a significant increase in credit risk since initial recognition. Impairment for credit risk will be recorded in the amount of 12-month expected credit losses.

Stage 2:

In the event of a significant increase in credit risk since initial recognition, the financial asset will be transferred to this stage. Impairment for credit risk will be determined on the basis of the instrument's lifetime expected credit losses.

Stage 3:

Stage 3 includes financial assets that have objective evidence of impairment at the reporting date. For these assets, lifetime ECL are recognized and interest revenue is calculated on the net carrying amount.

Life-time expected credit loss is calculated on an individual or collective basis for the financial assets in stage 2 and stage 3.

General provisions represent ECLs for the first stage and the second stage, specific provisions represent ECLs for the third stage.

Notes to unconsolidated financial statements as of December 31, 2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

The Bank has developed specific models for calculating the expected loss; such models are based on the parameters of PD, LGD and EAD and on the effective interest rate. In particular:

- The PD (Probability of Default), represents the customer's probability of more than 90 days delay, within 12months;
- The LGD (Loss Given Default), represents the percentage of the estimated loss, and thus the expected rate of recovery, at the date of occurrence of the default event of the credit exposure;
- The EAD (Exposure at Default), represents the measure of the exposure at the time of the event of default of the credit exposure;
- > The Effective interest rate is the discount rate that expresses of the time value of money.

Such parameters are calculated starting from the corresponding parameters used for IRB preparation purposes, with specific adjustments in order to ensure consistency between accounting and regulatory treatment despite different regulatory requirements.

The main adjustments aimed at:

- Removal of prudency principal used for IRB phase;
- Introducing "point-in-time" adjustments to replace "through-the-cycle" adjustments required for IRB phase (TFRS-9 parameters developed over these parameters.);
- With reference to lifetime PD, through-the-cycle PD curves obtained by adjusting observed cumulated default rates were calibrated in order to reflect point-in-time on portfolio default rates.

Recovery rate incorporated into through-the-cycle LGD was adjusted in order to remove prudency principle and to reflect the most updated trend of recovery rates discounted at effective interest rate or at its best approximation.

The lifetime EAD has been obtained by converting the 1 year regulatory or managerial model to life-time, removing margin of prudency and including the expected discounted cash flow.

The Stage Allocation model is a key aspect of the accounting model required to calculate expected credit losses which is aimed at transferring credit exposures from Stage 1 to Stage 2.

With reference to the quantitative component of the model for stage allocation, the Bank has adopted a statistical approach based on a quantiles regression whose objective is to define a threshold in terms of maximum variation acceptable between the PD at the time of origination and the PD assessed at the reporting date.

The Stage Allocation model was based on a combination of relative and absolute elements. The main elements were:

- Comparison, for each transaction, between the PD measured at the time of recognition and PD as at the reporting date, both calculated according to internal models, through thresholds set in a way considering all key variables of each transaction that can affect the Bank's expectation of PD changes over time;
- Absolute elements such as the backstops required by law;
- Additional internal evidence

Significant increase in credit risk

In the assessment of significant increase in credit risk quantitative and qualitative assessments are made;

Quantitative Assessment:

As a result of quantitative as sessment, related financial as set is classified as stage 2 (Significant Increase in Credit Risk) when any of the following criterias are satisfied.

As of reporting date:

- Lifetime expected credit losses shall be recognized on a transaction base, when 30 days past due status is passed. The Bank can abandon this estimation when it has reasonable and supportable information about customers contractual repayments.
- In case a loan has been restructured, it will be followed up under Stage 2 during the follow-up period mentioned in the related regulations. The loan can be transferred back to Stage 1 at end of the follow-up period if there is no significant deterioration.
- > Provisions on non-funded non cash loans are evaluated as significant increase in credit risk.

Qualitative Assessment

The probability of significant increase in credit risk under qualitative as sessment is based on the comparison of probability of default of a loan in the origination and as of reporting date.

The Bank uses distribution regression on segment basis in order to calculate the thresholds used in defining the significant increase in credit risk.

Low credit risk

Financial instruments defined as low risk for TFRS 9 are;

- > Receivables from Central Bank of the Republic of Türkiye ("CBRT");
- > Loans with counterparty of Treasury of the Republic of Türkiye
- The issued securities or guaranteed marketable securities from central banks of the countries where Bank's subsidiaries, associates are resident;
- ➢ Bank placements;
- > Other money market transactions;
- Transactions of Bank's associates and subsidiaries

Forward Looking Information

Forward-looking macroeconomic information is incorporated into credit risk parameters during assessment of significant increase in credit risk and expected credit loss calculation. For the calculation of expected credit loss, Bank uses macroeconomic estimation method which is developed during creation of various scenarios. Macroeconomic variables prevailing during these estimates are gross domestic product (GDP) and unemployment rate.

When expected credit losses are estimated in accordance with the forward looking macroeconomic information, the Bank evaluates three scenarios (base, pessimistic and optimistic) with various weights based. The Bank has reviewed the macroeconomic model used in the process and has been the subject of provision calculations using the data considered to reflect the current situation in the best way.

In the light of macroeconomic expectations, the Bank reflected the calculations made to its financial statements considering the probability of default values and the possible changes in the exposure at default. In this context, the Bank has measured the effect of the change in macroeconomic data used in the calculation of expected credit loss such as gross domestic product and unemployment rate, on the non performing loans under different scenarios and reflected the coefficient increase, which was considered to be the most accurate, to its provision calculations by projecting it on the loan parameters within the range of NPL ratio obtained throughout the calculations.

9. Explanations on offsetting financial assets:

Financial as sets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognised amounts and there is an intention to collect/pay related financial as sets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

10. Explanations on sales and repurchase agreements and securities lending transactions:

Securities subject to repurchase agreements ("Repo") are classified as "Financial assets at fair value through profit or loss", "Financial assets measured at fair value through other comprehensive income" and "Financial assets measured at amortised cost" according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under "Money market funds" in liabilities and the difference between the sale and repurchase price is accrued over the life of the repurchase agreements using the "Effective interest method". Interest expense on repo transactions are recorded under "Interest expense on money market transactions" in the income statement.

Funds given against securities purchased under agreements to resell ("Reverse repo") are accounted under "Receivables from money markets" on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the effective interest method.

The Bank has no securities lending transactions.

11. Information on assets held for resale and related to discontinued operations and explanations on liabilities related with these assets:

According to the "TFRS – 5 Non-current Assets Held for Sale and Discontinued Operations", a tangible asset (or a bank of assets to be disposed) classified as "Asset held for resale" is measured at lower of carrying value and fair value less costs to sell. An asset (or a bank of assets to be disposed) is regarded as "Asset held for resale" only when the sale is highly probable and the asset (or a bank of assets to be disposed) is available for immediate sale in its present condition.

For a highly probable sale, there must be a valid plan prepared by the management for the sale of as set including identification of possible buyers and completion of sale process. Furthermore, the as set should be actively in the market at a price consistent with its fair value.

A discontinued operation is a part of the Bank's business classified as sold or held for sale. The operating results of the discontinued operations are disclosed separately in the income statement.

12. Explanations on goodwill and other intangible assets:

12.1. Goodwill:

The excess of the cost of an acquisition over the fair value of the Bank's share of the identifiable assets, liabilities or contingent liabilities of the acquired subsidiary at the date of acquisition of the control is recorded as goodwill and represents a payment made by the acquirer in anticipation of future economic benefits from assets that are not capable of being individually identified and separately recognized. The acquirer also recognizes assets that are capable of being individually identified and separately recognized, intangible assets (e.g. credit card brand value, deposit base and customer portfolio) and contingent liabilities at fair value, irrespective of whether the assethad been recognized by the acquire before the business combination, if it can be distinguished from the goodwill and if the asset's fair value can be measured reliably.

As explained in Note 2, Section 1, in 2006, all rights, receivables, debts and liabilities of Koçbank were transferred to the Bank pursuant the merger of the two banks. Within the scope of TFRS 3 - Business Combinations standard, the goodwill arised from the merger was subject to annual impairment test in accordance with the requirement of "TAS 36 - Impairment of Assets". As of December 31, 2022, the provision for impairment for the entire amount of goodwill was recognized in profit reserves directly under equity.

12.2. Other intangible assets:

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortization and the provision for impairment.

The Bank evaluates the possibility of existence of impairment of intangible assets at the end of each reporting period. If there is an evidence of impairment, the Bank estimates a recoverable amount in accordance with the "TAS – 36 Impairment of Assets". The recoverable amount is the higher of net sales price or the value in use. When the book value of another intangible as set exceeds the recoverable amount, the related asset is considered to be impaired. If there is no evidence of impairment, there is no need to estimate the recoverable amount.

Intangibles are amortized over their estimated useful lives using the straight-line method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological and other kinds of obsolescence and all required maintenance expenses necessary to utilize the economic benefit from the asset.

13. Explanations on property and equipment:

Property and equipment is measured at its cost when initially recognized and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement in accordance with "TAS - 16 Property, Plant and Equipment". Subsequently, properties and equipment, except art objects, paintings and buildings are carried at cost less accumulated depreciation and provision for impairment.

The Bank adopted a fair value accounting method for its buildings as of March 31, 2015 in tangible assets in accordance with "TAS – 16 Property, Plant and Equipment".

The depreciation rate for buildings is 2-4%, for movables and movables acquired under financial leasing depreciation is calculated over estimated useful life by using the straight-line method.

Notes to unconsolidated financial statements as of December 31, 2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

The depreciation charge for items remaining in property and equipment for less than a full accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

In accordance with "TAS -36 Impairment of Assets", where the carrying amount of an asset is greater than its estimated "recoverable amount", it is written down to its "recoverable amount" and the provision for impairment is charged to the income statement.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales proceeds.

Expenditures for the repair and maintenance of property and equipment are recognized as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalized on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset or the quality of the productor to decrease the costs.

14. Explanations on leasing transactions:

The Bank performs leasing transactions in the capacity of the lessee and lessor.

14.1 Accounting of leasing operations according to lessee:

The Bank has adopted "TFRS 16: Leases" approach in the accounting of leasing transactions.

In accordance with TFRS 16, the Bank calculates "right-of-use" amount using the present value of the lease payments of fixed asset at the beginning of the leasing period and recognizes under "property and equipment". Unpaid leasing payments are calculated at their net present value and recognized under "lease payables" in liabilities. Lease payments are discounted using related borrowing rates.

Fixed assets that are subject to leasing is amortised on the basis of leasing period. Interest expense related to lease payables is classified under "interest on lease payables" under "interest expense" and exchange rate changes are classified under "foreign exchange gains/losses". Leasing payments are deducted from lease payables.

14.2 Accounting of the leasing transactions in terms of the lessor:

The major risks and benefits of the property carried by the lessor are classified as operational leasing. The payments that are received as operational leasing are accounted as income via the linear method throughout the leasing term

15. Explanations on provisions, contingent assets and liabilities:

Provisions and contingent liabilities, except for the expected credit loss recognized for financial instruments within the scope of TFRS 9 standards, are accounted in accordance with "TAS - 37 Provisions, Contingent Liabilities and Contingent Assets".

Provisions are recognized when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

Provisions for contingent liabilities arisen from past events are recognized in the period of occurrence in accordance with the "Matching principle". A provision is recognized when it is probable that the contingent event will occur and a reliable estimate can be made. When a reliable estimate of the amount of obligation cannot be made or it is not probable that an outflow of resources will be required to settle the obligation, it is considered that a "contingent" liability exists and it is disclosed in the related notes to the financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements of the period in which the change occurs.

16. Explanations on obligations related to employee benefits:

16.1. Employee termination benefits

Obligations related to employee termination and vacation rights are accounted for in accordance with "TAS – 19 Employee Benefits" and are classified under "Provisions for employee benefits" account in the balance sheet.

Under the Turkish Labour Law, the Bank is required to pay a specific amount to the employees who have retired or whose employment is terminated other than for the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total liability for the future probable obligation of the Bank determined by using certain actuarial as sumptions. Actuarial gains and losses are accounted for under equity in accordance with the "TAS – 19 Employee Benefits" standard.

16.2. Pension rights

The Bank's personnel are members of the Yapı ve Kredi Bankası Anonim Şirketi Mensupları Yardım ve Emekli Sandığı Vakfı ("the Fund") which was established in accordance with the 20th temporary article of the Social Security Law No.506. As of December, 31, 2023, the defined benefit obligations of the Fund have calculated in the actuarial valuation report prepared by the registered actuary.

Temporary article 23 paragraph 1 of the Banking Act published in the Official Gazette No. 25983 dated November 1, 2005 stated that foundations like the Fund are to be transferred to the Social Security Institution ("SSI") within three years beginning from the publication date of the article.

The article of the Law related to the transfer was cancelled (pursuant to the application by the President on November 2, 2005) by the decision of Constitutional Court (decision no: E.2005/39, K. 2007/33 dated March 22, 2007) published in the Official Gazette No. 26479 dated March 31, 2007, and the effect of the law article was suspended from the date of the publication of the decision.

The reasoning of the Constitutional Court regarding the abrogation of the corresponding article was published in the Official Gazette dated December 15, 2007, No 26731. With the publication of the reasoning of the decision, the Grand National Assembly of Türkiye ("GNAT") started to work on new legal arrangements regarding the transfer of the fund members to SSI and the related articles of the "Law Regarding the Changes in Social Insurance and General Health Insurance Law and Other Related Laws and Regulations" No 5754 ("the New Law") regulating the transfer of the funds were approved by the GNAT on April 17, 2008. The New Law was published in the Official Gazette No. 26870 dated May 8, 2008. With the new law, the banks' pension funds will be transferred to SSI within three years from the date of publication of the decree and this period can be extended for a maximum of two years with the decision of the Council of Ministers. The transfer period was extended for another two years with the decision of the Council of Ministers No. 2011/1559 published in the Official Gazette dated April 9, 2011. According to the "Amendment of Social Insurance and General Health Insurance Law No. 6283" published in the Official Gazette dated March 8, 2012, Council of Ministers was authorized to increase the two-year extension period mentioned above to four years. According to the decision of The Council of Ministers dated February 24, 2014, the transfer date is set as May 2015. The Council of Ministers was authorized to determine the transfer date of pension funds in accordance with the last amendment in the first paragraph of the 20th provisional article of Law No.5510 implemented by the Law No. 6645 on Amendment of the Occupational Health and Safety Law and Other Laws and Decree Laws published in the Official Gazette dated April 23, 2015 and numbered 29335. The president was authorized to determine the transfer date of pension funds in accordance with the last amendment by the Law No. 30473 published in the Official Gazette dated July 9, 2018.

A commission (whose members are the representatives of the SSI, Ministry of Treasury and Finance of the Republic of Türkiye, State Planning Organization, BRSA, Saving Deposit Insurance Fund ("SDIF"), one member representing the Fund and one member representing the Fund members) is in charge of the calculation of the value of the payment that would need to be made to SSI to settle the obligation using a technical interest rate of 9,8% by law taking into consideration income and expenses by insurance branches of the funds and the excess of salaries and income paid by the funds over the salaries and income to be paid in accordance with the SSI arrangements which should not be less than SSI arrangements, related to the members of the Fund as of the date of the transfer including the members who have left the scheme.

In accordance with the New Law, after the transfer to SSI, any social rights and payments to Fund members and their beneficiaries which are not provided although they are included in the Fund Title Deed will continue to be provided by the Fund and the employers of the Fund members.

The Bank accounts for a provision for the technical deficit based on the report prepared by a registered actuary in accordance with the rates determined by the New Law and in accordance with TAS 19.

16.3. Short term benefits of employee:

Within the scope of "TAS – 19 Employee Benefits", the Bank measures the expected costs of accumulated paid leaves as expected payments it will make due to unused leaverights as at the end of the reporting date.

17. Explanations on taxation:

17.1. Current tax:

The corporate taxrate is 20% in accordance with the article number 32 of the New Corporate Tax Law no.5520 which is published in the official Gazette dated June 21, 2006 and numbered 26205. In accordance with the 11 and 14th articles of the Law numbered 7316 on "Amendment of Law on Collection Procedure of Public Receivables and Certain Laws" published in the Official Gazette dated April 22, 2021 and numbered 31462, corporate taxrate will be applied as 25% for enterprises' corporate income belonging to the taxation periods of 2021 and 23% for enterprises' corporate income belonging to the taxation periods of 2021 and 23% for enterprises to 25% starting from the declarations as of July 1, 2022 and to be valid for the taxation periods of 2022 according to the Law numbered 7394 published in the Official Gazette No. 31810 dated April 15, 2022. In accordance with the Law numbered 7456 which is published in Official Gazette dated July 15, 2023 and numbered 32249, corporate taxrate is increased to 30% for banks starting from the declarations of October 1, 2023 and to be valid for the taxation periods from January 1, 2023.

Corporate taxrate business income taxin accordance with the laws of the institutions to be added as unacceptable the reduction of costs in the taxlaws, exemptions and reductions to the taxbase found as a result of the reduction that will be applied.

Dividends paid to non-resident corporations, which have a place of business in Türkiye or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 10%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

In accordance with the Corporate Tax Law, three quarterly temporary corporate tax statements are submitted in total in the first nine months of reporting year. Advance tax is declared and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and 50% portion of the capital gains derived from immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years. In accordance with the Law numbered 7456 which is published in the Official Gazette dated July 15, 2023 and numbered 32249, the tax exemption on profits from the sales of immovables has been terminated as of July 15, 2023. For immovables that were a part of company's assets before the date of July 15, 2023, the exemption rate on profits arising from their sales has been set as 25%.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

Tax returns are required to be filled and delivered to the related taxoffice until the last evening of the fourth month following the balance sheet date and the accrued taxis paid same day. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the taxauthorities have the right to audit taxreturns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

Non-monetary items on the financial statements must have been restated for inflation according to the repeated article 298/A of Tax Procedure Law. In law numbered 7352 published on 29 January 2022 in the Official Gazette numbered 31734, 2021 and 2022 accounting periods including advance taxperiods are deemed as the periods in which the requirements for inflation adjustment are not met. In the fiscal year of 2023, quarterly advance tax periods were not subject to inflation adjustment, but the financial statements prepared in accordance with Tax Procedure Law as of December 31, 2023 are subject to inflation adjustment regardless of whether the conditions for inflation adjustment are met. The profit/loss difference arising from inflation adjustment is recognized in retained earnings and has no effect on the corporate taxbase.

Amendments to TaxProcedure Law was published with the Law numbered 7338 published in the Official Gazette dated October 26, 2021. These amendments provide the opportunity to revalue the real estates and depreciable assets.

With the change in the communiqué published in the Official Gazette on January 14, 2023, conditions have been clarified for the taxpayers, who are subject to different accounting and financial reporting standards rules than those determined by the General Communiqué on Accounting System Implementation, is able to benefit from the revaluation specified in paragraph (Ç) of the duplicate article 298 and temporary article 32 in Law Numbered 213.

Within the scope of the temporary article 32 of the Tax Procedure Law Numbered 213, depreciable assets were revalued and additional taxamount of 2% is levied over the revaluation difference. Assets that are included in the scope pursuant to paragraph (C) of the duplicate article 298 are valued with the revaluation rate announced in the relevant year and no taxis levied over this revaluation increase.

17.2. Deferred tax:

The Bank calculates and accounts for deferred income taxes for temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "TAS – 12 Income Taxes" and in accordance with BRSA's explanations and circulars and the tax legislation. The Bank calculates deferred taxon deductible temporary differences, to the extent that future taxable income is estimated to be available. In the deferred tax calculation, the enacted tax rate is used as of the balance sheet date by estimating when the temporary differences will be taxable / deductible in accordance with the current tax legislation.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax as sets resulting from temporary differences are recognized to the extent that future taxable profit will be available against which the deferred tax as set can be utilized.

The calculated deferred taxasset and deferred taxliability are presented as net in these financial statements.

Tax effects of the transactions that are directly accounted under equity are also reflected to equity.

17.3. Transfer pricing:

The article no.13 of the Corporate Tax Law No.5520 describes the issue of transfer pricing under the title of "disguised profit distribution" by way of transfer pricing (previously included as "Disguised profit" in the Corporate Tax Law No.5422). "The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing" published at November 18, 2007/26704, explains the application related issues on this topic effective from January 1, 2007, also taking into account the regulations in Article 41 of the Income Tax Law.

"Arm's length principle", which is the basis for the transfer pricing rule, is the pricing system to be followed for purchase or sale activities between related parties for any product or service transactions as if the transaction is realized with any other third party. According to this communiqué, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties where the prices are not determined according to the arm's length principle, then it will be concluded that there is a disguised profit distribution by way of transfer pricing. Such disguised profit distributions will not be deducted from the corporate taxbase for taxpurposes.

As discussed in the relevant section of this communiqué, the taxpayers are required to fill out the "Transfer Pricing, Controlled Foreign Entities and Thin Capitalization" form for the purchase and sale of goods or services conducted with their related parties in a taxation period, attach these forms to their corporate tax returns and submit to the tax offices.

18. Explanations on borrowings:

The financial liabilities classified at fair value through profit/loss, trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at "amortized cost" including costs of transactions using the "effective interest method".

The Bank classifies some of its financial liabilities as the financial liabilities classified at fair value through profit/loss in order to eliminate the accounting mismatch at the initial recognition.

For the related liabilities until the maturity, the Bank presents interest expenses paid and the difference between amortized cost and acquisition cost in the interest expense, the difference between the fair value of the financial liabilities and amortized cost presents under the trading gain/(loss) in the income statement.

The Bank utilises various hedging techniques to minimise the currency, interest rate and liquidity risks of its financial liabilities. No convertible bonds have been issued by the Bank.

Also, the Bank obtains funds by issuing bonds and bills.

19. Explanations on issuance of share certificates:

When shares are issued above their nominal value, the excess over the nominal value is accounted under shareholders' equity as "Share premium".

20. Explanations on avalized drafts and letter of acceptances:

Avalized drafts and acceptances are included in the "Off-balance sheet commitments".

21. Explanations on government grants:

None (December 31, 2022 - None).

22. Profit reserves and profit distribution:

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Legal reserves consist of first and second reserves as foreseen in the TCC. The TCC specifies that the first legal reserve is appropriated at the rate of 5% until the total reserve is equal to 20% of paid-in capital and that the second legal reserve is appropriated at the rate of 10% of distributions in excess of 5% of paid-in capital; however holding companies are not subject to this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate for accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

No dividend payments were announced after the balance sheet date.

23. Earnings per share:

Earnings per share disclosed in the income statement are calculated by dividing net profit/(loss) for the year to the weighted average number of shares outstanding during the period concerned.

| | Current Period | Prior Period |
|---|-----------------------|--------------|
| Net income/(loss) to be appropriated to ordinary shareholders | 68.008.836 | 52.744.689 |
| Weighted average number of issued ordinary shares(thousand) | 844.705.128 | 844.705.128 |
| Earnings per share (full TL) | 0,0805 | 0,0624 |

In Türkiye, companies can increase their share capital by making a pro-rata distribution of shares ("bonus shares") to existing shareholders from retained earnings. These bonus shares are treated as issued shares in earnings per share computations. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year is adjusted in respect of bonus shares issued without a corresponding change in resources by giving thema retroactive effect. In case bonus shares are distributed after the balance sheet date but before the preparation of the financial statements, earnings per share is calculated considering the new number of shares.

No bonus shares were is sued during 2023(2022 - None).

24. Related parties:

For the purpose of these financial statements, shareholders having control shares of the Bank, key management personnel and board members together with their families and companies controlled by/affiliated with them associated companies and joint ventures and the Fund providing post employment benefits are considered and referred to as related parties in accordance with "TAS – 24 Related Parties". The transactions with related parties are disclosed in detail in Note 7 of Section Five.

25. Explanations on operating segments:

Information about operating segments which are determined in line with "TFRS -8 Operating Segments" together with organizational and internal reporting structure of the Bank, are disclosed in Note 12 of Section Four.

26. Explanations on other matters:

None.

Section Four - Information related to financial position and risk management of the Bank

1. Explanations on equity:

The calculation of the own funds and the capital adequacy standard ratio are performed in accordance with the communiqués such as "Regulation Regarding the Measurement and Evaluation of Banks' Capital Adequacy Ratio", "Regulation Credit Risk Mitigation Techniques", "Regulation on calculation of Risk-Weighted Amounts of Securitizations" and "Regulation Regarding Banks' Shareholders' Equity". The capital adequacy ratio of the Bank is 20,28% (December 31, 2022 - 21,34%).

Private sector receivables:

2. Explanations on Credit Risk:

As of June 30, 2021, the Bank has started to calculate its credit risk, which is subject to the regulatory capital adequacy ratio reporting, with the Internal Rating-Based (IRB) approach. Foundation IRB approach is used for the corporate exposure class and advanced IRB approach is used for the retail exposure class as determined by "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks".

2.1. Credit risk is the loss or the risk of the Bank in case counterparty cannot fulfill its obligations stated in agreements where the Bank is at a side. The Bank identifies loan limits for each customer considering statutory regulations, the internal scoring system, financial analysis reports geographical and industry concentration and considering credit policies determined by Board of the Directors each year. The limits defined by the Bank's Board of Directors for each correspondent bank are followed-up daily by Treasury Management for the transactions related with placements with domestic and correspondent banks or treasury operations such as forward buy and sell transactions. Moreover, daily positions and limit controls of each dealer at Treasury department who is authorized for transactions in the market are performed by the system. During the loan granting process, liquid collaterals are preferred to the greatest extent possible. Collaterals and guarantees must be obtained during credit underwriting based on credit worthiness, customers' financial status, and credit type. While granting of long termproject finance loans, long term projections of the companies are analyzed both by financial analysis specialists and head office. Also the pricing of these commitments are decided by coordination with Treasury Management.

The Bank also monitors limitations on single borrower and group of borrowers in accordance with the regulations.

Rating system used for Medium Sized Entities (ME), Small and Medium Sized Entities (SME) and Corporate/Commercial customers is also used for defining the authorization level for loan granting. Thus, customers with a low rating are assigned to higher authority levels, whereas customers with a high rating are assigned to lower authority levels. By using this methodology it is aimed to establish risk based optimization in the loan processes.

Probability of default of a customer is calculated through this internally developed rating system. The rating concentration of Corporate, Commercial, ME and SMEcustomers of the Bank is as follows:

| | Current Period | Prior Period |
|---------------|----------------|---------------------|
| Aboveaverage | 46,2% | 43,6% |
| Average | 41,3% | 40,7% |
| Below average | 12,6% | 15,7% |

The Bank takes following criterias into consideration for the identification of default:

- > The loan is overdue more than $90 \, days$.
- > The borrower is not able to pay at least one of the loans he received from the Bank (cross default)
- Having a negative intelligence and bad-record for the borrower in the market.
- Deterioration of the credit worthiness of the borrower

The Bank sets aside expected credit loss provisions in accordance with the Provisioning Regulation within the scope of "provisions" and "value adjustments".

Total amount of exposures after offsetting transactions but before applying credit risk mitigations and the average exposure amounts that are classified in different risk groups and types, are disclosed below for the relevant period:

| Risk Classifications: | Current Period risk amount ⁽¹⁾ | Average risk amount ⁽¹⁾ |
|---|--|---------------------------------------|
| Exposures to central governments or central banks | 554.463.327 | 456.780.687 |

| Total | 2.158.673.581 | 1.699.366.968 |

(1) Includes credit risk amounts of total exposure before applying credit risk mitigations.

2.2 The Bank has control limits over the positions of forwards, options and similar agreements. These positions are measured and managed by following their market values and by taking potential risk into considerations throughout their maturities, in accordance with Counterparty Credit Risk management. Limits are also calculated and dynamically managed by taking these potential risks into considerations. Daily market value calculations, limit controls, collateral assessments are performed and reported to the relevant departments within the Bank.

The Bank may use its rights, as stated in the derivative agreements based on which the Bank realizes derivative transactions, in order to eliminate the risks that may arise due to being exposed to severe risk levels arising from fluctuations in the market.

2.3 In line with the Provisioning Regulation, if the cash risk of a customer is classified as nonperforming, the noncash risk is also classified as nonperforming under the same group where the cash risks were already followed and specific provision is reserved.

Restructured loans are also classified and followed up according to the regulation on provisions considering the Bank's credit risk policies. Accordingly, the financial position and commercial operations of related customers are monitored, their principal and interest payments are followed up with the restructured repayment schedule and the necessary precautions are taken.

2.4 Banking activities in foreign countries and credit transactions are subject to periodical follow-up in terms of the economic conditions of the related country and the evaluation of the creditworthiness of the customers and financial institutions. No material credit risk have been observed in scope of these operations.

- 2.5 Regarding credit risk;
 - The proportion of the Bank's top 100 and 200 cash loan balances in total cash loans is 23% and 27% (December 31, 2022 24% and 28%).
 - The proportion of the Bank's top 100 and 200 non-cash loan balances in total non-cash loans is 37% and 47% (December 31, 2022 38% and 50%).
 - The proportion of the Bank's cash and non-cash loan balances with the first 100 and 200 customers comprises of 27% and 33% of total cash loans and non-cash loans (December 31, 2022 28% and 34%).
- **2.6** The Bank provided a general loan loss provision amounting to TL 25.023.251 (December 31, 2022 TL 22.758.216).

2.7 **Risk profile according to the geographical concentration:**

| | | Opening balance | Provision amounts set aside during the period | Reversal of provisions | Other (1) adjustments | Closing balance |
|---|--|--------------------|---|------------------------|--------------------------|-----------------|
| 1 | Specific provisions | 16.880.431 | 11.618.629 | (4.943.567) | (3.119.459) | 20.436.034 |
| 2 | General provisions (Value adjustments) | 22.758.216 | 12.153.121 | (9.888.086) | - | 25.023.251 |

(1) The figure represents write-off's and also includes NPL sales amounts.

3. Explanations on Risk Management:

3.1. General Information on Risk Management and Risk Weighted Amount

3.1.1. Risk Management Approach of The Bank

Risk management strategy of the Bank ensures using the capital at an optimum level and provide sustainable growth in this framework through measurement of risks in accordance with international standards and local regulations and taking risk-return balance into consideration in the framework of sustainable growth. Risk management approach of the Bank is based on strong risk management techniques of ISEDES (Evaluation Process of Internal Capital Adequacy) and prospective planning and capital evaluation depending upon risk profile.

A prospective capital planning approach is adopted for the Bank to carry out its operations if certain losses are incurred as a result of unexpected events or deteriorations in markets. The best international practices are utilized for the determination, measurement, analysis and control of risks. The process regarding identification of risks and determination of appropriate measurement method has a dynamic structure in which the risk management is improved through inspiring from advanced international practices and analyses updated in line with its business evolution. A risk appetite framework integrated to budget process, has been developed in order to carry out related activities at an optimum level while reaching predefined budget target of the Bank and therefore an appropriated risk positions are ensured to be taken.

Risk appetite, as an integral part of the main pillar and a crucial instrument of the Bank Management, is implemented in order to ensure the execution of Bank's activities in an ideal manner through taking appropriate risk positions at an acceptable level of risk. Risk appetite, is integrated to management and budget processes of the Bank with performance indicators which are sensitive to risk.

Risk appetite indicators, targets, limits and critical thresholds are determined by the Executive Committee with the joint recommendation of Compliance, Internal Control and Risk Management and Financial Planning and Administration Management. Possible changes which may occur in economic conditions are taken into consideration during the determination of aforementioned limits and thresholds.

Determined risk appetite indicators consists of capital adequacy, liquidity, assets quality, financial risk and operational risk ratios of the Bank and senior management ensures the Bank to carry out its activities in the range of such targets and critical thresholds. Senior management should be informed to take emergency precautions if the critical thresholds are exceeded. Monitoring and periodical reporting to senior management is performed by the related units in order to implement risk appetite framework.

The Bank implements internal policies and procedures that are audited and approved at least once a year by the Board of Directors in order to manage market risks arising from on -balance sheet and off-balance sheet liabilities. Based on the principles mentioned in Regulatory Authority's directives and best practice guidelines, internal policies determine responsibilities and practitioners for identification, measurement, monitoring and reporting of the risks in line with the risk appetite and needs of the Bank; lay the groundwork for granting limits in the Bank; and guide the actions to be taken in case of risk appetite is exceeded.

The Credit Policy Directive, which reflects the general framework of Bank's credit allocation activities, is updated minimum annually and implemented with the approval of the Board of Directors. Credit Policy Directive is based on improving asset quality, supporting effective risk management and compliance with legal practices. In addition, it includes management of lending activities according to the Bank's common standards, limitations and principles.

The main purpose of the credit risk management is to identify, measure and mitigate credit risk, react in a timely manner and take necessary actions with the help of efficient and well-functioning rating/scoring models, strategies and processes. The main strategies include topics like effective implementation of the Credit Policy Directive to reinforce the sustainability of common risk management approach, steering of the loan portfolio toward less risky sectors, avoidance of excessive concentration in Group exposures while strictly obeying statutory limits, focus on customers with better credit ratings, avoidance of transactions bearing high credit and reputational risk, managing country risk in line with established strategy, policy and rules, timely updates to senior management about all developments in credit risk area to ensure effective credit risk management, performing credit stress tests and participating in credit risk regulatory processes.

Risk Management reports to Board of Directors in organisation structure via Audit Committee. Risk Management organisation is divided into "Market Risk Management", "Credit Risk Strategy, Modelling and Reporting Management" and "Risk Validation" units.

In the process of market risk management, related business and risk units perform their activities within the scope of the principles determined by internal policies such as the Financial Markets Policy, Liquidity Policy, Liquidity Risk Limit Management Policy, Liquidity Emergency Policy, Interest Rate Risk Policy, Interest Rate Risk Limit Management Policy, Financial Investment Risk Policy, Immovables Risk Policy, Derivatives Policy, Independent Price Verification Policy, Policy due to inclusion on Financial assets where fair value change is reflected to income statement, Market Risk Stres Test Policy.

Value at Risk, Basis Point Value (interest rate sensitivity), and Credit Basis Point Value (credit spread sensitivity) are risk metrics calculated via internal models and used in measurement of market risks. Risk measures are monitored at product, portfolio and account (Financial assets where fair value change is reflected to income statement and Financial assets where fair value change is reflected to other comprehensive income statement) basis. Performance of internal models is measured by backtesting of the model's outputs. In addition, transaction limits are used at specific products.

Liquidity Risk measurement methods; consists of both short term risk metrics such as Liquidity Coverage Ratio, Short TermLiquidity, Intraday Liquidity, and Early Warning Indicators and long-term risk metrics such as the Net Stable Funding Ratio and the funding concentration structure. With various scenario analyzes aimed at stressing the liquidity, it is examined how the possible deterioration scenarios that can be observed in the parameters of the market or institution-specific or both cases affect the liquidity position of the Bank.

Measurements performed via internal models in the context of market risk management are reported to the Bank's Top Management, Treasury, Financial Reporting and Credit Monitoring Units (for the Counterparty Credit Risk process) on a daily basis and to the Board of Directors and Executive Committee on a monthly basis.

Stress tests, provide a prospective point of view during risk management, budget and capital planning processes through reviewing the impact of events or changes in markets, which have a low possibility to occur under normal conditions but may result in losses to Bank in case they occur. The Bank performs stress tests to measure impacts of temporary or continuous deteriorations in market risk factors on income statement and to make capital plans. Scenarios, having basis, medium and high stress levels, aim to measure impacts of adverse conditions across the country on the economic value of the Bank through risk factors. Other important risk elements such as Fixed Assets held by the Bank and financial investment risks faced through its subsidiaries, as well as price movements, are reviewed during stress test processes as well.

Stress test studies are made with the active participation of senior management and impact of the stress test to the general risk profile of the Bank is reported. Senior management participates in establishing of stress test's scenario, analyzing of its results, through determination of the scope and approach of the scenario, guidance of required directions and review of results and recommendation of action plans. Stress scenarios, up-to-date estimations and crisis scenarios are prepared by Research and Analytics Department.

The Bank reduces market risk exposure within scope of its commercial activities through derivative instruments and makes an effort to control impacts of the risks on capital through hedge accounting implementation. It holds foreign exchange positions to manage residual positions as a result of banking activities through performing a conservative approach to exchange risk and manages its end of day positions at a minimum level.

For the detection and mitigation of risks, Operational and Reputational Risk Management defines policies and strategies and determines, reports and monitors actions to reduce potential operational and reputational risks via loss data, key risk indicators, scenario analysis and risk assessments. Operational Risk Management Policy and Reputational Risk Policy is updated every year and approved by the Board of Directors.

Business Continuity Management Policy aims at reducing the risks that may endanger the continuity of Banks operations to a minimum level and ensuring critical product and services in case of unexpected events in an acceptable period. Bank's resilience against unexpected events is increased through the Crisis Communication Plan, Emergency Response Plan, Business Recovery Plan and Crisis Communication Plan. Business Continuity Policy and Plans are regularly updated and approved by the Board of Directors.

Risk validation management is an independent team that reports directly to the Assistant General Manager of Compliance, Internal Control and Risk Management, and is responsible for the controls of all models, data and processes carried out within the framework of risk management. Validation studies include not only statistical practices, but also compliance with the legal regulations and in-bank policies. The risk validation team consists of three units. These units are regulatory risk validation, strategic risk validation and rating models validation teams. Within the scope of legal risk validation, mainly IRB models, IFRS 9 and credit risk validation in the second structural pilliar are performed. In the frame of strategic risk validation, strategy validation, managerial models, market risk and other risk types as part of the second structural pillar are validated. Validation of rating models and operational risk models.

3.1.2. Overview of Risk Weighted Assets

| | | Risk Weig | ghted Assets | Minimum Capital Requirements |
|----|--|-------------------|--------------|---------------------------------|
| | | Current Period | Prior Period | Current Period |
| 1 | Credit risk (excluding counterparty credit risk) (CCR) | 922.134.039 | 610.626.631 | 73.770.723 |

3.2.3. Explanations of differences between accounting and regulatory exposure amounts

There is no difference between amounts reported in the financial statements and valuated in accordance with TAS and amounts valuated in accordance with TAS in scope of legal consolidation.

Bank's financial instruments subject to fair value measurement are valued using Mark-to-Market or Mark-to-Model approach based on their product types. Implementation of valuation methodologies is carried out in accord ance with the "Fair Value Measurement" policies in line with the prudent valuation principles set out in the annex of the Directive on Measurement and Assessment of Banks' Capital Adequacy. The Bank uses market prices for bonds and futures contracts traded in organized markets, while it often uses platforms generating Mark-to-Model value for derivative transactions traded in OTC markets. Mark-to-Market or Mark-to-Model valuations are made on a daily basis so that changes in the market can be reflected in the Bank's financials with the same frequency.

The Independent Price Control process (IPV) is designed to draw the errors or deviations that may occur in the valuations to the minimum level, to calculate the correct profit / loss and risk, through verification, comparison and approval of market prices and model inputs regularly with independent and different sources. The purpose of the IPV is to ensure that the data used for bank valuations are generated on a daily basis from a highly representative, adequately liquid and accurate instruments. All these processes have a clear, integrated and complementary approach that is in line with the objectives of the Bank.

Prices quoted in active markets for securities and derivative transactions are used to record the fair value of an instrument, but quoted prices are generally not available in active markets. Appropriate valuation techniques are used for financial instruments that are not traded in the market but the estimated fair value is adjusted through valuation techniques of the market participant's estimation of similar asset or liability price. Such adjustments are categorized close out cost, market liquidity, model risk and credit valuation adjustments.

Yapı ve Kredi Bankası AŞ.

Notes to unconsolidated financial statements as of December 31,2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Close out Cost adjustment reflects the amount which would be incurred to arrive at an appropriate ask/liquidation price (financial instruments which are assets at valuation date) or bid/unwind price (financial instruments which are liabilities at valuation date) for financial instruments valued at mid-market prices.

Market liquidity adjustment is calculated to reflect the amount which would be incurred to close out the position when liquidity is not sufficient. When there is not any tradeable price on liquid two way market, a liquidity discount is applied for pricing.

Model risk; reflects the risk stemming from deficiencies in model. Complexity of the model, being market standard and capability to incorporate all known risk factors determine the necessity/applicability of model risk adjustments.

Credit Value Adjustment (CVA), is defined as market value of counterparty credit risk (CCR), which arises from the possibility of a counterparty's default and considered in regulatory capital adequacy calculations for all CCR exposures.

3.3. Explanations on Credit Risk

3.3.1. General information on creditrisk

3.3.1.1. General qualitative information on creditrisk

Credit Policy is prepared to be well-structured in line with the BRSA loan management guidebook.

Credit policy is revised at least once a year, approved by Board of Directors, announced within the bank and implemented in accordance with the appropriate procedures in banks.During the review of credit policies, economic conjuncture, the bank's capital adequacy ratio and amendments in related regulation are taken into consideration. Key elements such as target markets, portfolio structure and concentration, large exposures, credit limit applications, approval authorities are determined in the credit policies. In the policies, key messages are provided based on principles of prudence, continuity about the customer's credit worthiness, specific sectors, segments and products for growth in accordance with the defined credit strategies.

Credit Risk Management Section is established to manage the credit risk of the Bank by determining, measuring, monitoring, evaluating and reporting the risks. In order to improve the asset quality of the Bank, the main roles and responsibilities of the section are composed of performing periodical analyses on credit portfolio trend, calculating credit risk cost based on segments and executing compliance activities between risk management practices with Basel requirements.

Credit risk management consists of two sub-units: credit risk strategies and operational risk management and credit risk planning, modeling and reporting management.

Credit risk strategies and operational risk management is responsible for developing underwriting, monitoring, collection and workout strategies and following the actions taken in accordance with the Bank's risk appetite in terms of credit risk. The unit takes an active role in the development of these strategies by conducting risk analysis, determining the rules to be used in decision trees, putting them into practice through decision support systems, and running the flow smoothly. The unit is also responsible for definition of the operational and reputational risk policies, implementation of measurement, monitoring and reporting systems, identification of the key risk indicators, and performance of scenario analyses. The unit carries out the activities regarding Basel compliance, operational risk models setting and development, operational risk weighted asset calculation and risk based insurance activities. The unit is responsible for the studies on Information Systems risk inventory, coordination of the Support Services Risk Management Program and setting up the relevant monitoring systems and management, as well as development of the Business Continuity Management Policy and Plans and continuous updating of these policy and plans. The unit also ensures the actions taken under business continuity and the coordination and control of Business Continuity Management projects and budget.

(Convenience translation of publicly announced unconsolidated financial statements originally issued in Turkish, see in note 1. of section three)

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of December 31, 2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

Credit Risk Planning, Modeling and Reporting Management is responsible for preparation of credit risk budgeting and credit risk reporting activities of the Bank, calculation of loan loss provisions; identification of the Credit Policy according to risk appetite of the Bank, implementation of the policy throughout the Banks and its subsidiaries. support to all units in the Bank for the related topics. The units establishes a common risk culture on group basis and performs process analyses of credit and risk management functions in subsidiaries to ensure standard risk management practices and establishes action plans for the standardization of all gaps within the group. The unit prepares reports for assessment of credit risk and for the preparation of various and comprehensive concentrations and forecasts on asset quality trends for the Bank, performs necessary calculations to measure the risk profile of the bank and ensures that the country risk is identified. The unit is also responsible for taking part in the model development processes of PD. EAD. LGD models which are in the scope of IRB communique (issued by BRSA – using internal rating based approach for credit risk calculations) and giving opinions as the ultimate authority, supervising the rating systems, monitoring the performance, analysing the results regularly, ensuring the proper functioning of the rating systems, leading the studies for the areas that need improvement and the deficiencies identified, informing the BRSA about the changes made in the rating systems and the relevant units within the Bank. evaluating model use test, ensuring dissemination of the models in the bank internal processes within the scope requested by the BRSA and monitoring the projects carried out in the Bank within the scope of Basel for commercial customers. This business unit is also responsible for taking part in the development processes of operational models used in underwriting, monitoring, collection, etc. processes and monitoring their performance.

ISEDES report is prepared in accordance with the related guide of BRSA and submitted to the approval of the Board of Directors. The report mainly includes the Bank's approach for the review of risks and capital in order to preserve capital adequacy of the Bank with respect to its current and future activities and information on management structure and applied approaches.

Regular supervision and controls are performed to ensure that credit process is carried out in compliance with the Bank credit policies and procedures, loans are extended in accordance with principles and procedures determined by the Board of Directors and loans are reported properly with the information of maturity, quantity and qualification to top management.

Activities carried out by units within scope of internal systems are employed as a tool to define weak points regarding the credit risk management process, policy and procedures and to determine the transactions that are not compliant with limits, policy and procedures.

Issues that are observed during the examinations is being regularly reported to top management and Audit Committee considering importance level.

Summary of the activities of units within the scope of internal systems are effectively utilized by the management and actions are taken in order to prevent repetition of weaknesses and conflicts regarding credit management.

3.3.1.4. Additional disclosure related to the credit quality of assets

According to the BRSA Regulation "Regulation on the procedures and principles for the determination of qualification of loans and other receivables by Banks and provision to be set aside" in the cases:

- For which recovery of principal or interest or both delays for more than ninety days from their terms or due dates or;
- Which have limited means for total recovery because debtors' equity or guarantees extended by them are found inadequate to cover payment of debts on respective terms and are likely to lead to losses in case any such problems observed are not solved or;
- ➢ For which debtors have suffered deterioration in their creditworthiness and credits have suffered weakness consequently or;
- For which it is believed that recovery by banks of principal or interest or both would delay for more than ninety days from their terms or due dates due to reasons such as problems encountered by debtors over operating capital financing or additional liquidity creation,

loans and receivables are classified as 'non performing loans' and are transferred to non performing loan accounts. Within the scope of the same regulation, these loans are set aside for the expected credit loss according to the internal models developed by the Bank.

In accordance with the regulation; in the event that failure to meet payment obligations towards banks stems from temporary liquidity difficulties related to the loans and other receivables as part of the principles of classification, loans and other receivables including any overdue interest may be restructured or subject to a new redemption plan for the purpose of providing debtors with liquidity capability and ensuring recovery of receivables by bank.

3.3.1.4.1. Exposures provisioned against by major regions⁽¹⁾

3.3.2. Credit risk mitigation

3.3.2.1. Qualitative disclosure on credit risk mitigation techniques

The Bank employs on-balance sheet netting and/or general netting agreements for specific capital market transactions for credit risk mitigation, with the condition of meeting the requirements of having implemented corresponding systems upported methods and processes and clear documentation of the required documents.

The Bank may use assets and liabilities as an on balance sheet netting instrument considering them as cash collateral. The capital requirements may be determined on the base of net exposure of assets and liabilities, if the following conditions are met:

- The agreement should provide the Bank the authorization to monitor the receivable of the payee over a single value after netting all payables and receivables even though there is no such indicator for the counterparty showing bankruptcy or financial difficulty in accordance with the regulations of governments.
- > The Bank is provided the authority of netting and monitoring the risk over a single value even the counterparty is not in bankruptcy case of a bankruptcy of one counterparty, the other counterparty should have the authority to terminate all contracts under the agreement
- > The agreement should provide the facility to monitor the receivable of the payee over a single value after netting all payables and receivables in case of the termination of all contracts

In the policies and procedures regarding the assessment and management of the collaterals as part of collateralized lending, Credit risk mitigation techniques aims at:

- Determination of general and specific requirements for the improvement and optimization of collateral systems, processes, strategies and procedures;
- ▶ Valuation of collateral taking into consideration the local regulations and procedures;
- Provision of the soundness, legal enforceability and maintenance of ratable collateral based on a legal framework;
- Determination of the level of the collateral haircut taking the local conditions and the process of risk management into consideration;
- Regular monitoring of the collateral value;
- > Differentiation between counterparty (economic) and country (political) risk aspects,
- Mitigation of concentration risks, correlation risks and residual risks through recognition of collateral;
- > Improvement in the quality of strategic business and overall Bank management
- Clear definition of Roles and Responsibilities
- Determination of acceptable collaterals and collateral related conditions (list of collateral) / (non-parametric condition list)

In the calculations regarding credit risk mitigation, the Bank performs risk mitigation within the regulations set out in the Credit Risk Mitigation Techniques Notification dated September 6, 2014 and numbered 29111 and uses a comprehensive financial guarantee method for its financial collaterals. With the comprehensive financial collateral method, the relevant volatility adjustments specified in the regulation made on the value of the financial collaterals that are used in calculating the capital requirements.

The credit policies establish an operational connection between Bank's activities and its risk capacity and covers the main business areas in accordance with target portfolio structure, risk targets regarding expected and unexpected loss in line with risk capacity and limits relating to risk concentration. Limits are ensured to be compliant with restrictions determined by related regulation and regulatory authorities. Bank uses an integrated approach in concentration risk management, in which all risk concentrations are identified, monitored and evaluated. Therefore, besides the loans to individuals and companies, also the concentrations of market, sector, country and segment are being taken into consideration. Bank pays utmost attention to any concentration of the credit and market risks on a specific counterparty or risk classification in accordance with policies and internal procedures.

3.3.2.2. Credit risk mitigation techniques - overview

| Current Period | Exposures unsecured: carrying amount as per TAS | Exposures secured by collateral | Collateralized amount of exposures secured by collateral | (Exposures secured by financial guarantees | Collateralized amount of exposures secured by financial guarantees | Exposures secured by credit derivatives | Collateralized amount of exposures secured by credit derivatives |

3.33. Credit risk under standardised approach

3.3.3.1. Qualitative disclosures on banks' use of external credit ratings under the standardised approach for credit risk

An international rating firm, Fitch Ratings' external risk ratings are used to determine the risk weights of the isk categories as per the Article 6 of the "Regulation on Measurement and Assessment of Capital Adequacy Ratios of Banks". The international risk ratings are used for all the exposures to central governments/central banks, for Financial Institutions, Corporations, Regional Governments, Administrative Bodies and for Multinational Development Banks asset classes of which the counterparty resides in foreign countries.

Exposures to central governments and central banks which are not rated by Fitch Ratings are included in the calculation of capital adequacy as unrated. Receivables from residents in Türkiye are classified as unrated.

Fitch Ratings' risk ratings as per the credit quality grades and the risk weights according to exposure categories are presented below:

| | Fitch Ratings | | | Claims on banks ar institut | | |
|-------------------------|---------------|--|---|---|---|-------------------------|
| Credit Quality Grade | | Claims on sovereigns and Central Banks | Claims on administrative bodies and other non- commercial undertakings | Contractual maturity of claims under 3 months | Contractual maturity of claims over 3 months | Claims on corporates |

3.3.3.4. Explanations on the use of IRB Models

In the development of internal models;

- As the owners of the probability of default (PD), loss given default (LGD) and exposure at default (EAD) models used in capital adequacy calculations, credit risk control and modeling units (individual and commercial) are responsible for the development and implementation processes of the models, also the regular monitoring and updating of the models.
- > In case of need, advanced analytics unit is responsible for the development of the PD, LGD, EAD models,
- Validation unit is responsible for performing the initial and periodic validation of the models and providing the regular validation report.

When the development of the models is completed and following the approval of the validation unit, they are submitted to the approval of the credit committee and the Board of Directors. The models can be got into use after the necessary approvals are obtained from the relevant committees.

Performance monitoring of the model, which has been developed and put into use, is carried out by the credit risk control and modeling units and the validation unit. Performance monitoring of the models is carried out through the credit risk control unit report prepared quarterly by the credit risk control and modeling teams and annual periodic validation studies. In addition, every month before the models are run, certification checks are carried out and the accuracy of the data used in the model is confirmed.

Re-development, re-train or re-calibration of the models can be done according to the performance monitoring results of the models in use.

In accordance with the IRB communiqué (issued by BRSA – using internal rating based approach for credit risk calculations) as published in the Official Gazette dated 23 October 2015 numbered 29511, all IRB models and validation processes are audited annually by the Internal Audit Department. The scope of audits consists of three main areas: governance and validation, rating systems and quantification of risks and usage testing. Audit processes include reviewing IRB models for compliance with all minimum requirements, as well as validation of models. In this framework, initial, periodic, data and process validation activities are examined and validation findings are also taken into account within the scope of relevant model audits.

Reports on credit risk models are prepared in order to explain the structure, process and performance of the rating system, the areas that need improvement, the activities to complete the identified deficiencies, and to monitor the credit risk. Commercial credit risk control and modeling and retail credit risk control and modeling units are responsible for reporting. The related report includes the risk profile according to grades, migrations between grades, comparison of the estimations of risk parameters and observed values, and analysis of the effectiveness of the override process. If there is a rating override for project finance loans in the relevant reporting period, the reasons for the change are also included.

For the capital calculation, BRSA allowed the use of PD and EAD models in the corporate receivables class, the PD, LGD and EAD models in the retail receivables class, and the use of the slotting method in project finance loans.

91% of the bank's total risk weighted assets amount is calculated with the IRB approach. 7% of the total risk weighted asssets amount is in portfolios such as receivables from central governments or financial institutions that do not have an IRB approach permit. The corporate and commercial portfolio is under the Foundation IRB approach, 95% of which is calculated with the IRB approach. The retail portfolio is under the Advanced IRB approach and 99% of it is calculated with the IRB approach. The slotting approach is used for all project financerisks.

There are application and behavior PD Models for both corporate and retail receivables classes. Application models are the models that work at the moment when a customer applies for a loan to the Bank. Behavioral models are run at the end of each month for customers with limits or risks in the bank (for the behavior insert, it is required to be older than sixmonths in the individual portfolio).

- Individual portfolio PD application models consist of five models that work separately for each product in case the customer makes their own application. Behavior PD model is a model that consists of nine different segments.
- Individual portfolio EAD models are two models consisting of five different segments that vary according to the limit usage rate and risk amount for the customer's credit card and overdraft products. LGD modes are five models consisting of eleven different segments in terms of risk amount breakdown by product.
- SME portfolio PD behavior and application models consists of four different segments, which vary according to the customer's information such as turnover, memzuç limit, customer type and being a agriculture customer.
- The same model is used for application and behavior in the corporate/commercial portfolio PD calculation. The model consists of four different segments that vary according to the customer's balance sheet type, memzuç limit and gross profit.
- Corporate/commercial/SME portfolio EAD model consists of twelve different segments that vary according to the portfolio, limit, risk, limit usage rate and limit gap information for the customer's commercial overdraft, commercial credit card, non-cash (check, letter of guarantee, letter of credit) products. Five of the twelve segments are for the corporate/commercial portfolio and seven are for the SME portfolio.

Bank's PD models are developed using logistic regression. At least five years of data are used while developing the model in accordance with the articles specified in the communique. For the initial validation activities, out-of-sample (OOS) and out-of-time (OOT) data is separated. As stated in the Communique, the PD of the best grade can be at least 0,03%.

Due to the use of minimum five-year data during model development and the higher default rates during the model development period compared to the current period, the calculated PD value especially for the individual portfolio differs relatively from the observed DR.

The PD model is used in underwriting strategies, provision calculations and economic capital calculations as well as capital calculations.

Specialized loans can be defined as portfolios with low default rates. PD calculation is not made for specialized loans, the classification method is used.

While developing the LGD model, the gross LGD approach was used. At least 5-7 years of data are used while developing the model in accordance with the articles specified in the communique. For the initial validation activities, out-of-sample (OOS) and out-of-time (OOT) data is separated. As stated in the communique, it has been ensured that the LGD value of mortgage loans is at least 10%. The downturn period effect for the individual portfolio is added as a conservatismmargin:

- A random sample is selected one thousand times, with the LGD values calculated for the performing and default groups equal to the number of observations for each product.
- ▶ In each sample, the average of LGD values for the performing and default groups is calculated.
- LGD averages calculated in the previous step were ordered for all segments and groups, and the 75th percentile was determined as LGD with a conservatism margin added.
- ➢ In order to reflect the effect of the downturn period, the 90th percentile was chosen after the LGD averages were ranked for all segments and groups.

For Commercial LGD model, the total collection amount in the first year when the customers entered the liquidation process was calculated and this amount was deducted from the default amount of the following year. Thus, the default amounts remaining in the following years spent by the customer in the liquidation process are reflected. The annual collection has been made taking into account these default amounts. Thus, the year in which the collection rate was bad in the economic cycle was taken into account. The through-the-cycle (TtC) LGD of the annual calculated LGD values was found. The year with the largest percentage difference of the annual LGD values from the calculated TtC LGD was determined as the downturn year, and the related percentage difference was determined as the downturn period coefficient.

The saturation point values used for the time between the default event and the closing of the receivable are as follows.

| Product / Portfolio | Saturation Point |
|----------------------|-------------------------|
| Consumer loan | 74 |
| Auto loan | 30 |
| Overdraft | 42 |
| Mortgage | 33 |
| Credit card | 50 |
| Commercial portfolio | 73 |
| SME portfolio | 68 |
| Corporate portfolio | 50 |

EAD model begins by associating defaulted loans with the 12-month risk and limit information before the default date. A random observation month is selected from the 12-month period from the date of default by the customer, and the EAD parameters are calculated accordingly. In product segmentation, arithmetic mean EAD ratios were calculated by considering business requirements and statistical significance. The last step is to add a conservatism margin as required in the Basel and IDD communiqué to create the final model.

As a result of the analysis made for individual loans, it was decided to use the 60th and 70th percentiles for the conservatism margin and downturn period effect ratios, respectively, in individual products in risk conservion factor (RCF), limit conversion factor (LCF) and Non-limit conversion factor (NLCF). For commercial loans, five quantile is added over the model output for both conservatism margin and downturn effect.

3.3.3.5. IRB Approach: Credit Risk Amounts by Portfolio and PD Ranges

3.4. Explanation on Counterparty credit risk

3.4.1. Qualitative evaluation for Counterparty Credit Risk

Counterparty Credit Risk (CCR) is organized under Market Risk Management and is functioning within the scope of "Regulation on the Measurement and Evaluation of the Capital Adequacy of Banks". These functions include counterparty credit risk calculations within general risk appetite and control process of risk management policies for CCR.

Credit limits under CCR are defined within the scope of internal model method, specified in "Regulation on the Measurement and Evaluation of the Capital Adequacy of Banks. -Appendix 2", considering various stress scenarios.

General policies for collaterals and provisions under credit risk management are also valid for CCR. Exposure and collateral values are calculated on a daily basis. In order to mitigate the counterparty credit risk, international framework agreements (ISDA, CSA, GMRA, etc.) are being used through collateral and margin call mechanisms.

In case of a downgrade in credit note, the amount of additional collateral the Bank has to provide is calculated periodically under several stress scenarios.

3.4.2. Assessment of Counterparty Credit Risk according to the models of measurement

| Current Period | Revaluation Cost | Potential credit risk exposure | EEPE ⁽¹⁾ | Alpha used for computing regulatory EAD | Exposure after credit risk mitigation | Risk Weighted Amounts |
|---|---------------------|--------------------------------------|---------------------|--|--|-----------------------------|
| 1 Standard Approach-CCR | 19.708.623 | - | | 1,4 | 19.708.623 | 6.980.594 |

None.

3.6. Explanations on Market Risk

3.6.1. Qualitative disclosure on market risk

Market Risk Management department monitors the interest rate, exchange rate, stock, commodity and credit spread risks arising from the main financial activities of the Bank on a daily basis and measures the probability of loss that may arise from the related risks by using internal model. Risks measured are regularly reported to the business units, their compliance with the Bank's risk appetite is monitored and impacts on capital requirement are analyzed. By taking into account the distinction between banking and trading portfolios, analyses and measurements enable Market Risk Management to determine specific limits on sub-portfolio/product levels.

Market risks that the Bank is exposed to are assessed and managed by a triple structure consisting of Treasury, Financial Planning and Market Risk Management Units. The Board of Directors, the Executive Committee and the Audit Committee have primary responsibility for management of such risks. Both Top management and the sub-units are responsible for managing the risks taking into account constraints and targets such as Bank's interest rate sensitivity, liquidity constraints, funding sources, budget targets, medium and long-term capital planning and profitability of the products in operation.

Models, strategies and processes that are accurate and integrated in accordance with risks the Bank is or may be exposed to have been established. Automated reporting and validation activities are carried out for effective analysis, monitoring and control mechanisms. Risk management infrastructure integrated with day-to-day activities enabling monitor and measurement independently from executive activities; and supports business and decision-making processes has been established. Policies, processes, targets, roles / responsibilities, and regular trainings are the main elements of the Bank's dissemination of risk culture and awareness. Systems and structures compatible with international best practices and in line with the risk appetite are available for risk management.

The Bank implements internal policies and procedures that are reviewed and approved at least once a year by the Board of Directors in order to manage market risks arising from on and off-balance sheet liabilities. Based on the principles mentioned in Regulatory Authority's directives and best practice guidelines, internal policies determine responsibilities and practitioners for identification, measurement, monitoring and reporting of the risks in line with the risk appetite and needs of the Bank; lay the groundwork for granting limits in the Bank; and guide the actions to be taken in case of risk appetite is exceeded.

Market Risk Management organization consists of 4 sub-units; Market Risk Analysis, Asset-Liability Management and Affiliates Coordination, Counterparty Risk and Collateral Management and Risk Methodologies and Market Data Analysis units.

Market Risk Analysis unit; carry out the activities such as measuring and setting limits for risks arising from Financial assets where fair value change is reflected to income statement and Financial assets where fair value change is reflected to other comprehensive income statement using advanced internal methods (Value at Risk, Base Point Value Sensitivity etc.), complying policies and procedures with new regulations and best practices, product-based risk analysis, developing risk measurement and valuation techniques and applying stress tests.

Asset Liability Management and Subsidiaries Coordination unit; enables the Bank to measure the liquidity risk, manage the structural interest rate exposure, manage the protection procedures and the protection accounting processes used to reduce the risk of re-pricing. Follows the concentration of the Bank's funding side. Also paves the way for implementation of Bank-side risk applications and risk culture in the Bank's subsidiaries, plays an active role in risk appetite determination and coordination processes.

Counterparty Risk and Collateral Management Unit calculates the exposures of over the counter (OTC) derivative transactions via internal model method and manages the inclusion of these exposures into the monitoring and the credit underwriting processes.

The Risk Methodologies and Market Data Analysis unit provides unbiased management of all market data related to treasury products under the risk management framework. The unit is responsible for the verification of fair values, and transfer of related data sources to the banking system.

3.6.2. Market risk under standardised approach

| | | Current Period | Prior Period |
|---|---|----------------|---------------|
| | | Risk Weighted | Risk Weighted |
| | | Asset | Asset |

| | Total | 9.101.414 | 13.715.305 |

3.7. Explanations on Operational Risk:

The Bank calculates the amount subject to operational risk based on "Basic Indicator Method" by using 2022, 2021 and 2020 year-end gross income balances of the Bank, in accordance with Section 3 of the "Regulation Regarding Measurement and Evaluation of Banks' Capital A dequacy Ratio", published in the Official Gazette No. 29511 dated October 23, 2015, namely "The Calculation of the Amount Subject to Operational Risk". As of December 31, 2023, the total amount subject to operational risk is TL 93.204.174 (December 31, 2022 - TL 42.578.789) and the amount of the related capital requirement is TL 7.456.334 (December 31, 2022 - TL 3.406.303).

| Current Period | 2 Prior Period Value | 1 Prior Period Value | Current Period value | Total / Total number of years for | Rate (%) | Total |
|---|-------------------------|-------------------------|-------------------------|---|----------|------------|
| Gross Income | 22.290.957 | 29.687.861 | 97.147.860 | 49.708.893 | 15% | 7.456.334 |
| Amount subject to operational risk (Total*12,5) | | | | | | 93.204.174 |

| Prior Period | 2 Prior Period Value | 1 Prior Period Value | Current Period value | Total / Total number of years for | Rate (%) | Total |
|---|-------------------------|-------------------------|-------------------------|---|----------|------------|
| Gross Income | 16.147.244 | 22.290.957 | 29.687.861 | 22.708.687 | 15% | 3.406.303 |
| Amount subject to operational risk (Total*12,5) | | | | | | 42.578.789 |

3.8. Interest rate risk arising from banking accounts

Interest rate risk means possible losses on financial structure or equity of the Bank by movements in interest rates. Changes in interest rates affect the Bank's earnings by changing the level of net interest incomes, other interest sensitive incomes and operating expenses. The change in interest rates also affects the underlying values of the Bank's assets for active, passive and off-balance sheet items by changing the economic values of future cash flows (and in some cases, the cash flows themselves).

Interest raterisk has three main reasons:

- > Repricing Risk: It is caused by the inconsistency in pricing of active and passive items.
- > Yield Curve Risk: It results from the variation of the curve and shape of the yield curve.
- Basis Risk: It's due to the low correlation of the earned and paid interest yields of different financial instruments with peer revaluation structure.

The customer's prepayment risk (option risk) is indirectly taken into account in managing and following the interest rate risk by following a specific risk protection rate.

Within the scope of the interest rate risk arising from banking accounts, the core deposit analysis for demand deposits is carried out according to the maximum maturity structure of the same regulation. In core deposit analysis, it is possible to distribute demand deposits up to three times using behavioral models reviewed once a year. In addition, Consumer Price Indexbonds model and early payment model in real estate and consumer loans are also considered in the calculation of interest rate risk.

Interest rate risk is monitored weekly through internal reports and reports made to the Executive Board on a monthly basis.

In accordance with the "Regulation on Measurement and Evaluation of the Interest Rate on Banking Accounts by Standard Shock Method", the economic value differences arising from fluctuations in interestrates are stated in the table below as of December 31, 2023, based on the significant currencies of the Bank.

| | | Curre | ent Period | Prior | Period |
|-----------------------------|---------------------------------------|--------------|--------------------------------|--------------|--------------------------------|
| Currency | Applied shock (+/- x basis points) | Gains/Losses | Gains/Equity- Losses/Equity | Gains/Losses | Gains/Equity- Losses/Equity |

| USD | (-)200 bp | 8.458.759 | 3,98% | 4.983.463 | 3,40% |
| Total (For negative shocks) | | 19.518.637 | 9,19% | 10.325.845 | 7,04% |
| Total (For positive shocks) | | (18.051.244) | (8,50)% | (9.645.464) | (6,57)% |

4. Explanations on currency risk

The difference between the Bank's foreign currency denominated and foreign currency indexed on - and off-balance sheet assets and liabilities is defined as the "Net Foreign Currency Position" and it is the basis of currency risk. Cross currency risk is also taken into consideration for the currency risk calculations and measurements.

The Bank keeps the amount of currency risk exposure within the related legal limits and follows the exchange position on a daily/regular basis. In addition, although the internal exchange position limit is lower when compared to the related legal limit, there has not been any limit exceeding during the period. As an instrument of currency risk management, derivatives such as swap and forwards are used to reduce risk whenever needed. In order to guard against extreme volatility during the year stress tests are applied. Value at risk method is used for the measurement of foreign exchange risk.

The details of hedging of the foreign currency debt instruments and net foreign currency investment risk with derivative instruments are disclosed in section four Note 10.

The Bank's publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five work days prior to that date are as follows:

| (Exchange rates presented as full TL) | USD | EUR |
|---|---------|---------|
| Balance sheet evaluation rate: | 29,4382 | 32,5739 |
| First day current bid rate | 29,3973 | 32,6937 |
| Second day current bid rate | 29,3374 | 32,4186 |
| Third day current bid rate | 29,2647 | 32,2421 |
| Fourth day current bid rate | 29,2108 | 32,1766 |
| Fifth day current bid rate | 29,1344 | 32,0726 |
| Arithmetic average of the last 31 days: | 29,0552 | 31,7410 |
| Balance sheet evaluation rate as of prior period: | 18,6983 | 19,9349 |

Includes FX indexed loans amounting to TL 115.545 (December 31, 2022 - TL 166.285) which have been disclosed as TL in the financial statements. (1)

 (2) Does not include foreign currency prepaid expenses amounting to TL 2.569.809 (December
 (3) Does not include foreign currency other comprehensive income and expense under equity. Does not include foreign currency prepaid expenses amounting to TL 2.569.809 (December 31, 2022 - TL 1.036.303).

(4) Other FC column includes also gold balance.
(5) Forward transactions classified as commitments are also included.

Currency risk sensitivity analysis:

The table below represents the sensitivity of the Bank to 15% change of currency exchange rates (USD and EUR). 15% change is the assumption of parity change that may be faced in a possible fluctuation used in the Bank's stress test scenarios.

| | CurrentPeriod | Prior Period |
|------------------------------------|---|---|
| Change in currency exchange rates | Equity and Profit/loss effect ⁽¹⁾ | Equity and Profit/loss effect ⁽¹⁾ |
| (+)15% | 1.698.583 | 1.593.635 |
| (-)15% (1) Evoluting tay offset | (1.253.541) | (596.848) |

(1) Excluding tax effect.

5. Explanations on interest rate risk

The monitoring of interest rate sensitive as sets and liabilities, including sensitivity analysis regarding the effect of interest rate fluctuations on the financial statements, is performed by the risk management department for all interest sensitive instruments over carrying values. The results are presented monthly to the Asset and Liability Management function of the Executive Committee. By using sensitivity and scenario analyses, the possible effects by interestrate volatility are analyzed. In these analyses possible losses are calculated for the change in fair value of interest sensitive products by applying shock tests to interest rates.

Sensitivity analyses are also calculated daily within Market Risk reporting on the basis of maturity and foreign exchange types and reported to Senior Management by checking them against the determined limits.

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of December 31,2023 (Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

The Bank utilizes TL/FC and TL/TL interest rate and money swap transactions in order to limit the interest and foreign currency risk arising from short-term deposit and long-term consumer loans within the balance sheet.

(1) Demand deposit balances are included in average interest rate calculation.

6. Explanation on share certificates position risk from banking book:

None.

7. Explanations on Liquidity Risk Management and Liquidity Coverage Ratio:

Liquidity risk is defined as risk of unexpected loss to be occurred or bank to have difficulties in raising funds while meeting maturing liabilities. Liquidity management is daily monitored in the Bank under Treasury Management and Risk Management. The liquidity policy of the Bank is approved by the Bank's Board of Directors. Treasury Management is responsible for carrying out transactions which are appropriate to Bank's policy, monitoring of liquidity position and submitting necessary reports to executives. Treasury management contributes to determine strategies and operating actions for the management of the liquidity position in addition to prepare funding plan and contingency funding plan of the Bank. Liquidity risk is evaluated with liquidity gap analysis, liquidity stress tests and supplementary precautions/measurements. Liquidity Gap analysis are performed for two different periods as short-term and long-term. Going concern scenario and structural positions are reported monthly. This reporting constitutes the basis of monitoring and management of liquidity position.

The Bank does not function as a central funding institution in its relations with its subsidiaries. Intra-group liquidity management and funding strategies are limited with related legal boundaries and monitored regularly via various reports. Intraday liquidity is also monitored closely by the bank in its best effort.

The Bank issues an annual funding plan in order to sustain funding in a consistent and balanced way. Funding plan have to be updated at least annually and approved by the Executive Committee since it is complied with budgeting process and risk appetite frameworks. The primary purpose of the funding plan is to provide a reliable balance between assets and liabilities.

Both short-term liquidity and medium/long-term (structural) liquidity measurement and reporting for all types of currencies are periodically made in the Bank and its subsidiaries. There are limits which are predetermined and approved by the Board of Directors on the basis of all currencies for each period.

The Bank mainly uses derivative transactions as managing liquidity risk and monitors cash inflow and outflow periods in the framework of funding plan balancing the distribution among currencies.

The Bank aims to reduce the risks to the lowest level if required via measuring possible risks in liquidity with stress tests. Stress tests make it possible for the Bank to reinterpret analysis of its liquidity position according to scenarios depending on possible cases and tail risks except for crisis situations. Liquidity Stress Test methodology makes a similar approach with Liquidity Coverage Ratio (LCR) template and hence allows the overview of the results in line with Basel approaches. The Bank applies and reports liquidity stress tests consisting of different scenarios and maturity segments both on solo and consolidated level and the results are compared with both liquidity stress tests and other liquidity limit and trigger levels set, with different frequencies (weekly, monthly etc.) according to the scenarios.

"Liquidity Contingency Plan" is applied if the Bank needs more liquidity than its daily liquidity need because of possible financial events in future. Duties and responsibilities are defined in detail in the aforementioned plan. Both the liquidity policy and liquidity contingency policy are in line with BRSA best practice documents on liquidity risk management. The abovementioned policies and the thresholds (limits etc.) covered within liquidity risk management framework are updated and approved at least annually.

Funding sources of the Bank mainly consist of deposits which constitute 60% (December 31, 2022 - 61%) of total liabilities of the Bank and also include repo, secured loans, syndication, securitization, bond/security is suarce and other instruments including subordinated loans/debts.

The Bank calculates and reports the LCR in full compliance with the regulations. LCR is a metric measuring the adequacy of unencumbered free liquid assets owned by banks (called high quality liquid assets) to meet expected net cash outflows over the next 30 days. The metric is an important Basel regulation that measures short-term liquidity and is closely monitored in the Bank. In addition to LCR, the Bank has also measures the Net Stable Funding Rate (NSFR), which is considered another complementary element and provides another important medium / long-term liquidity risk measurement. In accordance with the Regulation on Calculation of Banks' Net Stable Funding Ratio, published in the Official Gazette dated May 26, 2023 and numbered 32202, the relevant metric has started to be followed up within the framework of legal regulations. These two metrics are also included within the Risk Appetite Indicators and closely monitored at the Bank.

High quality liquid assets mentioned in LCR calculation consist of cash, effective money, CBRT accounts and reserves and government bonds issued by Ministry of Treasury and Finance of the Republic of Türkiye treated as high quality liquid assets.

Cash outflows from derivative transactions in liquidity coverage ratio calculation are based on inclusion of net cash flows with maturity of 30 days in the calculation. Additionally, transactions having a margin possibility are included in liquidity coverage ratio calculation by taking the largest outflow amount according to the negative values of net margin flows realized in the last 24 months in respect of 30 days period or for liability into consideration as cash outflow.

Secured funding consists of repo and other secured borrowings. A large part of securities which are subjects of the aforementioned funding transactions consist of Sovereign Bonds issued by Ministry of Treasury and Finance of the Republic of Türkiye and transactions are carried out in both CBRT market and interbank market.

The Bank manages all the transactions made before its foreign branches and partnership in the framework of central bank, markets and related legislation of the country in which the institutions are located. Legal lending limits and high limit transactions are closely monitored in this framework.

All cash inflow and outflow items related to liquidity profile of the Bank are included in liquidity coverage ratio tables below for the last three months.

Average amounts of weekly liquidity coverage ratio calculations related to the last three months of current period are explained in the table below.

| | Unweighted | d Amounts | Weighted | Amounts |

(1) Maturities of non-cash loans are described in Note 3 of Section 5.

8. Explanations on leverage ratio:

The main reason for decrease in leverage ratio for the current period is the increase in total risk.

| | Current Period ⁽¹⁾ | Prior Period ⁽¹⁾ |
|--|-------------------------------|-----------------------------|
| On-Balance sheet exposures | Current i criou | Thor Terrou |
| On-Balance sheet assets (Excluding derivative financial instruments and credit derivatives, including collaterals) | 1.668.553.934 | 1.082.697.707 |
| (Asset amounts deducted in determining Tier 1 capital) | (19.094.784) | (8.560.613) |
| Total on-Balance sheet exposures | 1.649.459.150 | 1.074.137.094 |
| Derivative financial instruments and credit derivatives | | |
| Replacement cost of derivative financial instruments and credit derivatives | 11.985.848 | 11.847.994 |
| Potential credit risk of derivative financial instruments and credit derivatives | 21.128.855 | 4.486.744 |
| Total derivative financial instruments and credit derivatives exposure | 33.114.703 | 16.334.738 |
| Securities financing transaction exposure | | |
| Total risk of gross securities financing transactions (excluding on-balance sheet exposure) | 16.285.046 | 1.425.925 |
| Agent transaction exposures | - | |
| Total securities financing transaction exposures | 16.285.046 | 1.425.925 |
| Off-balance sheet items | | |
| Off-balance sheet exposure at gross notional amount | 1.171.054.731 | 543.644.296 |
| (Adjustments for conversion to credit equivalent amounts) | (61.083.885) | (46.862.850) |
| Total risk of off-balance sheet items | 1.109.970.846 | 496.781.446 |
| Capital and total exposure | | |
| Tier 1 capital | 184.759.840 | 129.253.872 |
| T otal exposures | 2.808.829.745 | 1.588.679.203 |
| Leverage ratio (%) | 6,58 | 8,13 |

(1) The arithmetic average of the last three months in the related periods.

9. Explanations on the presentation of financial assets and liabilities at fair values:

The following table summarizes the carrying values and fair values of some financial assets and liabilities of the Bank. The carrying value represents the acquisition costs and accumulated interest accruals of corresponding financial assets or liabilities.

| | Book Va | alue | Fair value | | |
|--|-----------------------|---------------------|-----------------------|--------------|--|
| | Current Period | Prior Period | Current Period | Prior Period | |
| Financial Assets | 1.332.889.856 | 875.626.243 | 1.346.099.446 | 895.910.485 | |
| Due from money market | - | 2.461.599 | - | 2.461.599 | |
| Banks | 27.601.982 | 26.405.966 | 27.600.876 | 26.404.761 | |
| Financial assets at fair value through other comprehensive income | 95.393.157 | 77.343.753 | 95.393.157 | 77.343.753 | |
| Financial assets measured at amortised cost | 305.334.494 | 163.300.598 | 288.000.969 | 187.443.110 | |

The fair values of deposits, banks, securities issued and funds borrowed from other financial institutions are determined by calculating the discounted cash flows using the current market interest rates.

The fair value of held-to-maturity assets is determined based on market prices or when this price is not available, based on market prices quoted for other securities subject to the same redemption qualifications in terms of interest, maturity and other similar conditions.

The expected fair value of loans and receivables is determined by calculating the discounted cash flows using the current market interest rates for the loans with fixed interest rates. For the loans with floating interest rates (such as overdrafts and credit card receivables), it is assumed that the carrying value approaches to the fair value.

TFRS 13, "Fair Value Measurement", requires classification of line items at fair value presented at the financial statements according to the defined levels. These levels depend on the observability of data used for fair value calculations. Classification for fair value is generated as followed below:

Level 1: Assets or liabilities with prices recorded (unadjusted) in active markets

Level 2: Assets or liabilities that are excluded in the Level 1 of recorded prices directly observable by prices or indirectly observable derived through prices observable from similar assets or liabilities

Level 3: Assets and liabilities where no observable market data can be used for valuation

According to these classification principles stated, the Bank's classification of financial assets and liabilities carried at their fair value are as follows:

| Current Period | Level 1 | Level 2 | Level 3 | Total |
|--|------------|------------|---------|-------------|
| Financial assets measured at fair value through profit or loss | 747.644 | 2.346.001 | - | 3.093.645 |
| Financial assets measured at fair value through other comprehensive income | 95.265.661 | 1.620 | - | 95.267.281 |
| Derivative financial assets | - | 21.304.525 | - | 21.304.525 |
| Total assets | 96.013.305 | 23.652.146 | - | 119.665.451 |
| Financial liabilities measured at fair value through profit or loss | - | 72.554.448 | - | 72.554.448 |
| Derivative financial liabilities | - | 11.524.206 | - | 11.524.206 |
| Total liabilities | - | 84.078.654 | - | 84.078.654 |

| Prior Period | Level 1 | Level 2 | Level 3 | Total |
|--|------------|------------|---------|------------|
| Financial assets measured at fair value through profit or loss | 397.124 | 1.168.333 | - | 1.565.457 |
| Financial assets measured at fair value through other comprehensive income | 75.469.445 | 1.767.933 | - | 77.237.378 |
| Derivative financial assets | - | 18.557.191 | - | 18.557.191 |
| Total assets | 75.866.569 | 21.493.457 | - | 97.360.026 |
| Financial liabilities measured at fair value through profit or loss | - | 37.239.659 | - | 37.239.659 |
| Derivative financial liabilities | - | 13.774.007 | - | 13.774.007 |
| Total liabilities | - | 51.013.666 | - | 51.013.666 |

The Bank classify its buildings carried at their fair value within property and equipment under level 3.

10. Explanations on hedge accounting:

The Bank applies the following hedge accounting models: Fair Value Hedge ("FVH") and Cash Flow Hedge ("CFH").

If the fair value of the hedging instrument within fair value hedge ("FVH") is positive it is classified under, "Derivative financial assets measured at fair value through profit or loss"; if the fair value is negative, it is classified under "Derivative financial liabilities at fair value through profit or loss".

If the fair value of the hedging instrument under hedge of cash flow hedge ("CFH") is positive, it is classified under "Derivative financial assets measured at fair value through other comprehensive income" if the fair value is negative, it is classified under "Derivative financial liabilities at fair value through other comprehensive income".

Interest rate swap and cross currency interest rate swap are used as hedging instrument in FVH and interest rate swap, currency swap and cross currency interest rate swap are used as hedging instrument in CFH. Contractual amounts and the fair values as at December 31, 2023 of these hedging instruments are presented in the table below:

| | Current Period | | | Prior Period | | | |
|--|-------------------------|-----------|-----------|-------------------------|-----------|-----------|--|
| Hedging instrument | Notional ⁽¹⁾ | Asset | Liability | Notional ⁽¹⁾ | Asset | Liability | |
| Interest rate swap / Currency swap / Cross | | | | | | | |
| currency interest rate swap (CFH) | 40.790.710 | 5.320.823 | 32.334 | 58.891.229 | 7.357.997 | 32.350 | |
| Interest rate swap / Cross currency interest | | | | | | | |
| rate swap (FVH) | - | - | - | 1.664.564 | - | 1.380.313 | |
| Total | 40.790.710 | 5.320.823 | 32.334 | 60.555.793 | 7.357.997 | 1.412.663 | |

(1) Only the "sell" legs of the related derivatives are presented with the addition of the "buy" legs of these derivatives amounting to TL 40.790.711 (December 31, 2022 – TL 59.161.370) the total notional of derivative financial assets amounting to TL 81.581.421 (December 31, 2022 – TL 119.717.163) is accounted for in off-balance sheet under "Hedging Derivative Financial Instruments" line item.

The fair valuation methodology of the derivatives presented in the above table is disclosed in the accounting principles section of these financial statements in Section 3, Part 4.

10.1. Fair value hedge accounting:

Starting from March 1, 2009, the Bank has hedged the possible fair value effects of changes in market interest rates on some of its fixed interest loan portfolios and fair value effects of changes in foreign exchange rates on part of its foreign currency funds by using interestrate s wap, cross-currency interest rate s wap. Starting from July 28, 2015, the Bank has hedged the possible fair value effects of changes in market interest rates and foreign exchange rates on marketable securities by using cross-currency interestrate s waps. The Bank selected to apply macro FVH accounting for such relationship in accordance with "TAS - 39 Financial Instruments: Recognition and Measurement".

The impact of application of FVH accounting is summarized below:

| Type of hedging | Hedged item (asset and liability) | Nature of hedged risks | Fair value difference / adjustment of the hedged item ⁽¹⁾ | Net fair value hedging instru | | Net gain/(loss) recognised in the income statement (Derivative financial transactions gains/losses) ⁽³⁾ |
|--|---|--|---|----------------------------------|-----------------------------------|---|
| Prior Period | | | | | | |
| interest rate swaps | securities | risk | - | - | - | (12.725) |
| Interest rate swap / Cross currency | and liability) Some of fixed interest loan portfolios, foreign currency funds and marketable | Fixed interest and changes in foreign exchange rate | hedged item ⁽¹⁾ | hedging instru Asset | iment ⁽²⁾ Liability | gains/losses) ⁽³⁾ |
| Type of hedging | Hedged item (asset | Nature of | Fair value difference / adjustment of the | Net fair value | | Net gain/(loss) recognised in the income statement (Derivative financial transactions |

| | | 0 | 0 | 0 0 | | 0 | / |
|-----------------------|--------------------------------------|----------------------------------|--------------------------|--------------------|-----------------|------------------|------------|
| | | | | Asset | Liability | | |
| | Some of fixed | | | | | | |
| | interest loan portfolios, foreign | Fixed interest and changes in | | | | | |
| 1 | currency funds and | foreign | | | | | |
| Cross currency | marketable | exchange rate | | | | | |
| interest rate swaps | securities | risk | (12.725) | - | 1.380.313 | | 23.015 |
|) The amount refers t | o the fair value of the hedge | ed item calculated for Sc | me offixed interest loan | portfolios, foreig | n currency fund | s and marketable | securities |

(1) The amount refers to the fair value of the hedged item calculated for Some of fixed interest loan portfolios, foreign currency funds and marketable securities in accordance with hedge accounting effectiveness tests. The foreign exchange rate changes of foreign currency fundings and cross-currency swaps are reflected to the income statement in foreign exchange gains / losses line item.

(2) The amounts include the foreign exchange differences and net straight line interest accruals of the related derivatives.

(3) The bank has no ineffective portion of the mentioned hedging transaction (December 31, 2022 - TL 9.054 loss).

At the inception date, the Bank documents the relationship between the hedging instruments and hedged items required by the FVH accounting application in accordance with "TAS 39-Financial Instruments: Recognition and Measurement" and its own risk management policies and principles. Every individual relationship is approved and documented in the same methodology. In accordance with "TAS 39-Financial Instruments: Recognition and Measurement", the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies. In the effectiveness tests, the fair values of the hedged item are calculated using the same assumptions used in calculation of fair values of the derivatives.

The effectiveness tests are performed prospectively and retrospectively on a monthly basis and the effectiveness of risk relationships are measured. At the inception date the effectiveness tests are performed prospectively. If the underlying hedge does not conform to the FVH accounting requirements (out of the 80% - 125% effectiveness range) or if the management voluntarily decides to discontinue the hedging relation, the adjustments made to the carrying value (amortized cost) of the hedged itemare amortized with the straight line method and recognized in the profit or loss accounts within the remaining maturity. In addition if the hedging instrument is sold or closed before its maturity, the amount of the fair value adjustments of the hedged items are amortized to profit or loss accounts with the straight line method within the remaining maturity.

10.2. Cash flow hedge accounting:

The Bank started to apply macro cash flow hedge accounting from January 1, 2010 onwards in order to hedge its cash flow risk from floating interest rate liabilities. The hedging instruments are USD, EUR and TL interest rate swaps, currency swaps and cross currency swaps with floating receive, fixed pay legs, and the hedged item is the cash outflows due to financing of interests of repricing USD, EUR and TL deposits, borrowings and repos.

The impact of application of CFH accounting is summarized below:

| Current Period Type of hedging instrument | Hedged item (asset and liability) | Nature of hedged risks | | alue of the instrument | Net gain/(loss) recognized in hedging funds ⁽¹⁾ | Net gain/(loss) reclassified to equity ⁽²⁾⁽³⁾ |
|---|--------------------------------------|--|-----------|---------------------------|--|--|
| | | | Asset | Liability | | |
| Interest rate swap / Currency swap / Cross currency | Customer deposits, | Cash flow risk due to the changes in the | | | | |
| interest rate swap | borrowings and repos | interest rates | 5.320.823 | 32.334 | 3.227.560 | (2.151.990) |

| Type of hedging instrument | Hedged item (asset and liability) | Nature of hedged risks | | alue of the nstrument | Net gain/(loss) recognized in hedging funds ⁽¹⁾ | Net gain/(loss) reclassified to equity ⁽²⁾⁽³⁾ |
|--|-----------------------------------|--|-----------|--------------------------|--|--|
| | | | Asset | Liability | | |
| Interest rate swaps/ Cross currency | Customer deposits, | Cash flow risk due to the changes in the | | | | |
| interest rate swap | borrowings and repos | interest rates | 7.357.997 | 32.350 | 5.379.550 | 3.046.675 |

(1) Includes deferred tax impact.

(2) Includes tax and foreign exchange differences.

(3) The ineffective portion of the mentioned hedging transaction is TL 594.177 gain (December 31, 2022 – TL 358.721 gain).

At the inception date, the Bank documents the relationship between the hedging instruments and hedged items required by the CFH accounting application in accordance with "TAS – 39 Financial Instruments: Recognition and Measurement" and its own risk management policies and principles. Every individual relationship is approved and documented in the same way. In accordance with "TAS – 39 Financial Instruments: Recognition and Measurement", the effectiveness tests of the relationships are performed in accordance with the Bank's risk management policies.

The effectiveness tests are performed on a monthly basis and the effectiveness of risk relationships are measured. If the underlying hedge does not conform to the CFH accounting requirements (out of the effectiveness range 80%-125%) or if the management voluntarily decides to discontinue the hedging relation or the hedging instrument is sold or closed before its maturity, the cumulative gain or loss on the hedging instrument that has been recognised in other comprehensive income from the period when the hedge was effective shall remain separately in equity until the forecast transaction occurs or is no longer expected to occur. When the hedged forecasted transactions are no longer expected to occur, the net cumulative gain or loss is reclassified from other comprehensive income to profit or loss.

103. Net Investment Hedge:

The Bank hedges part of the currency translation risk of net investments in foreign operations through foreign currency borrowings. The Bank's EURO denominated borrowing is designated as a hedge of the net investment in the Bank's certain EURO denominated subsidiaries. The total amount of the borrowing designated as a hedge of the net investment at December 31, 2023 is EUR 528 million (December 31, 2022 - EUR 469 million).

11. Explanations on the activities carried out on behalf of others and fiduciary transactions:

The Bank carries out trading, custody, management and consulting services on behalf of customers and on their account. The Bank has no fiduciary transactions.

12. Explanations on operating segments:

The Bank carries out its banking operations through three main business units:

- ➢ Retail Banking
- Corporate Banking
- Commercial and SME Banking

The Bank's Retail Banking activities include card payment systems, individual, individual portfolio, blue class, private banking. Retail Banking products and services offered to customers include card payment systems, consumer loans (including general purpose loans, auto loans, mortgages), commercial installment loans, time and demand deposits, gold banking, investment accounts, life and non-life insurance products and payroll services. In addition, customers who receive their monthly salary/SSI payments through our bank are offered privileges covering various banking transactions. Card payment systems cover the management of products, services, campaigns for member merchants as well as the sales and activities for a variety of customer types. Crystal, Play, Adios and Taksitçi are the other card brands providing services for the different segments within the World brand, shopping and marketing platform of the Bank. Through its Blue Class and Private Banking activities, the Bank serves high net worth customers and delivers investment products to this customer segment. Among the products and services offered to Private Banking customers are time deposit products, mutual funds, foreign exchange, gold and equity trading. Also, personal art advisory, inheritance advisory, real estate advisory, tax advisory, education and philanthropic advisory are offered within the Private Banking and Wealth Management activities.

Corporate, Commercial and SME Banking segment is organized into three subgroups: Corporate Banking for large-scale, international and multinational companies and Commercial Banking for medium-sized enterprises and SME Banking for SME companies. Corporate and Commercial Banking, has a product range of working capital finance, trade finance, project finance, domestic and international non-cash loans such as letters of credit and letters of guarantee, cash management, internet banking, financial advisory and equity management advisory. SME Banking offer to customers SME loans and SME banking packages products.

The Bank's widespread branch network and alternative distribution channels including ATMs, telephone banking, internet banking and mobile banking are utilized to serve customers in all segments. Treasury, A sset – Liability Management and other operations, mainly consist of treasury management's results, operations of supporting businessunits and other unallocated transactions.

13. Explanations on fees for services received from independent auditor ⁽¹⁾:

Persuant to decision of POA dated March 26, 2021 and numbered 660, fees for services received from independent auditor are presented below:

| | CurrentPeriod | Prior Period |
|------------------------------|---------------|---------------------|
| Independent audit fee | 29.600 | 18.405 |
| Tax advisory services fee | 935 | 549 |
| Other assurance services fee | 2.275 | 1.696 |
| Total ⁽²⁾ | 32.810 | 20.650 |

(1) Value added tax (VAT) excluded amounts are presented.

(2) Relevant amounts are presented on a consolidated basis, including domestic and foreign subsidiaries of the Bank.

Section Five - Explanations and notes related to unconsolidated financial statements

1. Explanations and notes related to assets

1.1. Information related to cash and the account of the Central Bank of the Republic of Türkiye:

1.1.1. Information on cash and the account of the CBRT:

| | | Current Period | | |
|-------------------------|-------------|----------------|------------|-------------|
| | TL | FC | TL | FC |
| Cash | 3.655.621 | 18.267.050 | 2.606.269 | 10.318.674 |
| The CBRT ⁽¹⁾ | 98.386.789 | 142.963.897 | 33.129.765 | 97.841.163 |
| Other | - | 612 | - | 259 |
| Total | 102.042.410 | 161.231.559 | 35.736.034 | 108.160.096 |

(1) The balance of gold amounting to TL 17.611.624 is accounted for under the Central Bank foreign currency account (December 31, 2022 - TL 14.779.986).

1.1.2. Information on the account of the CBRT:

| | | Current Period | | |
|---|------------|----------------|------------|------------|
| | TL | FC | TL | FC |
| Demand unrestricted amount ⁽¹⁾ | 86.406.051 | 59.857.962 | 33.129.765 | 35.844.180 |
| Time unrestricted amount | - | - | - | - |
| Time restricted amount | - | - | - | 2.990.650 |
| Reserve requirement ⁽²⁾ | 11.980.738 | 83.105.935 | - | 59.006.333 |
| Total | 98.386.789 | 142.963.897 | 33.129.765 | 97.841.163 |

(1) The TL reserve requirement has been classified in "Central Bank Demand Unrestricted Account" based on the correspondence with BRSA letter as of

January 3, 2008. The Bank keeps TL, USD, EUR and Gold reserve deposits for its TL and FX liabilities at Central Bank accounts in accordance with the legislation of the Central Bank numbered 2013/15, "Decree on Reserve Deposits. (2)

1.2 Information on financial assets measured at fair value through profit or loss:

The Bank has financial assets measured at fair value through profit or loss subject to repotransactions and given as collateral/blocked amounts to TL 1.387.449 (December 31, 2022 - TL 780.236).

1.3 Information on derivative financial assets:

1.3.1. Positive differences related to derivative financial assets held for trading:

| | | Prior Period | | |
|----------------------|-----------|--------------|-----------|-----------|
| | TL | FC | TL | FC |
| Forward transactions | 814.178 | 8.085 | 1.034.624 | 3.889 |
| Swap transactions | 8.577.085 | 6.548.119 | 5.262.254 | 3.702.838 |
| Futures transactions | 4.012 | - | 23.185 | - |
| Options | 31.050 | 1.173 | 279.107 | 893.297 |
| Other | - | - | - | - |
| Total | 9.426.325 | 6.557.377 | 6.599.170 | 4.600.024 |

1.3.2. Positive differences related to derivative financial assets held for hedging:

| | | Prior Period | | |
|--|-----------|--------------|-----------|-----------|
| - | TL | FC | TL | FC |
| Fair value hedges ⁽¹⁾ | - | - | - | - |
| Cash flow hedges ⁽¹⁾ | 1.857.907 | 3.462.916 | 3.658.070 | 3.699.927 |
| Hedges for investments made in foreign countries | - | - | - | - |
| Total | 1.857.907 | 3.462.916 | 3.658.070 | 3.699.927 |
| 1) Explained in Note 10 of section 4. | | | | |

1.4 Information on banks

1.4.1. Information on banks:

| | Current Period | | | Prior Period |
|-----------------------------------|----------------|------------|-----------|--------------|
| | TL | FC | TL | FC |
| Banks | | | | |
| Domestic | 1.121 | 24.371 | 4.303.372 | 13.446 |

| Provision amount (-) | 275.435 | 334.964 | 913.054 |

1.7.12. Explanation on liquidation policy for uncollectible loans and receivables:

Uncollectible loans and receivables, which are classified in accordance with the Provisioning Regulation, are collected through legal follow-up, voluntary payments and liquidation of collaterals.

1.7.13. Explanation on write-off policies:

In order to ensure the liquidation of non-performing loans and other receivables related to the liquidation policy, to provide the maximum collection all possible alternatives within the framework of the legislation are applied, and in case of collection, liquidation or receivables with no possibility of restructuring, the legal follow-up and conversion of collaterals into cash method is applied.

The receivables that are determined to be uncollectible in the Legal Follow-up process regarding the write-off policy can be deleted by the resolution of the Board of Directors by fulfilling the requirements in the relevant laws, regulations and internal directives.

Besides, in accordance with the changes on "Provisioning Regulation" published in the Official Gazette No. 30961 dated November 27, 2019 by the BRSA, the Bank, during the period deemed appropriate under TFRS 9, may write off part of the loans for which the Bank has no reasonable expectation of recovery and that are classified under group five with a life time expected credit loss due the to default of debtor, starting from the following reporting date that the loan is classified in group five. Write off is only an accounting application in accordance with the related change in the regulation and it does not result in waive from the Bank's right to receive.

1.8 Information on financial assets at amortized cost:

1.8.1 Characteristics and carrying values of financial assets measured at amortised cost which are subject to repurchase agreements and given as collateral / blocked:

As of December 31, 2023 financial assets measured at amortised cost given as repo transactions amounting to TL 53.304.273 (December 31, 2022 - TL 29.017.189). The securities subject to collateral/blocked are TL 122.707.615 (December 31, 2022 - TL 77.529.451) of which blocked at the CBRT is TL 39.080.654 (December 31, 2022 - TL 14.502.644).

| Total | - | 88.426.163 | - | 41.492.246 |

2.3.3.2 Information on financial liabilities at fair value through profit or loss :

The Bank classified some of its financial liabilities as the financial liabilities classified at fair value through profit/loss in order to eliminate the accounting mismatch at the initial recognition in accordance with TFRS 9. As of December 31, 2023, the total amount of financial liabilities classified as fair value through profit/loss is TL 72.554.448 (December 31, 2022 – TL 37.239.659) with an accrued interest income of TL 649.336 (December 31, 2022 - TL 2.366.494 income) and with a fair value difference of TL 1.328.128 recognized as an expense (December 31, 2022 - TL 1.107.970 income). On the other hand, the nominal amounts of the total return swaps and bond forwards which are closely related with these financial liabilities as of December 31, 2023 are TL 71.731.874 (December 31, 2022 - TL 38.671.238) for buy legs and sell legs with a fair value differences amounting to TL 1.247.239 liability (December 31, 2022 - TL 2.554.954 liability). The mentioned total return swaps have 9 years maturity in average.

2.3.4 Information on marketable securities issued:

| | | Current Period | | |
|----------------------|-----------|----------------|-----------|------------|
| | TL | FC | TL | FC |
| Bonds | 7.055.826 | 10.933.847 | 7.407.273 | 2.031.595 |
| Bills ⁽¹⁾ | 402.929 | 59.309.062 | 665.581 | 30.435.875 |
| Total | 7.458.755 | 70.242.909 | 8.072.854 | 32.467.470 |

(1) Including mortgage backed securities amounting to TL 804.685 as of December 31, 2023 (December 31, 2022 - TL 1.483.345).

2.4 Information on other liabilities:

As of December 31, 2023, other liabilities do not exceed 10% of the total balance sheet commitments.

2.5 Information on lease payables:

| | | Current Period | | |
|---------------------|-----------|----------------|-----------|-----------|
| | Gross | Net | Gross | Net |
| Less than 1 year | 1.036.046 | 729.304 | 601.905 | 417.121 |
| Between $1-4$ years | 2.048.928 | 1.443.588 | 1.227.178 | 851.753 |
| More than 4 years | 1.440.699 | 1.015.059 | 846.472 | 586.517 |
| Total | 4.525.673 | 3.187.951 | 2.675.555 | 1.855.391 |

2.6 Information on provisions:

2.6.1 Information on reserve for employee benefit:

In accordance with Turkish Labour Law, the reserve for employment termination benefits is calculated as the present value of the probable future obligation in case of the retirement of employees. "TAS -19 Employee Benefits" necessitates actuarial valuation methods to calculate the liabilities of enterprises.

The following actuarial assumptions were used in the calculation of total liabilities :

| | Current Period | Prior Period |
|--|----------------|--------------|
| Discount rate (%) | 2,90 | 0,55 |
| Possibility of being eligible for retirement (%) | 94,92 | 95,20 |

The principal actuarial assumption is that the maximum liability will increase in line with inflation. Thus, the discount rate applied represents the expected real rate after adjusting for the effects of future inflation. As the annual ceiling is revised semi-annually, the ceiling of full TL 35.058,58 effective from January 1, 2024 has been taken into consideration in calculating the reserve for employment termination benefits.

Movement of employment termination benefits liability in the balance sheet:

| | Current Period | Prior Period |
|----------------------------------|----------------|--------------|
| Prior period ending balance | 2.756.809 | 897.413 |
| Changes during the period | 330.830 | 187.943 |
| Recognized in equity | 801.805 | 1.776.093 |
| Paid during the period | (729.192) | (104.640) |
| Balance at the end of the period | 3.160.252 | 2.756.809 |

In addition, the Bank has accounted for unused vacation rights provision amounting to TL 733.627 as of December 31, 2023 (December 31, 2022 - TL 424.244).

2.6.2 Information on provisions related with the foreign currency difference of foreign currency indexed loans:

None. (December 31, 2022 - None).

2.6.3 Other provisions:

| | Current Period | Prior Period |
|--|----------------|--------------|
| Pension fund provision | 10.027.806 | 2.945.243 |
| Provisions on non-funded non cash loans | 1.508.223 | 1.078.763 |
| General provisions on non cash loans | 1.782.092 | 1.143.394 |
| Provision on lawsuits | 175.098 | 118.960 |
| Provisions on credit cards and promotion campaigns related to banking services | 193.488 | 108.764 |
| Other | 3.484.063 | 2.507.964 |
| Total | 17.170.770 | 7.903.088 |

Pension fund provision:

The Bank has set aside provision amounting to TL 10.027.806 (December 31, 2022 – TL 2.945.243) for the technical deficit based on the report prepared by a registered actuary within the framework of the transfer assumption, taking into account the technical interest rate of 9,8%, CSO 1980 mortality table and calculation methods determined by the New Law. The Bank accounted pension fund provision in accordance with "TAS 19 - Employee Benefits" standard. Accordingly, as of December 31, 2023, in the calculation of pension fund provision the change arises,

- As a result of service cost and interest is recognized in income statement,
- Actuarial gains and losses, including the effect of differences between assumptions and actual outcomes, are recognized in shareholders' equity

In the calculation of the defined benefit obligation for transferrable benefits, mainly fixed and specific assumptions are used within the framework of the New Law. However, the final obligation amount that the Bank will bear at the transfer may vary depending on factors such as the discount rate, inflation and salary increase and number of participants and attrition rate.

| | Current Period | Prior Period |
|--------------------------------|----------------|--------------|
| Opening balance | 2.945.243 | 1.813.098 |
| Amount recorded under equity | 7.028.582 | 1.084.664 |
| Contributions paid by the Bank | (1.818.809) | (880.685) |

| Closing balance | 10.027.806 | 2.945.243 |

Yapı ve Kredi Bankası A.Ş.

Notes to unconsolidated financial statements as of December 31, 2023

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL"))

The amounts recognized in the balance sheet are determined as follows:

| | Current Period | Prior Period |
|---|----------------|--------------|
| Present value of funded obligations | 18.119.593 | 8.219.529 |
| - Pension benefits transferable to SSI | 11.186.741 | 9.537.922 |
| - Post employment medical benefits transferable to SSI | 6.932.852 | (1.318.393) |
| Fair value of plan assets | (8.091.787) | (5.274.286) |
| Provision for the actuarial deficit of the pension fund | 10.027.806 | 2.945.243 |

The principal actuarial assumptions used were as follows:

| | Current Period | Prior Period |
|--|----------------|--------------|
| Discount rate | | |
| - Pension benefits transferable to SSI | 9,80% | 9,80% |
| - Post employment medical benefits transferable to SSI | 9,80% | 9,80% |

Mortality rate: Average life expectation is defined according to CSO 1980 mortality table.

Plan assets are comprised as follows:

| | Current Period | | | Prior Period |
|-------------------------------------|----------------|-----|-----------|--------------|
| | Amount | % | Amount | % |
| Bank placements | 2.312.910 | 29 | 1.237.561 | 23 |

 Includes tax effect related to foreign currency valuation differences in TL column.

3 Explanations and notes related to off-balance sheet accounts

3.1 Information on off balance sheet commitments:

3.1.1 The amount and type of irrevocable commitments:

| | CurrentPeriod | Prior Period |
|-------------------------------------|---------------|---------------------|
| Commitments on credit card limits | 512.438.126 | 136.756.258 |
| Asset purchase and sale commitments | 72.643.748 | 35.118.725 |
| Loan granting commitments | 96.706.632 | 53.491.909 |
| Commitments for cheques | 8.435.319 | 5.482.867 |
| Other irrevocable commitments | 106.052.213 | 29.421.817 |
| Total | 796.276.038 | 260.271.576 |

3.1.2 Type and amount of probable losses and obligations arising from off-balance sheet items:

Obligations arising from off-balance sheet are disclosed in "Off-balance sheet commitments". The Bank set aside general provision for its non-cash loans amounting to TL 1.782.092 (December 31, 2022 - TL 1.143.394) and specific provision amounting to TL 2.028.872 (December 31, 2022 - TL - 1.431.465) for non-cash loans which are not indemnified yet amounting to TL 1.508.223 (December 31, 2022 - TL 1.078.763).

3.1.2.1 Non-cash loans including guarantees, bank acceptance loans, collaterals that are accepted as financial guarantees and other letter of credits:

| | CurrentPeriod | Prior Period |
|----------------------------------|---------------|---------------------|
| Bank acceptance loans | 2.178.212 | 864.879 |
| Letter of credits | 51.798.505 | 32.164.021 |
| Other guarantees and collaterals | 28.183.409 | 28.350.265 |
| Total | 82.160.126 | 61.379.165 |

3.1.2.2 Guarantees, suretyships and other similar transactions:

| | CurrentPeriod | Prior Period |
|---------------------------------------|---------------|--------------|
| Temporary letter of guarantees | 5.075.662 | 4.124.146 |
| Definite letter of guarantees | 147.128.857 | 90.240.341 |
| Advance letter of guarantees | 44.721.720 | 29.283.824 |
| Letter of guarantees given to customs | 7.917.628 | 5.894.112 |
| Other letter of guarantees | 99.468.665 | 52.626.883 |
| Total | 304.312.532 | 182.169.306 |

3.1.3 Information on non-cash loans:

3.1.3.1 Total amount of non-cash loans:

| | CurrentPeriod | Prior Period |
|--|---------------|---------------------|
| Non-cash loans given against cash loans | 96.627.631 | 50.905.414 |
| With original maturity of 1 year or less than 1 year | 9.930.139 | 8.240.689 |
| With original maturity of more than 1 year | 86.697.492 | 42.664.725 |
| Other non-cash loans | 289.845.027 | 192.643.057 |
| Total | 386.472.658 | 243.548.471 |

3.1.3.2 Information on sectoral concentration of non-cash loans:

| | | | Current Perio | od | | | Prior Per | iod |
|-----------------------------------|-------------|--------|---------------|--------|------------|--------|-------------|--------|
| | TL | (%) | FC | (%) | TL | (%) | FC | (%) |
| Agricultural | 4.459.418 | 2,50 | 5.619.898 | 2,71 | 2.394.159 | 2,39 | 2.605.156 | 1,81 |
| Farming and raising livestock | 3.822.365 | 2,14 | 3.008.408 | 1,45 | 1.786.275 | 1,79 | 1.643.448 | 1,14 |
